Plumbing.

The art of sanitary plumbing has been brought into great prominence of late. The frequent deaths and more frequent sicknesses coming from bad sewerage have led the public to give the question of sanitary plumbing more than passing notice. Poor plumbers, who have given but half the time to the learning of their trade which is needful, are becoming less and less in demand. The people must and will have first class work in plumbing, as it concerns their own lives. Among the plumbers who have been established some time and who are noted for their first class work is Mr. David Whiteford, of 346 West Randolph Street. Mr. Whiteford is making a specialty of sanitary plumbing, and any work which is given to him will be done in a skillful and satisfactory manner. Mr. Whiteford has the experience of 21 years in practical plumbing.

A peculiar case was decided in the Cedar Rapids Superior Court. An action was brought to recover rent. The defendant's answer was that the lessor knew when he signed the lease that the premises were to be used for the sale of liquors, in violation of the new prohibitory law not yet in operation. The Court instructed the jury to find for the defendant.

ADVERTISED SALES.

For further sa'es during May and June see past numbers of this Jonrnal.

A. W. Herr AND Co.

Manufacturers of

Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, aud find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

Lumber, Shingles, Etc.

We would especially call the attention of our numerous readers and patrons among Architects, Builders, Carpenters and Property Owners to the unsurpassed facilities possessed by the well known representative house of MESSRS. CUTLER, WHITE & BOICE, for supplying the trade at their extensive yards, with the best in lumber, lath, shingles, etc. Their products, conceded to be of the best forest growth, have, in consequence, won their way, through their intrinsic merits, until now the demand for them is very large. Buyers dealing with this reliable house can always depend upon receiving the goods exactly as ordered and represented. Their facilities conld not be better, their products are equal to the best, their prices as reasonable as the market will allow; hence, their customers, already many, are daily increasing in number. Special specifications are cut to meet the requirements of customers, and all orders addressed to the firm, whose office and yards are located West End of 18th Street Bridge, Chicago, Ill., will as heretofore, we are sure, have their best attention.

Well-Made Roofs.

The fact that the roof is about the last piece of work done to the exterior construction of a house is apt to cause it to be slighted in some cases, especially where the estimates for the cost of the remainder of the structure have been exceeded. No greater mistake could, however, be made, for without a well-made roof the stability of the entire structure is likely to be impaired by the effects of the elements. Good material and conscientious work are essential in this important branch of the building trade, not only in new work but in the repairs; the roof is usually the first part of the house to need it. Among our leading mechanics in this line of business, a gentleman whose work we have been on several occasions called on to commend, is Mr. R. HUGHES, practical metal and slate roofer and manufacturer of galvanized iron cornices, skylights, mouldings, gutters, leaders, window caps, etc., at 95 West Washington Street, Chicago, Ill.

He has been in business for years, employs a number of skilled workmen, and has successfully executed a vast number of contracts for the best known citizens, builders and others, and wherever he has done work he has always succeeded in giving satisfaction. The care he exercises in every detail, and the beauty of some of the designs of cornices, front ornaments, etc., he has prepared, have gained him the excellent reputation of a skillful manufacturer. To owners of buildings in course of construction, architects and builders, near and far, he is prepared to furnish estimates for the entire roofing, gutters, cornices, etc., and he will also undertake repairs on both metal and slate roofs, guaranteeing the prompt and careful execution of all work entrusted to his charge. We refer to his card on last page of cover.

Real Estate and Loans.

Mr. J. A. Schleiss, for some time a member of the firm of Purer and Schleiss, is carrying on the Real Estate business formerly transacted by the firm, at the same location, 729 South Halsted Street. Mr. Schleiss is engaged especially in buying and selling the property of one of the most growing parts of the city, viz.: the Southwestern part. Those who are desirous of information in regard to this property can obtain it from Mr. Schleiss.

The rapid growth in the Southwestern part of the city, both in population and building, has greatly enhanced the property in this locality. In many cases property brings twice the money that it did a few years ago. Among the Real Estate and Loan men who are making this property a specialty is Mr. J. T. Stepina, with office at No. 581 Blue Island Avenue. Mr. Stepina is well acquainted with properties in this part of the city, and hence, is able to negotiate satisfactorily with those who are looking for bargains in this property.

Charles S Hine was awarded $10,000 in Judge Van Vorst's court in New York for damages against the "L" road for the diminution of the value of his property by reason of the road being built.

The London Athenæum publishes the following extract from a letter from Dr. Schliemann, dated Tiryns, Apl 11, 1884: "Three cheers to Pallas Athena! In fact I have succeeded here in a wonderful way, having brought to light an immense palace with innumerable columns, which occupies the entire upper acropolis of Tiryns, and of which the floors and walls are well preserved. . . Of paramount interest are the wall-paintings, which my architect and collaborator, Dr. Dorpfield, is now copying with the same colors. Of the very highest interest are also the vase-paintings with the most primitive representations of men and animals. The plan of this wonderful pre-historic palace can be made with great accuracy, and it will excite universal amazement, for nothing like this has ever turned up. . . . The capital found is one of the most ancient Doric order ever discovered."

LUMBER MARKET.

The week closes quiet at the Franklin and South Water Streets market. But little really good lumber was offered, and buyers evinced no desire to take hold. Dry strips continue to be most needed and sell readily when everything else is dull. Shingles do not improve any. Prices ruled steady in spite of the absence of trading, dealers being apparently contented to hold the stuff rather than sell under the prices that have ruled the last two weeks.

Piece stuff was quoted at $9.00@9.25, No. 2 strips and boards at $10.00@12.50, medium at $12.50@15.00, and No. 1 at $16.00@20.00. Standard shingles were quoted at $1.75@2.00 and extras at $2.10, with lath $1.60@1.75.

The situation at the yards is practically unchanged. There seems to be a good deal of lumber sold, but at prices not at all satisfactory to the yard-dealers. Stuff bought on the cargo market at $9.00 is sold at $10.25 or $10.50 at the yards, barely paying for the handling. June, however, is the critical month of the trade, and dealers hope to get through without a break in prices, in which case they anticipate more business and a higher range of prices. The following is the prices for June for stuff not rated in the monthly lumber market price list on Page 15 of this Journal:

Timber, joists and scantling, all 2x4, 12 to 24 ft	$12.00@13.000
Timber, joist and scantling, all 2x6, 12 to 24 ft	11.50@15.500
Timber, joist and scantling, all 2x8, 12 to 24 ft	13.00@14.000
Timber, joist and scantling, all 2x10, 12 to 24 ft	11.50@15.50
Timber, joist and scantling, all 2x12, 12 to 24 ft	13.50@15.50
Timber, joist and scantling, 4x4, to 8x8, 12 to 24 ft	13.00@15.50
2-in cull plank, promiscuous width	9.00
2x4 cull, 12, 14, and 16 ft	9.00
Extra A Shingles	2.60
Choice extra shingles	2.45
Standard A shingles	2.25

—o—

WHITEWOOD.

Until recently, for finishing purposes, and for the manufacture of sash, doors, and blinds, whitewood was little thought of north of those sections where it grows plentifully. A representative of one of the largest sash, door, and blind factories in the country recently said in this office that if he were building he would have little choice between pine and whitewood for the purposes above mentioned. He admitted that his interest is purely identified with white pine, and that he would not admit openly that whitewood is the peer of pine; such, however, in his opinion, is a fact. This is a big admission to come from such a source, but one that is based on a good foundation.

It can be easily understood why whitewood can be used successfully for many purposes for which pine is employed. It is more inclined to twist than pine, but this is not much of an objection where it can be used in small pieces, or if in large ones, securely fastened. Even gum, the most rebellious wood that grows out of the ground, if properly nailed, answers for finishing admirably. Whitewood is very easy to work—it probably ranks next to pine in this respect—takes a good finish, and makes a close joint. There are complaints against cypress for sash, doors, and blinds because, it is said, it is too hard a wood to drive together and make a perfect joint. Too much work must be put on the pieces where they come in contact to cause them to fit closely. In pine work this extra work is unnecessary. The wood is so soft that it readily gives, and the tight joint is at once produced. There are others who claim that such a fault with cypress does not exist; but that it does somewhat there can be no question. Not that perfect cypress sash, doors, and blinds are not made, but it requires a little more attention and labor to make them than it does from pine. In regard to softness, whitewood probably ranks next to pine; it is not quite so easily worked as pine, and a little more easily than cypress.—Scientific American.

Real Estate and Building Journal

R. C. SMYERS, PROPRIETOR.

CHICAGO, SATURDAY, June 21, 1884.

THE MARKET.

At this season of the year when schools and colleges are having their closing and commencement exercises, and when capitalists and business men are turning their thoughts towarad summer resorts, or a trip across the ocean, it is but natural that Real Estate Agents should experience a feeling of repose. Not that schools and colleges have any direct bearing on the market, but because the ever recurring cessation from toil and activity in the world of labor, must come to the student and the teacher as well as the merchant and speculator. From the 8th to the 14th of June, convention No. 1. served to divert every body's attention from business and now following in the same wake is the approaching Democratic Convention. Once every four years there is in the minds of the financial and business men of the country, a feeling of uncertainty whether well grounded or not, because confidence is the great mainspring of trade. Politicians and not the people run the government. Business men are to much absorbed in their affairs to counteract the machinations of the former, and thus at this time they are seen standing on an eminence with their hands folded, watching the course of events.

The local conditions of the market are about as follows. The continued activity in building has left quite a number of vacant houses on the hands of owners and agents and not that Chicago has ceased to grow.

The avarice and meanness of some landlords who handle their own property and fight their taxes, and frequently refuse to make any improvements, or provide any of the conveniences and comforts paid for in high rents are the cause of many of the vacant houses and stores remaining idle. Flat building has been overdone as is evident by the large per cent of vacant apartments as compared with cottages and single houses. Building and rents are such important fact ors in this subject that we mention them first, so that other influences of a more general nature are more clearly seen. Chicago has been even more conservative in house building and speculation in real estate than New York and several of our Western Cities. In the former city several failures are reported, and in some instances the bubbles have bursted in western towns and left the foolish adventurer richer in experience but poorer in purse. Last week a fair inquiry was reported but the uniform ex-pression of the agents this week is "a quiet market with confidence in the present and future value of Chicago real estate."

REAL ESTATE LAW.

SUPREME COURT OF ILLINOIS.

15—10—8.—John Grim et al v. Coruelius Murphy. (Opinion by WALKEL, J., reversing and remanding.) Filed at Mt. Vernon, June, 1884.

1. BOUNDARY — PARTIES MAY SETTLE BY PAROL.—The owners of adjoining tracts of land may by parol agreement settle and permanently establish a boundary line between their lands, which when followed by possession according to the line thus agreed upon, is binding and conclusive, not only upon them, but also upon their grantees.

2. LIMITATION—ADVERSE POSSESSION MAY BE SHOWN BY INFERENCE FROM CIRCUMSTANTIAL EVIDENCE.—Adverse possession of land under the limitation law may be shown by inference from circumstantial evidence. In respect to a disputed boundary line the fact that the defendant placed his fence twenty feet north of what was generally regarded and he was told was the true line, and that he built his house and planted his orchard on the disputed land, are circumstances from which a jury may infer his title was adverse, and that he claimed to own the land, and this too in the absence of any declarations of such claim of adverse possession. It is not true that adverse possession can be proved only by clear and positive evidence. It may be proved by any legitimate testimony, and by a mere preponderance like any other issue.

3. INSTRUCTION—BASED ON A FALSE STATE OF FACT IN ISSUE, IS ERRONEOUS.—In ejectment to recover a strip of land which had been occupied by the defendant for twenty years under a claim that it was within the boundaries of his quarter section, in which the twenty years limitation law was set up as a defense, the court instructed the jury for the plaintiff, that if the defendant by his declarations and acts admitted that his fence was not a fixed and settled boundary line between the lands in dispute, they should find the Statute of Limitations was no bar. There was no pretense that the defendant ever claimed the fence as the boundary line, but he did claim that the center of the road along and twenty feet south of his fence was the line between the two tracts: Held, that the instruction was

erroneous and misleading as calling the attention of the jury from the real to a fictitious issue.

4. LIMITATION—WHEN POSSESSION IS ADVERSE.—If the owner of a tract of land, in inelosing the same, builds his fence on one side in doubt as to whether it is on his own land, and declares that if it is not on the true line, when established he will eonform to it, the possession ontside of the true line and up to the fence will not be adverse. But if such party believed his fence was within the true boundary line, and he took possession and oceupied it under that belief, his possession would be adverse, nor would his statement that if it should be established that it was not the true line before the bar of the statute han run, he would submit and regard the true line nnder his possession subservient to the true owner.

5. INSTRUCTION—WHEN SELF-CONTRADICTING AND ERRONEOUS.—In a contest over a strip of land, between adjoining owners, growing out of a disputo as to the true line dividing the two traets, in which the defendant relied upon the Statute of Limitations, the court, at the instance of the plaintiff, instructed the jury that if the defendant occupied the land up to his fence because he believed it to be the true line, without intending to claim to the fence, if it should not be the line, then an element of adverse possession was wanting: Held, that the same was not aecurate and should not have been given, its language being self-contradictory.

HYDE PARK SUBDIVISION.

The Superintendent of Special Assessment submitted a report, stating he had approved the following plats, viz.:

John Woodbridge's subdivision in Sec. 30 T. 38, 15.

Young Trustees' subdivision in Sec. 11. T. 38, 14.

Dolcher's subdivision in Sec. 10, T. 38, 14.

Car Shops' subdivision in Sec. 31, T. 37, 15.

Gibbs' subdivision in See. 15, T. 38, 14.

Calumet & Chicago Canal & Dock Co., subdivision in Sec. 31, T. 37, 15.

Brent's subdivtsion in Sec. 10. T. 38, 14.

BUILDING NEWS.

— Port Huron, Mieh., is to have a $15.000 jail and county offiee building.

— Over $50,000 will be expended at Hastings, Mich., in new buildings this season.

— The Catholic chureh at Marshalltown, Ia., is to build a new edifice, to cost $20,000.

— Work has commeneed on a 50,000 bushel elevator for Pillsbury & Hurlburt, at Devil's Lake.

— The eontracts for two school houses at Council Bluffs have been awarded. They will cost $20,000 each.

— John Quinn is to build a frame dwelling in Hyde Park, to cost $3,000, and A. E. Buisserg is to have one to cost $2,000.

— The contraet for building the Charleston iron bridge, at Charleston, S. C., to cost $60,000, will be awarded some time this month.

— The building operations are reported as being very active in Hyde Park, and promises to exeeed in importanee those of last year.

— W. H. Burnut's handsome brick residence on Forty-ninth Street, near Lake Avenue, is being rapidly pushed toward completion.

— $40,000 has been subscribed toward building a eotton mill at Aberdeen, Miss., and it is expected to raise $100,000, the full amount of the cost, in a short time.

— At a special election at Jaekson, Mieh., it was voted to expend $50,000 for a city hall building, $50,000 for buying water pipes for extension of mains, a new engine for the water works, and $25,000 for a new fire engine. house and apparatus.

— A block of four three-story houses, with pressed briek front and red sandstone and terra cotta trimmings, is being built at Hyde Park, on Oakwood Boulevard, to cost $25.000. The owners are McKnoen Bros. and Wm. Mayor.

— The board of eounty commissioners of Van Buren county, Mich., are no fools, as the following sharp bit of work will demonstrate: The eounty needed a new poorhouse, but could not, under the law, appropriate more than $1.000 for such purpose while the county owned a poor-farm. The board were bound to have the poor-house, so they sold the farm to a gentleman for $4,000. And then being without a poor-farm the county could appropriate any amount up to $12,000, without taking a vote of the people; the board voted $9,000 for the proposed new building and then bought baek the farm. They deserve commendation for their shrewdness.

Minneapolis.

— S. G. Cook is projeeting some new ware-houses above the Omaha yard to cost $30,000.

— Henry Burtseher is laying the foundation for a house to cost $2,000 on Nineteenth street and Fifth avenue south.

— The improvements on the Lake Park Hotel are nearly eompleted, and the house will be ready for the opening by June 21.

— Hunt is architect for a house for W. A. Spaulding on Franklin avenue, between Nicollet and Lyndale, to eost $4000.

— Wm. J. Moore is laying the foundation for a $1000 house on Twenty-fifth street, between Fourteeth and Fifteenth aves south.

C. Holmberg is building a house, to cost two thousand dollars or over, on Eleventh avenue south between Twenty-forth and Twenty-fifth streets.

— The Friend's Soeiety is erecting a building, 30x40 to cost about three thousand for their mission school, on Tenth avenue south and Twenty-fourth street.

— G. L. Johnson has the foundation laid for a $2000 store buildings, of twenty-four feet frontage; on Franklin avenue, between Fourteenth and Fifteenth avenues south.

— A whole army of men are at work on the West Hotel, and the work on the inside is progressing rapidly. The glass is being put in the windows, and the frescoers are at work on the walls.

— The foundation walls have been laid for the Norwegian Methodist Church, on the corner of Thirteenth avenue south and Ninth street. The foundation is of heavy stone, and the walls will be of brick. The building is 55x60 ft, and will eost about ten thousand dollars.

— Work is progressing rapidiy on the Irving School Building, the seeond story walls being already up. It is situated on the square bounded by Sixteenth and Seventeenth avenues, and Twenty-eighth and Twenty-ninth streets, is unusually well built; has eight school rooms, and will cost about twenty-five thousand dollars.

Nicollet is to have three new syndicate blocks near Sea's store for retail business. Parties are negotiating at the present writing. The corner store in Mrs. Bliss' new bloek on Eighth and Nicollet is already rented for $1800.

A Representative Real Estate Agency

The aggregate value of all the real estate in the City of Chicago reaches fabulous figures, and the management of this vast property, together with the negotiation of various transaetions to whieh it gives rise, renders the business of real estate agents of more than ordinary importanee. Knowledge of property values and kindred subjeets ean only be gained by lengthy experienee, and the value of the serviees of a real estate agent ean be calculated only by the profieiency this experience insures.

Among those SPECIALLY qualified in this respect, with years of untarnished record, few are better known than MESSRS. JAS. B. GOODMAN & Co., No. 68 East Washington Street, Chicago, Ill. For many years aetively engaged in real estate business, they enjoy a widespread conneetion among prominent property owners, for whom they manage estates; at the same time they are the realty appraisers for several important institutions and estates, a position requiring the most aecurate and thorough acquaintanee with the value of property in all parts of the city and vicinity.

In addition to this department they also represent some of our wealthiest capitalists, for whom they negotiate loans, mortgages, etc., and make a specialty of the entire management of property, collecting rents, supervising repairs, securing tenants, obtaining insurance, etc.; indeed they earry on the business in its widest meaning, and

DIXON & PETERSON,
(Successors to C. G. Dixon & Co.)
Manufacturers of
CARPENTERS' MOULDINGS,
Also Brackets, Balusters, Newels Etc.,
13 AND 15 NORTH CANAL STREET,
CHICAGO, ILL.

have at all times improved and unimproved city and suburban property, as well as timber and mineral lands of the choicest kind, on their lists, to suit all buyers.

Messrs. James B. Goodman and M. A. Farr, constituting this reputable firm, are gentlemen of the strictest integrity, unquestioned ability and courteous treatment in all their transactions, wherefore owners and purchasers of real estate will find their experience and thorough business knowledge of the utmost value in the management of their real estate and in the negotiation of purchases, sales, etc., while on application to them at their office, they will furnish full information concerning eligible property for business and residence purposes, which is on their lists for sale and to rent.

Warnstedt F to G W Thilo, May 6, pt of lt 19 b 2, Sheffield's add, 3 y, 6%.....$700

The tax levy of Jefferson has been fixed by the trustees at $37,000 for the ensuing year. Improvements were ordered in different streets, amounting to $4,655, and the clerk was instructed to advertise for bids for the work.

The new lumber tariff, adjusted by the Northwestern Traffic Association, which goes into effect June 11 and is to stand a year, does not please the lumbermen of St. Paul and Minneapolis, as they claim that the rates are higer for them than Chicago.

A. W. Herr and Co.

Manufacturers of
Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

Interesting to Ladies.

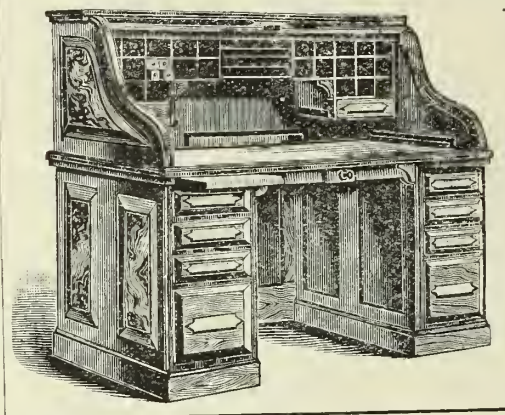
Our lady readers can hardly fail to have their attention called this week to the latest combination of improvements in that most useful of all domestic implements, the "sewing machine."

As we understand it, a machine for family use should meet first of all these requirements: It should be simple in its mechanism; it should run easily; it should do a wide range of work; it should be as nearly noiseless as possible; it should be light, handsome, durable, and as cheap as is consistent with excellence throughout.

These conditions the "Light-Running New Home" certainly meets. It has also several very important and useful attachments and "notions" of its own, which go far to make good its claims to popular favor.

The "New Home" specially recommends itself to purchasers on account of its superior mechanical construction, ease of management and reasonable price. Over half a million have been sold in the last three years, all of which are giving universal satisfaction. This unrivalled machine is manufactured by the NEW HOME SEWING MACHINE Co., 30 Union Square, New York, who wish us to say that all who will send for their new illustrated catalogue and enclose their advertisement (printed on another page), will receive a set of fancy advertising novelties of value to those collecting cards, etc.

Geo. A. Farnum & Son.



CONCRETE PAVING.

Asphaltum is found in large quantities in Trinidad and Barbadoes, and has hitherto been used only in monolithic form, or moulded without pressure into blocks. Experience has demonstrated, however, that in this form it is not sufficiently compact. Many efforts have been made to remedy this, without practical results. The necessity thus shown of having this useful material put into durable and useful form has induced experts to devise a method by which such ends could be accomplished, resulting in the following process of crushing and heating calcareous matter (which, when heated, has great affinity for Asphaltum,) and while heated bringing such in contact with heated Asphaltum (of a proper temperature and properly tempered), in proper proportions of each. This mixture is then pressed into shape, and possesses all the qualifications of a lasting material for pavements, sidewalks, lawnwalks, driveways, cellar bottoms, malthouse floors, boiler pits, roofs, etc., and has not its superior. The same may also be said of the Portland Cement Concrete, which fills the bill in every way. That both these excellent materials are solid, durable, water and rat proof, and unaffected by heat or cold, has been abundantly proved, and for these reasons are unquestionably economical. They are endorsed and highly recommended by our most prominent Architects, Builders, Real Estate Owners, etc.; and as the REAL ESTATE AND BUILDING JOURNAL is extensively read by parties near and far interested in Realty, by parties near and far interested in Realty, and who look to us for information which may be of benefit to them, we especially call their attention to these excellent materials, and when they need pavements, sidewalks, lawnwalks, driveways, water-tight cellar bottoms, malthouse floors, boiler pits, roofs, etc., laid in a solid and durable manner, MESSRS. GEO. A. FARNUM & SON are just the gentlemen to do it, whose name connected with this kind of work is an absolute guarantee that whatever they undertake to do is beyond criticism, being perfect, substantial and lasting. For further information on the subject, by calling on them at their office, No. 60 and 62 South Clinton Street, Chicago, Ill., their immediate attention will be given to all inquiries. Their telephone number is 4418.

"THE BEST IN THE WORLD."

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

Improved Dumb Waiters.

THE OUTPUT OF A LEADING MANUFACTURER.

The height of modern apartment houses as well as the necessities of private dwellings, make dumb waiters really indispensable, and as a consequence such labor-saving apparatus are constantly meeting with a very large demand in this as well as all our principal cities. It is well for architects and owners of buildings to bear in mind that the best are always the cheapest. A leading and well-known mechanic engaged in their manufacture is that of Mr. M. B. Swezey, No. 120, 20th Str. Chicago, Ill. He has a well equipped factory, skilled workmen, the best of facilities for production, and, being a practical mechanic of many years experience, he is prepared to turn out seperior styles of dumbwaiters, of the most durable kind, which will work efficiently, and not liable to get out of order. He is the manufacturer of the celebrated Swezey's Improved Dumb Waiters with automatic catch, which give universal satisfaction wherever used. They are of the most approved pattern. made to suit any sized shaft. and, in fact, every existing requirement for which such appliances are used, and fully guaranteed. He does a large business in these appliances, which are being rapidly introduced into the most costly and completely finished buildings in Chicago and elsewhere, being highly endorsed by the leading architects, builders and property-owners everywhere.

He is also well known and esteemed as a prominent Carpenter and Builder, and while carrying on a general line of work, he makes a specialty of office and store furniture work, which under his supervision never fails to prove satisfactory to those availing themselves of his services. All orders received by mail, or otherwise, will as usual have his immediate and best attention.

BUILDING DEPARTMENT.

—)o(—

LUMBER MARKET.

At the Exchange docks there was a light business transacted in lumber and shingles during the week just closed. The weather prevented buyers from taking hold. The demand for dry stock at the yards was light and only in small lots. The receipts have fallen off slightly, the total of which since Jan. 1, amounts to 576,877,000 feet of lumber and 309,806,000 shingles. The shipments since Jan. 1, 1884, up to Tuesday, amount to 411,567,000 feet of lumber and 23,540,000 shingles.

The following is the prices for June for stuff not rated in the monthly lumber market price list on Page 15 of this Journal:

Timber, joists and scantling, all 2x4, 12 to 24 ft	$12.00@13.000
Timber, joist and scantling, all 2x6, 12 to 24 ft	11.50@15.500
Timber, joist and scantling, all 2x8, 12 to 24 ft	13.00@14.000
Timber, joist and scantling, all 2x10, 12 to 24 ft	11.50@15.50
Timber, joist and scantling, all 2x12, 12 to 24 ft	13.50@15.50
Timber, joist and scantling, 4x4, to 8x8, 12 to 24 ft	13.00@15.50
2-in cull plank, promiscuous width	9.00
2x4 cull, 12, 14, and 16 ft	9.00
Extra A Shingles	2.60
Choice extra shingles	2.45
Standard A shingles	2.25

—o—

BUILDING MATERIALS.

There was a good call for everything in this line at the prices published in another column, due to the continued activity in building throughout the city and suburbs.

The prices of building materials will be reported by the Builders and Traders' Exchange, hereafter, and thus save a vast amount of growling on the part of consumers.

GERMAN ARCHITECTS.

In Germany a very singular custom is in vogue, under which the architect himself sometimes undertakes to erect, for a lump sum, the building which he has designed. Although this is rather shocking to our notions, it can hardly be said that there is anything really objectionable in such a custom. On the contrary, under it the owner, if he has made the architect understand his wishes, can be absolutely certain of having them carried out for the price agreed upon, without extras, since the architect cannot plead that he did not understand the plans, or that something was omitted from the specifications, as an excuse for making an additional charge; and the architect himself, if he has been careless about his plans, will be taught a useful lesson by having to pay out of his own pocket the cost of making good the defects, while, if he has shown care and skill, he will be rewarded by securing the builder's profit, in addition to his own commission, without any diminution. Even in this country engineers often carry out their own designs in this way, and an architect who happens occasionally to be asked to follow their example should not, we think, be too hasty in refusing, although no one would wish to see the custom become general. One of the considerations mentioned by Mr. Cate's German correspondent against the practice of contracting with a single mechanic is worthy of note as suggesting a strong argument in favor of confiding the entire responsibility of buildings of the more decorative class to the architect. In Germany, an artistic building can never be completely finished from the first design and the first estimate, but the chief and best portion of the work must be designed and worked out during its construction. "There is, however," he goes on to say, "an end to this, when a contractor undertakes the building. Alterations can then be made only under stringent and costly conditions, which give occasion for all kinds of disputes." Am. Arch. & Bldg. News.

CHICAGO, SATURDAY, June 28, 1884.

REAL ESTATE NEWS.

BUILDING OPERATIONS.

Beyond what the record columns in this Journal disclose, nothing of vital interest in the field of real estate has transpired, except the new building project in the new Board of Trade centre. During the week just closed there has been consummated one of the largest and most important real estate deals that has been made in Chicago since the new Board of Trade district received its first boom.

Soon after the Board of Trade determined on the location of its new building on Jacksonstr. Messrs. Armour, Kent & Bensley purchasedthe remainder of the block adjoining on the south, and a grand rush was made for the unoccupied property adjacent thereto. The block that received the most attention was that lying east of the new Board building, bounded by Jackson on the north, Clark on the east, Pacific av. on the West and Van Buren on the south. The owners of the above property were unwilling to sell, but were desirous of leasing.

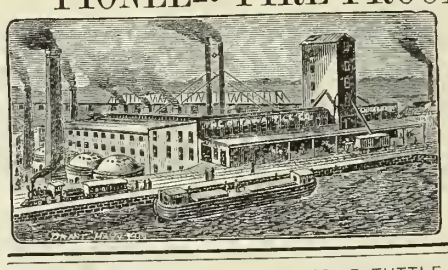
The second lot, south of Jackson, fronting on Clark and Pacific av., was leased to H. S. Eberhart for 99 years, at an annual rental of $7,000. The next 50 foot lot was leased to Wm. McCoy for 99 years at $6,000 per annum. The fourth 50 ft. lot south from Jackson str. was leased to Mr. Everhart for his principals. and the next 100 ft. to the Open Board of Trade for 50 years at $14,000 per annum. Mr. Fred. S. Eames, cashier of the Com. Nat. Bank, and several other capitalists, have purchased the leases held by both Everhart and McCoy for $25,000 each, and assumed all the responsibilities named therein. It is understood that the syndicate haue closed negotiations with Mr. McNeill for a combination of the property held by each with the view of erecting one of the finest office buildings in the United States. Messrs. Burnham & Root have been engaged to draw plans for a building or a series of buildings.

The call for building permits continues unabated at the City Hall for the erection of buildings in all parts of the city.

In the absence of a boom in real estate, the continued activity in building furnishes a sufficient compensation, although Messrs. J. P. White & Co. report an inquiry for 10 acres lying along the proposed line of the Chicago & Calumet R. R. in Hyde Park, and Messrs. Knight & Marshall have a letter from a wealthy southern capitalist, asking for further particulars in regard to an offer for business property.

REDFIELD & BLAINE, prominent real estate men of Englewood, have just published a pamphlet of 32 pages on Englewood. This book is for free distribution. Buyers and those who are interested in this pleasant suburb, can obtain a copy by sending for it at their office, 6134 Wentworth ave.

We take the following from it:



ENGLEWOOD.

Location: It lies due south from Chicago, whose southern boundary line (39th street) lies only two miles north of the north boundary line of Englewood (55th street). There is embraced within the village limits all that territory lying between 55th and 71st streets and Halsted street and Sonth Park avenue. It is west from the chilly dampness of the Lake Shore about 2½ miles. In altitude it is 26 feet above the Lake level; 12 feet higher than Chicago, and 14 feet higher than Hyde Park, proper.

VALUES.

Good residence property on a sewered street readily brings $35 per foot as the minimum, and $60 for the maximum figures. Other property, which will soon be marketable and in demand, brings from $15 per foot up to $35. A good nine or ten-room house, with modern improvements, eligibly situated, brings from $5,000 upwards. The range of prices in improved property is from $1,500 as a minimum, up to $25,000 as the maximum. Adjacent desirable acre property brings from $1,500 to $3,000 per acre. There is a constant and growing demand for houses to rent and at this writing, May, 1884, there is not a desirable house for rent in the village, although the building of such has increased within the past year at the rate of 20 per cent. These that are rented, however, pay from 10 to 15 per cent. on the money invested and are always in demand.

INTENDING PURCHASERS

should call upon REDFIELD & BLAINE (successors of Chandler S. Redfield), who have their office at No. 6134 Wentworth avenue. They have been handling Englewood property exclusively for the past eleven years, and have contracts with owners in many parts of the village where they are empowered to build houses to suit purchasers on any terms that would be considered reasonable to the seller and purchaser. Such arrangements can be made, sometimes with a very small cash payment, say one-third to two-fifths of the purchase price to stand five years at seven per cent. as first mortgage upon the property, and balance secured by second mortgage or trust deed, to be paid in monthly, quarterly, or semi-annual payments.

INVESTORS.

No more desirable point than this can be found within the bounds of Cook county, where capital can be invested more judiciously, with less risk or more certainty of producing adequate returns, either as a source of income, or means of speculation.

CITY COUNCIL.

BUILDING NEWS.

— The Methodists of Massillon, Ohio, are building a $40,000 church.

— The Catholics of Charlevoix, Mich., are talking of building a church.

— The new jail at St. Clair county, Mich., will be commenced immediately.

— The Catholics of Lake Linden, U. P., Mich., will build a convent soon.

— St. Paul, Minn., will build nearly $160,000 worth of school buildings this year.

— The contract for the erection of the Brainerd, Minn., high school has been awarded at $27,525.

— The contract for building the new school-house at Elk Rapids, Minn., has been let for $11,500.

— A portion of the water-mains for the water-works in Champaign, Ill., has arrived and work of laying them has already begun.

— The formal opening of the Builders & Traders' Exchange, at 159 LaSalle Street, Chicago, took place on Thursday, June 26, 1884.

— Work has commenced on a 50,000 bushel elevator for Pillsbury & Hurlburt, at Devil's Lake, Minn. Over half a million bushels of wheat will be marketed there this fall.

— The foundation walls have been laid for the Norwegian Methodist Church, at Minneapolis, Minn. The foundation is of heavy stone, and the walls will be of brick. The building is 55x65 feet and will cost about $10,000.

— The Minneapolis, Minn., Builders' Exchange has filed articles of incorporation with the Secretary of State, according to law, and as soon as suitable quarters are procured will be ready for the business for which it was organized.

— The corner-stone of the new Indiana University buildings, at Bloomington, to be completed by Dec. 1, was laid June 10, with interesting ceremonies and great enthusiasm. The buildings are to take the place of those destroyed by lightning last July.

REAL ESTATE LAW.

MORTGAGE.—RIGHT OF JUNIOR MORTGAGEE TO REDEEM.—A junior mortgagee, when not made a party to the foreclosure of the mortgage, has a right to redeem therefrom; and while a mortgagee in possession must account for the rents and profits during his possession, to a party entitled to redeem, still, when one acquires possession of mortgaged premises in the belief that he holds the title under the foreclosure proceedings, he is entitled to claim, upon redemption being made under the mortgage, the value of the improvements made by him, and also any rents derived therefrom: Poole et al, v. Johnson. Supreme Court of Iowa. December, 1883.

PROPERTY SOLD—PROFITS FROM USE.—The opinion of the United States Supreme Court, by BLATCHFORD, J. Where property was sold to H. by order of a court of bankruptcy, he not paying for it, the court, without notice, vacated the order of sale, and made an order selling it to C., who paid for it and went into possession of it. Afterward, on review, the sale to C. was set aside and the sale to H. reinstated. H. having paid for the property, received possession of it, and afterward the money paid by C. was repaid to him: Held, that C. was not liable to pay to H. the profits derived by him from the use of the property while he had it.

SUPREME COURT OF ILLINOIS.

HEAD-NOTES TO OPINIONS FILED AT OTTAWA, AND PREPARED BY HON. NORMAN L. FREEMAN, OFFICIAL REPORTER, TO APPEAR IN HIS REPORTS.

9—5.—The Union Mutual Life Insurance Company v. William J. Slee. (Opinion by SHELDON, J., reversing and remanding.) Filed at Ottawa, May 19, 1884.

1. DEED—ABSOLUTE IN FORM WHEN A MORTGAGE OR SECURITY.—The owner of city real estate, after making default of interest on a loan secured by trust deed on the same, turned over the possession of such property to his creditor, who, from that time, received the rents on the same; and after the advertisement of the premises for sale by the trustee, it was agreed that the creditor should bid in the same, and hold it in trust for the debtor until an accounting could be had, when, if the debtor was still owing the creditor anything, a new loan was to be made upon the property. The property was so purchased by the creditor, who shortly afterward caused a judgment by confession to be entered against the debtor for an alleged deficiency between the sum due on the loan and the amount of the bid, upon which an execution was issued and levied upon other property of the debtor, which was also sold and bought by such creditor. Held, that the trustee's deed to the creditor was in equity a mortgage and that the debtor had the right to redeem under the trust deed and the deed of the trustee.

2. AGENCY—WHEN AUTHORITY OF AGENT MAY BE PRESUMED BY A PARTY.—When a debtor applied to an agent of his creditor for an extension of the time of payment or a renewal of the loan, the creditor being a non resident corporation, and the agent a resident of the State acting generally for the creditor as to loans in this State, and at the first interview the agent stated to the debtor that he would communicate with the home office in regard to the proposition made, and afterward such agent in another interview said he was ready to enter into the arrangement that was thereupon made, Held, that from these facts the debtor might properly infer that the agent received the principal's sanction for entering into the arrangement he made, and that the debtor was justified in his reliance upon the agent's authority to make it.

3. INTEREST—RATE NOT CHANGED BY A CHANGE IN FORM OF THE SECURITY.—On a mere change in the form of the security of a debt for money loaned, as where the creditor bids off the property at a sale under a deed of trust, which secures the debt, and agrees with the debtor to hold the title under the trustee's deed as a security until an accounting can be had as to rents received by the creditor, and a new loan is made, which is not done, on a bill for an accounting and for redemption from the trust deed and the trustee's deed, the decree should require the complainant to pay the stipulated rate of interest provided for in the notes up to the time of the redemption, and it is error to require the payment of six per cent. only from the date of the trustee's deed.

☐4. CHANCERY—RELIEF CONFINED TO THAT SOUGHT BY THE FRAME OF THE BILL. On a bill filed to redeem property from a deed of trust, and a trustee's sale and deed thereof by the payment of the sum found to be due the creditor on an accounting, the specific enforcement of an agreement to reduce the rate of interest can not be granted.

Appeal from the Circuit Court of Cook county; the Hon. T. A. MORAN, Judge, presiding.

Walters' Patent Metallic Roofing and Siding Plates.

THEIR ENORMOUS SALES AND EXTENDED USE IN THE UNITED STATES.

It is periectly useless to spend considerable sums of money in erecting great buildings unless they are covered by substantial and lasting roofs. This fact is so perfectly plain that it may seem childish to even announce it. Nevertheless, the roof is the weak point of very many buildings, showing that some one has erred in judgement, or been niggardly in expenditures: Again many roofs that hold light in summer, leak badly in winter under the accumulation of snow and wear and tear generally. How to deal picturesquely with the roof of a building, and at the same time secure durability, has always been a vexatious prob-

13 AND 15 NORTH CANAL STREET,
CHICAGO, ILL.

lem for architects and designers, and in the majority of our buildings the difficulty is obviated by making the roof flat and thus putting it out of sight. At the same time, a well pitched roof is capable of producing in some styles of architecture a most attractive effect, und until recently slate, shingles or tiles, have been used in their construction. The latter are considered out of date at present, and are, moreover, very clumsy to handle and very heavy. Shingles are only considered of any account for temporary use because of their lack of durability; slates are usually too heavy and easily broken, especially by snow and ice after a few years' exposure to the atmosphere.

From the moment the NATIONAL SHEET METAL ROOFING Co. introduced their metallic plates or shingles, they were at once recognized by architects, builders and others as the coming material for roofing, for wall covering, etc. They are light, very ornamental and exceedingly durable, have found rapid introduction, and already hundreds of tons of them are in use here and elsewhere. They are of tin, or copper, of a desirable form or size, and so corrugated that the edges fit over one another, forming a perfectly watertight joint. To secure their durability, they are either prepared with a fine metallic roofing paint, which absolutely prevents rust, even under the edges, or they are subjected to a callamining process, similar but immensely superior to galvanizing, and in which the metallic coating thoroughly permeates it, closing every pore, and being non-corrosive, the shingles or plates will be indefinitely preserved. Of the lightness of this roofing some idea may be obtained when we state that while slates weigh from 750 to 900 pounds to the square, these metallic shingles weigh but 185 pounds. They are of far greater strength, absolutely fire and water proof, and in fact superior to all and every other kind of roofing.

A vast number of handsome buildings in varions parts of the country have been covered with these shingles, and many others under erection have these metallic shingles specially specified, as the leading architects in the land strongly endorse them, and they are, without exception, the NE PLUS ULTRA in roofing.

They are for sale by Mr. L. D. Cortright, the General Western Agent, whose office is located at No. 146 LaSalle Street, Chicago, Ill., where circulars as well as particulars as to their prices and methods of applying may be obtained.

The Flagg Hot Air Furnace and Ventilator.

The Flagg Furnace Co. have been for the past year introducing in Chicago and its suburbs their furnace known as "The Flagg Hot Air Furnace," which has stood the test of twelve years in hundreds of houses and public buildings in all parts of the country. In all cases it has given satisfaction, while in scores of instances other furnaces have been taken out to give place to the Flagg, yet in no case has the firm known the Flagg to be substituted by any other. Their furnace is noted for its heavy and substantial construction. Their system of heating and ventilating buildings is the best known. By their system the pure fresh air from the outside is taken and passed over the furnace, and then by pipes to the rooms to be warmed. The pure warm air drives out the cold and the impure air of the room or building, through a passage prepared for it down to the mouth and door of the furnace, where it is taken into the fire box. This system of ventilating is under patent held only by the Flagg Furnace Co. Among the many testimonials received is one from E. A. Kimball, Chairman of Building Committee, and another from W. W. Clay, of the firm of Wheelock & Clay, architects of this city, viz :

BILLS CUT TO ORDER.

CHICAGO, Dec. 21, 1883.

This is to certify the Board of Education of Evanston purchased of Mrs. Flagg two Empire Furnaces, for the school house, erected this year, corner Hinman avenue and Dempster street. These Furnaces have been in operation for three months and have given unqualified satisfaction. We believe them to be very substantial, durable and economical, and of great heating capacity. The ventilating system which is used in connection with them is entirely adequate, maintaining a purity of air in the school rooms that is highly satisfactory.

E A. KIMBALL,
Chairman of Building Committe.

CHICAGO, May 7, 1884.

FLAGG FURNACE Co :—The Furnace you placed in one of my houses last fall has given entire satisfaction. My tenants speak very highly of it as having heated the house pleasantly and economically during the past very cold weather.

Respectfully,
W. W. CLAY.

Real Estate, Insurance and Loans.

Real estate in Englewood is attracting at the present time widespread attention as an investment, paying remarkably large returns. The village has two lines of street cars direct to the city and fifty-two passenger trains each way daily, with five and six cent fares. The village has the finest schools in the State, and society of a high order. Improvements are going forward on every hand with bewildering rapidity, and fine boulevarded streets, gas, lake water and sewers give it rare advantages as a suburban residence village. Mr. Chas. A. Long, at 6144 Wentworth avenue, has a large experience in handling Englewood property, builds to order for parties so desiring, and sells on easy payments. Parties wishing to either buy or sell will consult their own interests by calling upon or writing to Mr. Long.

T. B. Wisdom.

Among the prominent Real Estate firms in Englewood is that of T. B. Wisdom. He has many choice bargains on his books. Loans in any amount at current rates on any good security can be obtained from him. For any information in regard to Englewood property communicate with him at his office, Tillotson Block, Englewood, and he will give you prompt attention.

The Builders' and Traders' Exchange.

Fully five hundred of Chicago's business men met at the rooms of the Builders and Traders' Exchange, at 157 and 159 Lasalle str. Chicago, on Thursday, at 11 A.M., and continued in session till 2 P.M. The meeting was the occasion of a grand opening, including a spread and some speechmaking. Mayor Harrison, as usual, was on hand, and delivered a speech, which was well received by the members. Messrs. Gurney, Cregier and other public officials of the city entertained the Exchange with choice speeches. The Press was out in full force at the opening, and its representatives were received with marked attention.

The purpose and design of the Builders' and Traders' Exchange is to promote mechanical and industrial interests; to inculcate just and equitable principles of trade; to establish and maintain uniformity in commercial usages by rules and regulations; to acquire, preserve and disseminate valuable business information; to adjust differences and settle disputes between members, or between members and others; to acquire, own, and dispose of property, both real and personal, for the benefit of the Exchange; and for other purposes conducive to the interests of its members. Any individual or firm of mechanics, manufacturers, or traders of good repute, whose avocation connects them with the trades or industries of building, may become a member of the Exchange, upon election by the Board of Directors.

The initiation fee is at present $25.00! After the membership numbers over 500, and until it reaches 1,000, the fee will be $50.00. Thereafter the initiation fee will be $100.00.

"The Siege of Paris."

There are now two great attractions which Chicago may well be proud of, viz., the paintings of The Battle of Gettysburg and The Siege of Paris. The American Panorama Co., who own the wonderful painting of The Siege of Paris, have just opened their Panorama to the public. The Siege of Paris is constructed similarly to The Battle of Gettysburg, in a building of almost the same design, on the opposite corner of Hubbard and Wabash Avenues. In order that no one may be dissappointed it should be understood that The City of Paris is represented on the canvass only in the distance. Those who view the Panorama are supposed to be upon the roof of a lofty house in the Parisian suburb of Montretout, and here it was that the only real fighting during the siege occurred. It is the morning of January 19, 1871, and the city has been under siege four months. Bombardment has been in progress fourteen days. The starving and almost panic-stricken populace demands that renewed and more energetic efforts be made to break the circle of German troops and fortifications which surround the city.

The scene depicted is Montretout in the foreground, just after the French have captured the redoubt, where they secured some seventy prisoners, whom they are leading off. All through the village the French are besieging the German troops, who are keeping up a deadly fire upon them from the upper stories of the houses and from the numerous parks and groves which abound in the vicinity. The painting is from photographs taken within ten days after the surrender, and the costumes are from sketches made by the artist, Phillippoteaux, Sr., who is conceded to be the greatest of panorama peinters.

In dimensions the painting is 60 feet high by 400 feet in circumference.

Mr. Phillippoteaux was ten months in painting it, with the aid of ten other artists.

Among some of the famous buildings of Paris and vicinity which can be seen are the palatial residence of Worth, the manmilliner of Paris, considered the finest milliner in the world; the house of the painter Philloppoteaux adjoins Worth's house, the Clock Tower of St. Cloud, Baron Rothchild's residdence, Arc de Triumphe, which was built at a cost of over $100,000, and was 32 years in building. The painting is pronounced by artists to be superior to that of The Battle of Gettysburg, in fineness. The attendance has been large; the financial prospect of the company is good.

We take pleasure in referring to the firm of Baird & Gamble, Civil Engineers and Surveyors. They are men of large experience in their line; they were formerly connected with quite a number of Railroads as Chief Engineers. Real estate men and builders would do well to give them a call as all work done by them will be done in the best manner and satisfaction guaranteed.

American Enterprise.

No invention of the nineteenth century has worked a greater revolution in household economy or conferred more of a benefit on humanity than the sewing machine.

The first productions were crude and uncouth in the extreme, and it was reserved for American skill and ingenuity to bring forth a machine of any practical value.

In order to appreciate the great advancement which has taken place it is only necessary to compare one of the machines built during the infancy of the invention with one of the latest improved "Light-Runnning New Home."

All the really good points contained in other machines have been utilized in its construction. Many new improvements and devices have also been added, the result of which is a machine as nearly perfect as it is possible to make one.

For simplicity, durability, ease of management and capacity for work, the "Light Running New Home" has no rival, and the happy possessor of one may rest assured that he or she has the very best the world affords.

All who send for the company's new illustrated catalogue, and enclose their advertisement (printed on another page), will receive a set of anvertising novelties, of value to card collectors. Their address is, NEW HOME SEWING MACHINE Co., 30 Union Square, New York.

ADVERTISED SALES.

For further sa'es during June and July see past numbers of this Journal.

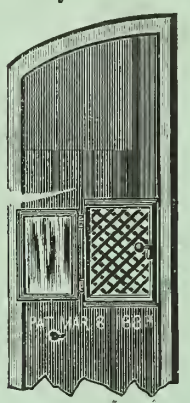
FOR SALE BY



NEW HOME SEWING MACHINE CO.
30 Union Square. N. Y.

A. W. Herr AND Co.

Manufacturers of
Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

SOLE MANUFACTURERS OF

WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow—which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

House and Fresco Painting, etc.

Although there is great prosperity in every department of trade and commerce, few of us make money so fast that we can afford to throw it away. We continue to desire the best possible value for our money in every instance, and this, of course, is only business. Haying seen a good deal of the work of Mr. Henry H Meech, No. 512 Clark street, Chicago, we take pleasure in bearing witness to the fact that it is better value for the money than we are familiar with in any other case. Both plain and ornamental painting are the specialty of the house, and it is hard to say in which department he has been the most successful. There is no house in Chicago, or for that matter in the West, that surpasses this one in the quality of the materials used, or the honesty and magnificent finish of the work. Specimens of his handiwork may be seen in many of the finest residences and business blocks here, as well as elsewhere in the west. The fresco painting done by Mr. Meech is very fine, besides displaying originality, and is not easy to duplicate. In the matter of prices, he is more than reasonable, for with very complete facilities he is prepared to take contracts and push them through for less money than smaller houses; and being a practical workman, as well as enteprising, square dealing business man, his success is not at all surprising. He is a house and sign painter as well as interior decorator in the widest meaning of the word, and has been and is engaged on some of the largest and most important contracts in this city and throughout the Northwest, and the number of specimens of his beautiful handiwork are lasting monuments to the ability and taste with which he executes everything.

As the Real Estate and Building Journal is extensively read and on file with the leading architects, builders, contractors, property owners and capitalists, we take pleasure in pointing out a reputable artist, whose work is not only a credit to himself. but an eye pleasure to those who are wise enough to secure his services. and as we have seen his beautiful and highly artistic productions on many occasions, and admired them exceedingly, we think it is a fit tribute to his artistic skill to tender him this complementary notice which he has honestly earned.

The Usual Result.

It is not to be denied that a good sewing machine is one of the most important appurtenances of the modern household.

We thought we had a good machine until one day the agent of the NEW HOME presented himself at our door and proceeded to deliver an oration upon its characteristic merits.

"But," we answered, "our machine suits us well and we do not care for another."

The agent, however, begged the privilege of leaving one of his machines with us, "for the ladies to try."

The request was not unreasonable, so we granted it—but more to oblige the agent than anything else; for we really did not want the machine, and had not the remotest idea of buying it.

The machine once in the house, it was natural that the ladies should look it over; they did so, and as a consequence fell in love with it. They say that without the slightest wish to decry or disparage any other machine, this, all things considered, is, in their opinion, the most desirable one to be had.

This unrivalled machine is manufactured by the NEW HOME SEWING MACHINE CO., 30 Union Square, New York, who wish us to say that all who will send for their new illustrated catalogue and enclose their advertisement (printed on another page), will receive a set of fancy advertising novelties, of value to those collecting cards, &c.

George C. Darche.

A prominent artisan in his line in this city, is Mr. GEO. C. DARCHE, who takes a front rank as an electrical and mechanical bell-hanger, as well as locksmith and silverplater. His Electric Burglar Alarms are prompt in their rousing of inmates and signalling the police, when an unwarranted visitor attempts an entrance by door or window; the signal rings through the place and tells its own story, even if a burglar cuts the wire. His Electric Call Bells are of the greatest comfort in a house; by merely touching a button on the wall the call is made, and immediately the party summoned appears. Besides these excellent contrivances, Mr. Darche manufactures Hotel and House Annunciators, Elevator Calls, Speaking Tubes, Electric Bath Apparatus, Electro-Medical Instruments, etc. In Chicago as well as all over the West he has furnished these supplies to a large number of public and private buildings, and is always prepared to supply estimates when desired. His success is beyond a question, as his supplies commend themselves at once for their simplicity, effectiveness and economy. All his work, in fact, is of a superior kind and will bear critical examination, and is designed to satisfy every condition of circumstances and surroundings. His place of business is located at No. 31 South Clark Street, Chicago, Ill., where all orders by mail or otherwise will have his prompt attention.

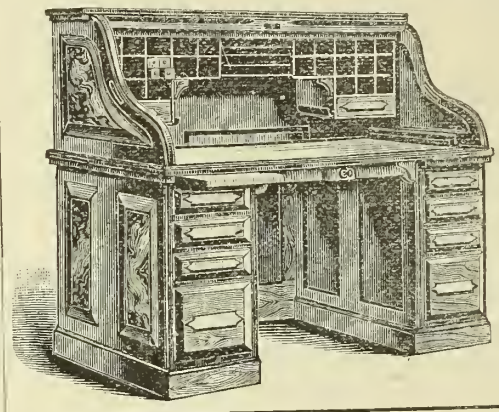
A Real Necessity.

We presume there is hardly a lady to be found in our broad land who, if she does not already possess a sewing machine, expects some day to become the owner of one.

Rut after the mind has been fully made up to purchase one of these indispensable articles, the question arises as to what kind of a machine to buy.

It should be so simply constructed that the most inexperienced can successfully operate it. The other points mainly to be considered, and which are the most desirable, are durability, rapidity, capacity for work, ease of operation, regularity of motion, uniformity of tension, and silence while in operation.

The "Light-Running New Home" fills the above requirements, and is said to combine the good points of all sewing machines, with the addition of many new improvements and labor-saving devices.



The price is no higher than that of other machines, and every lady who is the happy possessor of one may rest assured she has indeed a treasure.

All who send for the company's new illustrated catalogue and enclose their advertisement (printed on another page) will receive a set of fancy advertising novelties, of value to those collecting cards, &c. Their address is, NEW HOME SEWING MACHINE CO., 30 Union Square, New York.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the uudersigned, have used J. M. Cary's Champion Roofing Compositiou many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, tbat we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attentiou to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, uow iu use in Cbicago.

BUILDING DEPARTMENT.

—)o(—

LUMBER MARKET.

The demand was again light, as dealers were inclined to hold off until next week, causing sales to drag and a weak feeling. Short green piece stuff, $875@$9.00; Cull boards $7@$8; No 2 boards and strips $10.25@$11.50; Medium do. $12.50@$15; No 1 do. $16@$20; Select $22@$28; Standard shingle $1.75@$1.90; Extra $2@$2.20; Lath $1.55@$1.65 for green, and $1.75 for dry. There was a small demand for car lots, and orders showed a falling from all sections.

The general statement among the lumber dealers is that trade is dull. Yards that have a country trade, are kept stirring around actively, because those who wait for business to come to them get left. Retail yard men will not buy unless low prices are named.

There is a degree of exception to this reported dullness. The best authorities admit that there is a large current consumption in certain localities. The demand for lumber in Chicago and vicinity is large, and draws on the supply continually. The sash, door, and blind factories require such dry lumber as they use in quantities often greater than the supply, and are continually on the lookout for dry stock fit for their purpose. An exchange devoted to lumber, says:

"It happens that whenever a yard is overstocked with a certain kind of lumber it is prodigiously loaded up, and such particular kind can be bought a serious cut below the "official" list. For this reason "scalping is good," as a dealer remarked this week. By telephoning around among the yards, a bill can be picked to average very low figures. On all common lumber the cut is from $1 to $3. Not that any one yard will cut its list to that degree, but by going from yard to yard bills can be made up so that no item shall cut the list less than $1, and the range will reach certainly $3, and if long, large timbers are included, more than that.

The talk about stiffening prices indulged in during the spring appears to have borne no fruit. Little regard is paid to a formal price list. Each house is anxious to get rid of its surplus, and makes such prices as will bring trade. Shingles are thrown in whenever they can be got rid of at almost nominal prices.

Yellow pine flooring is being urged on the yards at low prices. It is now offered to be laid down—first and second clear— at $22 to $24 a thousand, $2 to $4 less than C pine flooring is listed, and $1 to $3 below what is actually selling for. It would seem as if such a competition between clear yellow pine flooring and common white pine lumber would soon drive the latter out of the market."

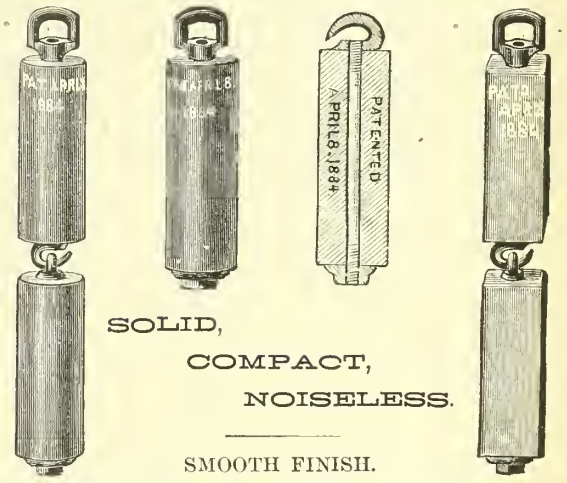
HARD WOOD.

The great activity in building in Chicago and suburbs, certainly does require a large amount of hard wood lumber for finishing purposes. Hard wood yards are well supplied with lumber bought at low prices, and lumber manufacture has been reduced to fit the present basis of values. "The Northwestern Lumberman" says:



"At present, however, the condition is unimproved, and in this city the market for hardwoods seem to be a falling one. It is difficult to give satisfactory quotations. Some dealers of experience and integrity assert that a number of quotations are too high. One inch first and second cherry they would quote at $50@55, and thick at $55@60. Merchantable basswood they would put at $13@14. Yellow pine flooring and ceiling they say can be bought as low as $24. Other dealers differ, however, saying that while they dislike to pay the quotations they are obliged to pay them when they want good lumber. The situation is about this: The woods which are called in question are of slow sale just at present, the dealers are loth to buy, but the mill men or country agents are strong, and though they sometimes yield a point, generally hold to their stock. We make few changes now, therefore, and, calling attention to the diverse views, await further developments.

Cherry, as stated above, seems to be a little off at present. This is the natural reaction from the boom it has been enjoying. It is a wood that is much in vogue, and retail prices were put up till a reaction set in, and the requirement pauses until prices shall become more reasonable. Moreover, the great call for the wood, scouring the country far and near for supplies, encouraged the shipment of immense quantities of extremely poor grades, and consumers have lost faith in the market. These conditions may force a change in quotations.

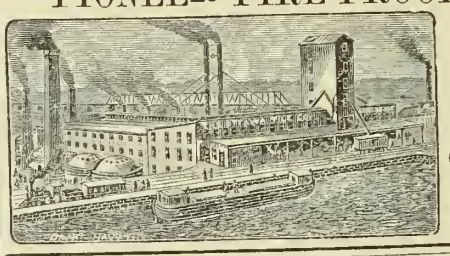
THE

Real Estate and Building Journal



R. C. SMYERS, PROPRIETOR.

CHICAGO, SATURDAY, July 5, 1884.

THE MARKET.

At this season of the year the current of trade runs slowly at best, and real estate furnishes no exception to the rule. If all the hindrances enumerated by trade Journals are to operate against business, the merchant and the manufacturer, the retail dealer of lots and the capitalist, must now come to a temporary pause at least. While the above classes are in a state of business quiet the farmer and the politician are now having harvest time. With a continuation of favorable weather, such as we are now having in this region the farmer will be prosperous and happy, because of a promising corn crop—if nothing more. It matters but little to the people what turn is given to politics. There are enough wise and conservative men at the head of either party to prevent the hungry hord of office seekers from precipitating ruin upon the country. It is not so much a question about the tariff as it is about place. If the rascality of politicians was two-fold worse than it ever has been, the unbounded resources of the country and thrift of its people will be a never failing safeguard against anarchy. It is the opinion of the Journal that capitalists, instead of holding off at such a time as this, when stocks and bonds are a little shaky, should embrace the opportunity to buy more of real estate because sellers are affected to some extent by the same influences and would naturally weaken in their demands. It is claimed by some that there is a pinch in the money market, and that manufacturers in this city have permitted the 20th of the month to go by without paying their bills because of their inability to collect the bills due them from formerly prompt paying customers. It is claimed also that railroads and other corporations are forced to ask temporary extension. This is certainly due to a feeling of timidity. A national campaign always affects business unfavorably, to which may be added the past shaky condition of Wall street. While the majority of agents who have been interviewed the past week, report business at a standstill, a few have made encouraging reports. Prominent among the latter Mr. James Wilmott says he has recently sold seven cheap lots 25 and 27x125 feet near cor. of Idaho and Taylor streets for $700 to $750 each to as many different parties, some of whom are from the country. The same gentleman says loans on good real estate security are easily obtained at 6%. in sums of $15,000 and upwards, and that small sums can be borrowed for building purposes at the same figures by paying the usual commission. The above statements are corroborated by the reports of county and suburban deeds and mortgages which are quite as numerous now as they have been at any season of the year.

CITY COUNCIL.

Ordinances were passed as follows: For sidewalk both sides of Shober st., from W. Division st. to North ave.; same on Bryson st., from Leavitt to Western ave.; same on Davies st.. from W. Division st. to North av; same on Oakley ave., from W. Division to North ave.; same on W. 14th st., from Blue Island ave. to Ashland; on south side of W. 22d, from Halsted st. to Johnson; for sidewalk on west side of Leavitt st., from North ave. to Wabansia; also on both sides of W. Division, from Milwaukee ave. to Lincoln; for grading and paving the alley from Jackson to Van Buren st., between Wabash ave. and Michigan ave.; for sidewalk space on Leavitt st., from W. Harrison st. to Ogden ave.; same on Banks st. from North State to Astor st.; for establishing grade at intersection of Rush and North Water sts.

At the city council meeting Monday night the mayor made the following nominations to the board of education: Thomas Brenan and Adolph Kraus to succeed themselves; Rudolph Brand to succeed W. Floto; Daniel Corkery to succeed J. T. Healy; Frank H. Collier to succeed Dr. Bridge. The mayor's recommendation to reappoint William J. Hynes, Thomas C. McMillan, and William H. Welles as members of the library board was rejected by a vote of 14 to 15. Commissioner Cregier reported that the council rooms in the new city hall would be ready for occupancy Oct. 1, and reported that the Sun, Vapor and Light company, of Canton, O., offered to light the streets for $6,900 less than any other company, No action was taken in the matter. An ordinance introduced by Ald. Campbell, providing that all bridges across the Chicago river be permanently closed after Nov. 15, 1884, was referred to the committee on harbors and bridges.

BUILDING NEWS.

— A $10,000 hotel is to be built at Hart, Mich.

— Madison, Dak., will soon have a new court house.

— A new Quaker church will soon be put up near Emporia, Kas.

The Presbyterians of Clinton, Iowa, Ill., intend to erect a new church.

— The Odd Fellows of La Crosse, Wis., are to build a three-story building.

— A town hall and "lock up" are among the agitations of Manistique, Mich.

— The St. John's Episcopal church, Keokuk. Iowa, will have a new building.

— The contract for rebuilding the old government observatory near Ashland, Wis., has been let.

— Madrid, Iowa, is to have a Swedish college; $6000 will be put into a building this summer.

— The new iron draw bridge at Kankauna, Wis., will be 160 feet in length, and will cost $6,000.

— A new Building and Loan Association in Des Moines, Iowa, has adopted articles of incorporation.

— Marshall county, Iowa, has twenty-six bids, ranging from $110,000 to $140,000, for their new court house.

— The Mt. Pleasant people, Mich., will soon vote on a proposition to bond the town for $5,000 water-works.

— Milwaukee parties have decided to erect in Bismarck, Dak., a new brewery, to cost between $35,000 and $50,000.

— The Odd Fellows of Clifford, Mich., intend building a three-story dwelling, 50x80, having stores on main floor, public hall on second and Odd Fellows' Hall on third.

— The Sisters of Charity of Keokuk, Ia., Will have charge of the new hospital; toward whose erection Keokuk has been asked to contribute $3,000.

LEAVENWORTH, KAS.

A building permit has been issued to L. Byers to build a brick house on Shawnee st., costing $3,000.

BELLEVUE, KY.

Mr. Geo. W. Rapp, architect, of Cincinnati, has prepared plans for an opera house and store building, for Mr. Julius Balke, 59 x90, cost, $25,000.

BISMARCK, D. T.

Work has been recommenced on the Bismarck Capitol. Plastering and finishing work is now in order. The capital commission will hold a meeting on the 20th inst., when all plans for future operations will be matured.

JACKSONVILLE, OREG.

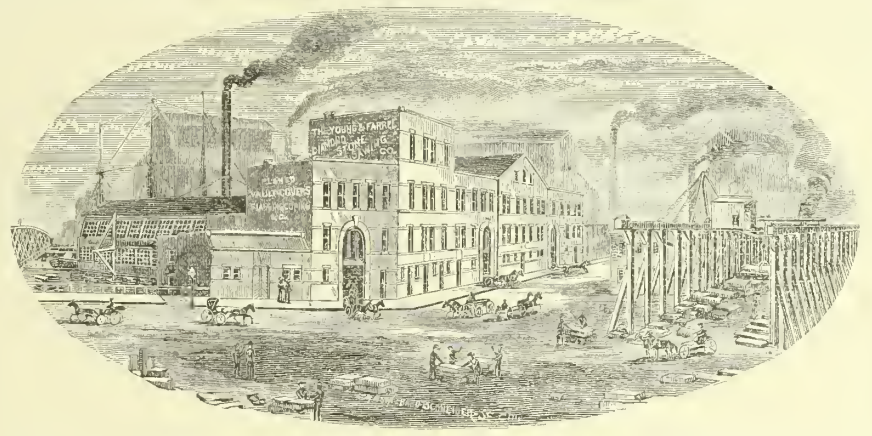
A plan has beeen prepared for a hall and store building, 2-story, 27x100, brick, for the Red Men, cost, $8,000.

Edward Champion is puttig up three residences, costing $5500; E. J. Sheehan, contractor.

MOBILE, ALA.

The following is a schedule of the proposals to construct and deliver the metal work for Mobile Bay Light House, Ala.: Colwell Iron Works, New York City, $12,478 (accepted); Phœnix Iron Company, Trenton, N. J., $12,750; H. A. Ramsay Iron Works, Baltimore, Md., $12.900; West Point Foundry Asssociation, Cold Springs, N. Y., $12,900.

ROCHESTER, MINN.



At the adjourned meeting of the Board of Education, the bids for the Third Ward school-house were opened and discussed. The lowest proposal was $6,250, and the board discussed the expediency of altering the plan so as to come within $6,000, without arriving at any definite conclusion.

BRAINERD, MINN.

The contract has been closed by the Board of Education with F. A. B. King, for the construction of the high-school building, the contract price being $27,000, exclusive of heating apparatus. The lowest bidder was Enos Baker, of Marshalltown, Iowa, at $26,000, who, upon being notified that his bid was accepted, came to Brainerd, and after looking the ground over refused to stand by his bid, when the contract was awarded to Mr. King as the next lowest bidder. Haglin & Morse, of Minneapolis, the only other bidders, bid $28,925.

REAL ESTATE LAW.

Supreme Court of Illinois.

SMOKE ORDINANCE CONSTITUTIONAL—NOT A REGULATION OF COMMERCE.—The opinion of the Supreme Court of this State by SCOTT, J., holding that the ordinance of the city of Chicago, known as the smoke ordinance, is constitutional, and can be enforced even as against vessels navigating the Chicago river, and is not in violation of Sec. 8, Art. 1, of the Federal Constitution, which declares that "Congress shall have power to regulate commerce," etc. This is an important victory for the city. We believe the decision to rest upon sound legal principles. Mr. Winston, although a young man, is to be congratulated upon the skill and ability he has displayed as the head of the law department of the city.

ENJOINING A JUDGMENT AT LAW. — The opinion of the Supreme Court of Illinois, by SCHOLFIELD, J., holding that a court of equity will not enjoin proceedings on a judgment at law, where there has been no service of process, unless it is alleged and proved that if the relief be granted, a different result will be obtained than that already adjudged by the void judgments, and will not interfere by injunction, unless the party seeking relief pleads and shows equitable merits, bringing the case within the established jurisdiction of such courts.

HEIR EXPECTANT—RELEASE BY EFFECT OF. —The opinion of the Appellate Court for the First District of Illinois, by BAILEY, J., holding that the release by an heir expectant, of all his interest in his father's estate, where such heir died before his father and without inheriting, can not operate to defeat the rights of the children of such heir, who inherit in their own right and not in right of such heir expectant.—Ed. Chicago Legal News.

A CHECK TO SHYSTERS AND UNSCRUPULOUS LAWYERS.

A DECLARATION MAY BE LIBELOUS.

The decision of the Massachusetts Supreme Court that a newspaper could not defend itself in an action against it for libel by showing that the matter complained of had been taken from a petition filed with the clerk of a court seems to have excited more surprise than its real importance justifiies. There is nothing new about this doctrine, though the occasion has not hitherto arisen in this country for declaring it with the explicitness with which it is now enunciated by the Massachusetts court. It is the doctrine of the common law itself that the publication of the contents of such "first paper" in the proceedings of a case may be libelous. Even the lawyers who prepare these papers may themselves be sued for libel and may be made to pay damages.

The difference between the public policy which encourages the full and fair reports of cases in court when they have begun and when both sides are represented, and that which as declared by the Massachusetts Supreme Court renders the publications of the mere initial statements of the one side subject to the penalty of libel, if there is libel in it, is one that will be obvious to the reflecting mind on a moment's consideration. Men of affairs know well that these first papers are often prepared with the utmost looseness, and often without any real intention on the part of the petitioners of coming forward in court to sustain their allegations. Lawyers are extraordinarily reckless in this matter, and make the most remarkable charges in their bills and petitions without any proper sense of responsibility for the cloud they may cast on the reputation of the parties they are assailing. Instances have not been uncommon where such bills have with some show of reason been believed to have been drawn up and filed with the clerk of a court for the sole purpose of annoying an antagonist with the publicity expected to be given them through the newspapers.

To make one-sided papers filed in court, without any accompanying documents from the other side, "privileged communications" which newspapers can print in full without incurring any responsibility, is evidently placing the reputations and good names of all at the mercy of the unscrupulous and unfeeling. The meanest criminal-court shyster under such a system could give publicity through the press to the most cruel lies concerning the character of the best people in the community. All the requirements of

justice are abundantly met by the freedom given to report the proceedings of the courts. Freedom to report the preliminary, unsustained, unanswered, and often malicious onset of the first party to a suit can well be surrendered without injury to justice or to proper newspaper enterprise.

The practical results of this decision are not likely to be serious. Damages in case of libel must be fixed by a jury, and juries are not at all likely to lose sight of the advantages to the public of newspaper diligence when they are called on to mulct a journal in damages for having given to the world the contents of the preliminary papers of a suit. Even if these are not "privileged communications" there would never be a jury found to impose a penalty on a newspaper for giving its readers in good faith their contents. The main use of the decision just made in Massachusetts should be to remind lawyers as well as newspapers of the real character of these preliminary papers and of the responsibility incurred in making false statements in them. The proper way to meet the libels sometimes contained in them is to sue the lawyers who get them up with such recklessness.—Chicago Tribune.

The Brick Market Overstocked.

Owing to the overstocked condition of the market for common brick and the successful competition by country makers, it is understood that Chicago manufacturers are being forced to lay off their men. The north side yards are still running to their full capacity, but it is said that they will soon be forced to shut down, as has been done in the other divisions of the city. The reason assigned why the country brick-makers can afford to undersell the city manufacturers 50 cents per 1000 is because they pay $1 per day less for non-union labor. Union men say they can not work for less than they are receiving.

Fresco and Decorative Painting, Etc.

True taste and skill in art find expression as often in the useful as in the purely ornamental, and artistic talent is never better displayed than in the work of combining beauty with utility. A decorative artist, who has successfully studied his profession, will manifest his experience in the facility with which he turns it to account, and in the present period of artistic culture he will find a wide field for his operations. Thus the painter and decorator cannot consistently confine his efforts to the mere ornamentation of interiors, but will be able, in addition, to achieve artistic triumphs in departments that have been mainly characterized by their lack of elegance. Among those who can fairly claim to have been thus successful, are Messrs. VAIL & OHLSON, Artists and Experts in Fresco, Decorative and General House and Sign Painting, whose place of business, 3636 Cottage Grove Avenue, Chicago, Ill., was visited by the writer in search of information of interest to our readers and the public in general. Messrs. Vail & Ohlson have, so to speak, been brought up with a brush in their hand, hence, specimens of their skill, in every description of interior and exterior ornamentation, painting, frescoing, etc., are seen almost everywhere, displaying the most cultivated taste and refinement. They are at all times prepared to furnish designs on application, and execute contracts for house owners, architects and builders, decorating apartment houses, hotels, theatres, churches, public and private buildings in and outside of the city. As Fresco and General Painters, these gentlemen, during a very successful career, have been entrusted with a large number of contracts of great importance and have decorated some of the handsomest interiors, in public and business buildings as well as private residences, near and far. Operating on a large scale, and being extensive dealers in Artistic Paper Hangings, paints, oils, glass and colors, they are enabled to estimate away below their smaller competitors.

In commending them to our readers as skillful and competent masters of their profession, we advise those who are interested in this description of work, to call upon them and examine the beautiful specimens of their skill, which they will find not only first class in style and execution, but reasonable in price, while they may rest assured that all contracts entrusted to them will receive prompt and artistic attention.

A. Moylan, Sanitary Engineer.

There is no subject of greater importance before the people than effective sewerage and drainage, and the death rates are silent but eloquent witnesses against the indifference with which these matters have been treated until quite receetly. The public are becoming aroused from their apathy, and begin to look round for some means to avert the evils. This pestilence of darkness enters our rooms by stealth, during our slumbers at night, and, unconsciously to us, permeates our systems, sowing the seeds of disease and death. It really becomes a serious question, whether a sanitary engineer ought to be exalted for his good deeds or debased for bad work. Among the sanitary engineers of great repute in this city we must include Mr. M. MOYLAN, whose system of house drainage is perfect, in thoroughly excluding sewer gas from dwellings. All his work is thorough, substantial and perfect, hence, his services are constantly in demand, where a perfect and thorough job is desired. We would not think it necessary to state to our intelligent readers and patrons among Architects, Builders, Contractors, Real Estate Owners, Capitalists and others, that the escape of sewer gas into their houses should be arrested. It cannot be wondered at, then, when we have found a remedy for these evils, that we request our patrons to investigate this matter for themselves and thereby verify our remarks. Mr. Moylan is a plumber, gas-fitter and sewer builder of established repute, and all orders, either verbal or by mail, to his address, No. 103 East Twenty-second Street, Chicago, Ill., will have his prompt attention, and what he promises to do he will assuredly carry out to the letter, and a good deal more, hence, we give him this complimentary notice, which he so richly deserves.

THE RECORD.

BUILDING PERMITS.

E J Bode, 2-story flats, 21x62, No 364 Maxwell st. $3000.

John Schroeder, 2-story dwelling, 21x44, No 3243 Wentworth av. $2000.

John Waderstradt, 2-story dwelling, 21x52, No 668 Hinman st. $3000.

NEW HOME SEWING MACHINE CO.
30 Union Square, N. Y.

A. W. Herr AND Co.
Manufacturers of
Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting life, limb, and landlords from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

SOLE MANUFACTURERS OF
WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

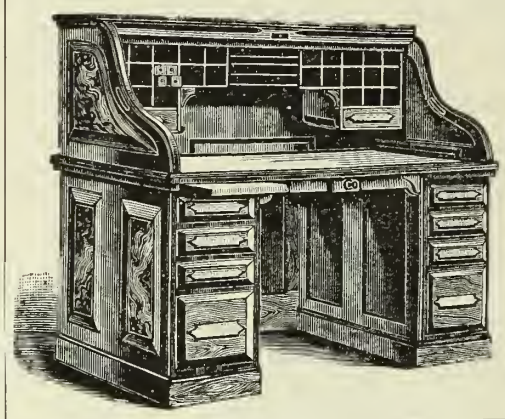
SEWER PIPE, DRAIN TILE, &C.

The importance of a thorough system of drainage and sewerage cannot be easily overestimated. The method which seems to command most general approval at the present day is the use of small pipes, adequate to the drainage of a limited surface, gradually enlarging to admit the increased flow, until they terminate in large outlets built of brick laid in cement. The vitrified salt-glazed sewer and drain pipe, from 3 to 24 inches caliber, as manufactured by the Wassall Fire Clay Co. and the Columbus Sewer Pipe Company, Columbus, Ohio, has proven altogether superior to most goods designed for similar purposes. This pipe is made from a combination of the best clays, and instead of deteriorating with age, it increases in solidity and strength with each succeeding year, gradually becoming converted into absolute stone. Pipes which have been uncovered after the lapse of several years, have been found to be stronger and better than when first laid, and there seems to be no reason why they should not last unimpaired for centuries. The interior surface is very smooth, and when properly laid there can be no deposit of sedimentary matter. The demand for these pipes is very great. They are used to a large extent all over the Union, and have in all instances won the highest commendation from commissioners of public works, architects, engineers, contractors, builders, property owners and all who have tested their unequalled merits. The companies also manufacture culvert pipe, well tubing, flue-pipe chimneys, terra cotta chimney tops, fire clay, stove, thimbles, flue-linings, cistern tops, fire brick, farmers drain tile, terra cotta lawn vases, umbrella stands and other goods too numerous to mention. These good are all guaranteed. The general agency for the Northwest is in the able hands of Messrs. Rhoads & Ramsey, No. 206 LaSalle street, Chicago, who, are well known for their upright and honorable dealings. The Real Estate and Building Journal, as a matter of interest to its numerous readers and patrons, takes pleasure in bringing this reputable house prominently before them. Their facilities nnable them to fill orders of any size without delay and at manufacturer's prices.



M. Moylan, Sanitary Engineer.

There is no subject of greater importanc before the people than effective sewerage and drainage, and the death rates are silent but eloquent witnesses against the indifference with which these matters have been treated until quite recently. The public are becoming aroused from their apathy, and begin to look round for some means to avert the evils. This pestilence of darkness enters our rooms by stealth, during our slumbers at night, and, unconsciously to us, permeates our systems, sowing the seeds of disease and death. It really becomes a serious question, whether a sanitary engineer ought to be exalted for his good deeds or debased for bad work. Among the sanitary engineers of great repute in this city we must include Mr. M. Moylan, whose system of house drainage is perfect, in thoroughly excluding sewer gas from dwellings. All his work is thorough, substantial and perfect, hence, his services are constantly in demand, where a perfect and thorough job is desired.. We would not think it necessary to state to our intelligent readers and patrons among Architects, Builders, Contractors, Real Estate Owners, Capitalists and others, that the escape of sewer gas into their houses should be arrested. It cannot be wondered at, then, when we have found a remedy for these evils, that we request our patrons to investigate this matter for themselves and thereby verify our remarks. Mr. Moylan is a plumber, gas-fitter and sewer builder of established repute, and all orders, either verbal or by mail, to his address, No. 103 East Twenty-second Street, Chicago, Ill., will have his prompt attention, and what he promises to do he will assuredly carry out to the letter, and a good deal more, hence, we give him this complimentary notice, which he so richly deserves.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

THE ECLECTIC HEATER.

The Eclectic Heater, portable or stationary, is not excelled for really desirable qnalities by any other heater in this market.

The following are some of its more prominent characteristics:

1st. It has the largest expanse of heating surface of any hot air fnrnace yet manufactured, and, therefore, is the most healthfnl and economical.

2nd. It has unusually large air passages, and, hence, it does not impoverish the atmosphere.

3rd. It has an efficient gas-bnrner, and cannot emit gas or smoke into the air chamber, if dampers are set properly, before adding fresh coal.

4th. It has the most convenient grate ever inverted. A mere boy of twelve can operate it with ease.

5th. The joints are nicely fitted, so that it cannot throw up dust through the registers when the dust flue is open and the lower door closed.

6th. It has a direct, or indirect, fine, either of which can be used by a simple movement of the hand, and no furnace can be complete without a dust flue, to be opened in case of shaking the grate, kindling fires, or taking np ashes.

The Eclectic "Heater" is as nearly perfect as untireing application and long experience could make it, and it has proved a success in the warming of dwellings, chnrches and public edifices of every description for ten years past.

Its numerous points of excellence justly entitle it to the first rank as a heating medium.

Eight sizes are manufactured, running from No. 2 to No. 12, and still, each can be so varied in height, as to give any required capacity and power.

Call and examine the Eclectic Heater, at the Servoss Furnace Co., 135 and 137 Lake Street.

The River and Harbor Appropriation bill, which has passed both houses of congress, foots up a total of nearly $14,000,000, of which about 2,500,000 goes to the Mississippi river, $690,000 to the Missouri, $100,000 to the Chicago Harbor; $100,000 to the Illinois river, and $50,000 to the Calumet.

BUILDING DEPARTMENT.

—)o(—

LUMBER AND BUILDING MATERIAL.

The trade at the yards continues moderate. The local building requirement is drawing on general stocks to a large extent, but the goods that cater to this trade get the bulk of it, and justly too, so that houses whose businesss is mostly with the couniry, do not realize how important a factor the local trade is. Even considering all favorable conditions it must be admitted that there is not the usual demand for lumber, and that current trade mostly depends on what building is goiug on in the villages and cities. and especially Chicago and suburbs. There is wanting new enterprises that require heavy bills for manufacturing plank, and such as are stimulated by railroad extensions. The depressed state of credit and the presidential campaign are the prime causes of the prcsent dullness. The condition of one week ago still continues—crowded docks aud a dragging market—causing a drop of 25 to 50 cents in priccs of dimensions and No. 2 inch lumber. Quotatious are as follows: Picce stuff, green, $8.50@$9.00; Long timbers, green, $10.00@$10.75; Boards and strips, No. 2, green, $10.00@ &12.00; Boards, medium. greeu, $12.50@$14.50; Boards, No. 1. green, $15.00@$18.00; High grade, $18.00@$24.00; Shingles, standard, $1.75@$2.00; Shingles, extra, $2.00@ $2.20; Shingles. clear, $2.80; Shingles. cedar, $1.50@$2.00; Lath, $1.50@$1.65.

Extract from a circular issued by the Secretary of the "Lumber Manufacturers Association."

The probable lumber product for the three months, April, May and June, 1884, is reported from Wisconsin at 5 per cent less than for the same perion In 1883; from Duluth and Superior points, as "the same"; Wisconsin railroad mills, "slightly larger"; Michigan, "small increase"; the Mississippi river districts "10 per ceut more."

The total lumber product for 1884 is reported as probable from Wisconsin points, "10 per cent larger"; Duluth and Superior points, "15 per ceut more"; Wisconsin railroad mills, "10 per cent more"; Michigan, "same as 1883"; Mississippi points, "25 per cent more."

The mill capacity remains the same, practically, as one year ago.

178 WABASH AVE., CHICAGO, Ill.

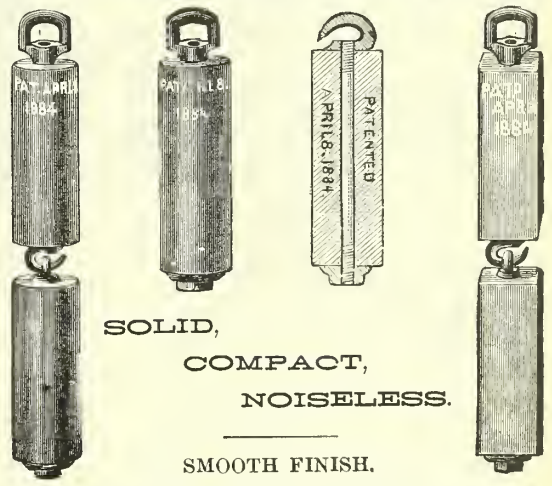
The average hours of running mills is reported as follows: Winconsin, Duluth and railroad mills, 11 hours; Michigan, 11 5-60 hours ; Mississippi river, 11 2-60 hours.

In summing up under the question, "Your views as to the outlook of trade for 1884":

Wisconsin points range, from one who feels "blue decidedly," to a general feeling, that, "with good crops, a fair demaud will be realized; but with no advance on present prices."

The Duluth district is unanimous in expecting "a good trade." The railroad mills of Wisconsin generally expect "a good trade," but low prices. Michigan points are nearly unanimous in the belief that "with good crops, good trade may be looked for," if there is not too great s tendency to rapid shipment. The Mississippi river manufacturers are looking for a fair bnt not animated trade, a steady absorption of lumber, and a large increase if crops prove good.

The key-note to the present situation is in the opiniou of your secretary, to be found in the Michigan statement, if not too great a tendency to rapid shipment."



Lumber has been absorbed in the Chicago market much more rapidly than one year ago, as is shown in the June report of the secretary of the Lumber Exchange, from which it appears that, with receipts 100,867,000 feet of lumber in excess of the same date last year, stocks on hand are but 50,391,154 feet increase over June, 1883, Sales and shipments being thereby shown to aggregate a larger trade than in 1883 by about 8 per cent.

Prices on the dock, at Chicago, have been very steady thus far through the season, and, unless through the folly which, previous to last year, has flooded the Chicago market during the July holidays, thus inviting a decline, and there is no reason to look for a lower market, while with a full knowledge of crop realizations, it is the almost universal opinion that an advance in values may be expected during the fall months.

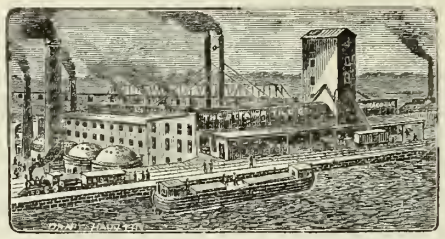
THE

Real Estate and Building Journal

R. C. SMYERS, PROPRIETOR.

CHICAGO, SATURDAY, July 12, 1884.

THE MARKET.



The real estate market here and elsewhere is in a state of suspense, like the businesss of the country. A gentleman hailing from the East said to a reporter of the JOURNAL that a number of the heavy manufacturing establishments in his neighborhood were preparing to shut down and some had shut down, because they were afraid of a change in the tariff laws. He said this same feeling was pretty general in the eastern and middle states, Manufacturers refused to buy raw material—wool, for instance, for fear that that product could be shipped from Europe and the East free of duty, as well as the manufactured artieles. If presidentmaking canses so much alarm to the business of the country, it is about time that we abolish the office, or changed the constitution as to the term of service, say from 4 to 7 years. The prevailing dullness however in business throughont the East and the West, has been attributed to the numerous failures among a class not likely to be affected by the tariff. It would seem that if "free trade" would enable the ordinary citizen to buy an outfit for about one-half of what it costs in Chicago and New York, that a change in this important feature of our laws would be more desirable as good clothes are almost as essential as food. But of real estate—the most absorbing topic with tbe readers of THE JOURNAL. Looking over corrected proof of transfers, our editorial eye fails to catch many figures standing in a higher order than thousandth place; few over $10,000 and many under a thousand dollars. The Daily News recently published a statement to the effect that Chicago coutains seventeen hundred vacant houses. Be it so; precious few of them are good houses, or even good flats. The fiat craze received little or no encouragement from the REAL ESLATE & BUILDING JOURNAL, and men who invested their money in that kind of buildings evidently did not heed our advice, or did not read THE JOURNAL. As long there are thousands of acres of unoccupied as land in and around Chicago, easily accessible by steam and horse railways, it is folly to try to get people to live over one another.s heads in a crowded flat. Americans as well as Germans have a special fondness for fresh air, flower beds and shade trees, as is proven by the growing popularity of our parks and the thousands of beautifully adorned homes in all parts of the city and county.

Fashionable residence building was never before so much in vogue as it is now, not only in Chicago but in all growing cities. Old rickety tenements like some of those belonging to the Stone estate. are not fit to live in, and must necessarily depreciate when contrasted with the fashionable new houses of the present day.

Real Estate in New York.

One effect of the recent panic in Wall Street is a boom in the real estate market, and investors who formerly put their money in stocks appear to be turning to realty as a safer field. The last two months have been the most active in the history of the Register's office. Tuesday 211 transactions were recorded, against 148 the corresponding day of last year. The instruments recorded Tuesday included seventy-seven transfers of property, eighty-eight mortgages, eight leases, and twenty-six assignments of mortgages. During the month of May 3,389 transactions were filed, against 2,610 in May, 1883. June was not quite as heavy a month this year as last, although 1,209 deeds and 1,119 mortgages were received during it for record. The total transactions for both the months named of this year were 5,717, against 5,121 for the corresponding period last year, a balance of nearly 600 in favor of 1884. The figures given do not include the chattel mortgages or satisfaction pieces filed. It is estimated that the total transactions for the year will exceed 25,000, more than half that nvmber of conveyances, mortgages, etc., having been reccived during the six months ending Monday last. No preceding 1st of July have so many instruments been filed since the establishment of the Register's office as were handed in Tuesday last.

Several sales of property at auction have occurred lately, and although the prices they brought were not of the most flattering character, those most deeply concerned in the estates were well content at the result. It is too late in the season to offer property with any expectation of obtaining renumerative prices, and if the estates recently submitted for sale had been deferred to the autumn the heirs would have been well repaid for their delay. The market at private sale is active for the period of the year.

Business Outlook in New York.

An exchange says: "The tide really seems to have turned. Business is certainly looking up. The extreme depression of the stock market is to all appearances over, and everything points to a higher range of values as compared with May and June. There may, it is true, be some unexpected disaster in store for us, but there is no indication of it on this, the anniversary of the great national holiday. The defaults on the first of July were less than was feared, and none of the great houses whose credit was questioned showed any indications of weakness. Our farmers are gathering the largest wheat and small grain crop ever grown in the United States. The cotton crop promises to be a good one, and so far no disaster has threatened the largest corn crop so far as acreage is concerned in the history of the agriculture of this country. It will be surprising if the operators in railway stocks should not, during the present month, discount the large business which the heavy crops will give our railway system after the harvest. The new crop and fiscal year open well."

Brickmaker's Threatened Strike.

At the meeting of the Brickmakers Union on last Sunday afternoon, it was agreed to submit to a reduction of wages, which if carried out, will avert the threatened strike. The discharge of hands and the running on half-time was due to the fear of loss if the yards were filled with brick at the prevailing cost of manufacture. Country manufacturers, who pay $1.50 a day for labor which gets $2.50 in the city, were underselling the Chicago makers, and the latter sold close so as to avoid stacking up bricks and taking a risk. This competition and the close selling brought about the existing state of things.

The makers say if the men will take 50 cents a day less all around, the yards will run as usual; otherwise, at half capacity, because they will not risk their capital in the face of the competition with outsiders. The North Side bosses met Thursday and asked the men to take 62½ cents a day less, as they are paying 12½ cents a day more than the other makers, and the South and West Side employers got together Thursday and asked their men to take 50 cents a day less. If these propositions are accepted

Abstract Copyist.

— At Nos. 628 and 630 Milwaukee Avenue, Boese & Gloek will build a block of brick stores and dwellings, at a cost of $20,000.

— C. Mentzel has begun the erection of a $10,000 store and residence at the corner of Milwaukee and North Avenues.

— A $50,000 brick residence for F. F. Burns, at No. 579 LaSalle Avenue, will be erected soon.

— Ground is being broken for a flat-building at 247 and 249 Illinois Street, to be erected for W. M. Hoyt, at a cost of $17,500.

— Plans have been drawn for three houses to be built by Dr. Martin, at the corner of Adams Street and Hoyne Avenue, costing $15,000.

— Arrangements to build a brick dwelling at Nos. 105 and 107 Aberdeen Street, to cost $10,000, have been made by W. E. Hall.

— Dr. M. H. McKillip will build a veterinary hospital, at a cost of $9,000.

— The contracts are let for a handsome residence to be erected for Gen. A. C. Ducat at Downer's Grove. The structure will cost $8,000.

— This summer T. F. Andrews will put up six dwellings at 32 to 36 Rhodes Avenue, costing $20,000.

— A new brewery for the Schoenhofen Brewery is projected. The building will be of brick, cost $15,000, and be located on lots 23 and 25 Seward Street.

— The plans for the Marshall Field building are completed, and the structure will be 12 stories high.

— A medical college will be built by J. H. Clough, at 465 and 467 State Street. It will be four stories and basement in height, and will cost $25,000.

— Excavations for the Hoyne School House are completed. Work on the building will be pushed vigorously forward.

— A block of stores and dwellings, to cost $50,000, is under contract for G. E. Morrison and George Spofford, at the corner of Blue Island Avenue and Halsted Street.

— The plans for the Northwestern Safety Deposit building have been completed. It will be 10 stories high.

— Contracts have been let for the Beidler building, corner of Union and Washington Streets. It will cost $160,000.

— A stock company is to be formed for the purpose of erecting a magnificent office building, to be built corner of Clark Street and Pacific Avenue.

— A new French flat is being erected at Lansing, Mich.

full work will be resumed in every yard where it is possible; if not, the manufacturers are indifferent as to a strike, many of them having now on hand more unsold brick than they like to see in the yards at this time of the year, and the others not desiring to put their capital in jeopardy.

The Evening Journal propounds the question and with pertinency too, in an article concerning presidential candidates, "What has Grover Cleveland ever done as a private citizen or a public man that entitles him to the special honor of being named in connection with the presidency? What has he ever done as a democrat, even, or for the democratic party, that he should in honor be preferred by that party's National Convention over such eminent and lifelong statesmen and active leaders as Bayard, Randall, Thurman, Pendleton, Hendricks, Morrison or Judge Field?"

THE REAL ESTATE & BUILDING JOURNAL would ask the question, (let the Evening Journal answer it.) What has any of the hungry horde of office seekers as well as office holders done, to entitle them to the honors and emoluments of public office? Aside from a few of the men of brains and honesty of purpose at the head of either party, there is not enough of merit or virtue in the entire gang of political workers to save the country from going to the demnition pow-wows.

The failures for the six months ended July 1, 1884, are reported by R. G. Dun & Co., of New York, to number 5,510, compared with 4,637 for the first six months last year. The liabilities of the first half foot up the enormous sum of $124,000,000, compared with $66,000,000 for the same period last year, or nearly double. The great growth of liabilities is directly traccable to the recent panic, which mainly centered in New York. The agency claims that the legitimate business of the country suffers no serious result from these failures; that the condition of preparedness for a panic has been reached, and that the remainder of the year may witness a fairly profitable demand for merchandise, with results more satisfactory than for the first six months.

Real Estate in Dakota.

The increase in the price of Dakota lands during the past two or three years has been remarkable.

Three years ago the Milwaukee railroad had not yet been completed to Chamberlain, a town having no existence at that time, and there was no town west of Mitchell.

During the previous fall, the Northwestern had been constructed to Pierre, but there was no town between Huron and Pierre. In the race for territory both these railroads had built up the James River Valley. The railroad managers seemed to know what they were about when they pushed their lines through this comparatively unsettled section of Dakota. The land belonged to the United States government, and a deeded claim here and there had but a slight money value. Many a pre-emptor was prepared to dispose of his claim for $200 or $300 above expenses, and almost numberless quarter-sections of wild land could be bought in the older sections for $500 or $600, or for $3 to $4 per acre.

But to-day we find a country full of cultivated fields, towns and enterprising people, in place of this vast unsettled tract above referred to.

Three years ago one could drive for days and not see a house or dug-out; to-day it is impossible to get out of the sight of houses. Thousands of acres have been deeded to settlers. Thousands of acres have been plowed and have yielded good crops. As the land is in demand, an advance has been made in prices, and at present very few desirable claims can be obtained for less than $1,000. Occasionally one hears of a quarter-section selling for two or three times that amount; this seems like a high price, but the time is not far distant when the average claim will not be sold less than $25 per acre.

As a field for investment, Dakota real estate commends itself as one of the best openings that now awaits capital.

BUILDING NEWS.

— Schaub & Berlin, architects, 43 Ashland Block, report the following:

For Anton Friedrich, at 152 Centre Street, a two-story, basement and attic flat building with mansard roof, 23x50 feet, to cost $5,000.

For August Gabriel, at 224 Larrabee St., a three-story and attic flat building, 22x50 feet, to cost $5,000.

For Louis Langpop, at 531 Ashland Ave., a three-story and attic flat building, 20x48 feet, to cost $4,000.

For P. O'Connell, at 154 Centre Street, a two-story and basement flat building, 22x50 feet, to cost $4,200.

For John Pfeiffer, at 157 Bissell Street, a three-story and basement flat building, 23x61 feet, to cost $6,000.

The same architects have under way drawings for a residence for H. C. Kretie, chief engineer of the North Chicago rolling mills, to be built on Lincoln Avenue, near Lincoln Park, the front to be of green stone with terra cotta trimmings, and side of Anderson pressed brick, to cost about $8,000.

— Plans are ready for a $7,500 residence for Wm. Crilly, at 3326 Calumet avenue.

— A $6,000 flat-building will be put up immediately at 3449 State Street, by J. Burkhardt.

— At 1456 Michigan Avenue, a handsome dwelling will be built for E. C. Lewis. Estimates put the cost as $25,000.

— J. Butgow is building a $12,000 flat at 489 to 501 Marshfield Avenue.

— A very tasteful flat-building has been planned for F. A. Hoaliner, at 221 Michigan Avenue.

— Treat & Foltz, architects, are planning for a $16,000 residence for G. W. Hibbard, at 1832 Calumet Avenue.

— The Illinois Club are arranging for a $30,000 improvement to their house. It is to be both enlarged and remodelled.

— A row of brick cottages is planned for H. R. Payson, to be erected at the corner of Shields Avenue and Twenty-seventh Street. They will cost $8,000.

RESIDENCE: North Halsted and Diverseysts.

— New jails are being built at Macon and Lawrenceville, Ga.

— An $11,000 school house will be built in Houston, Texas.

— J. J. Flood, of Atlanta, will build a $25,000 court house at Cuthbert, Ga.

— Work on the Jackson school building at Duluth, Minn., has been commenced.

— The G. R. & I. R. R. is putting in a new round-house and water-tank at Mackinaw City, Mich., and will soon build a new depot and dock there.

— W. H. Howard & Sons, Augusta, Ga., have commenced work on their large cotton press, which is to be finished by fall. It will cost in the neighborhood of $75,000.

— Work on the First Ward school house, at Ferguse Falls, Minu., is being rapidly pushed toward completion.

Buildings that Resist Earthquakes.

The volcanic eruptions in Java, the earthquakes in Ischia, and our Western tornadoes, have probably caused more destruction of life and property than they would have caused if buildings had been specially adapted to resist them. In Japan, where shocks of earthquake are frequent, a coutemporary says that it is not usual to dig foundations for any building, no matter how large or important it may be. Rocks slightly rounded at the top are placed where the corners of the house are to be. The corner posts, rounded at the end, rest on these. The timbers are all pinned together, not nailed, so as to allow of considerable movement without coming apart. In the central portion of the building the timbers are particularly heavy, and act as ballast. In high towers there are sometimes huge beams swung from the roof and reaching to withiu a foot of the ground, which prevent the building from being overturned either by earthquake or storm. The oldest building in Japan, the Treasury at Nara, is built in this manner, without the swinging beam, but with a very heavy ballast in the framework of the centre of the floor. A well known artist is the inventor of a painting hut which is constructed in part on the same principle. It rests on stones at the corners, the timbers are keyed together, aud it carries a heavy ballast under the floor. It is, however, in addition, secured to the ground by ropes and anchors. This hut will outride a gale in perfect safety.

WEST PARK BOARD.

At the meeting on Monday a proposal by the Van De Poele Electric Light Co., to light Garfield Park with sixteen lights, at a total cost of $5,000, was referred to the Finance Committee.

For the Southwest boulevard the collections were $97,875, the disbursements $3,344, balance $94,530. Commisstoner Kohlsaat moved that the Finance Committee be instructed to see whether the amount of the pay-roll could not be reduced. He thought $5,336 per month was more than the board could stand. A motion was adopted authorizing the Secretary to advertise for bids to complete the filling of Central boulevard and its iutersection at the St. Paul viaduct in conformity with the engineer's estimates.

Mr. C. C. Kohlsaat is interested in the welfare of the tax payers, and will, no doubt, be able to reduce the expenses of the West Park system.

Mr. Kohlsaat being an able lawyer, that wonderful board has been made to see the folly of keeping an alleged lawyer, by the name of Ball, on a salary the year round. It is stated, however, that another, of a little more ability, took his place at a less salary.

REAL ESTATE LAW.

By the later decisions the law is now well established that a man who without consent opens a window on another person's property does not by possession after whatever lapse of time obtain such a right to the light and air that the adjoining owner cannot build up and close it at his will.

No one has a legal right to open windows and swing his shutters over his neighbor's ground, but it is difficult to prevent such intrusion without building up a solid wall to shut it out.

DIVORCE SEVERS WIFE'S DOWER.

By the laws of Massachusetts an absolute divorce for any cause severs the wife's right of dower in her husband's real estate, and after such divorce is granted, a good and perfect title thereto can be obtained without her signature, except in two instances, viz.: When the divorce is granted on the ground of adultery of the husband, or upon the ground of his imprisonment, the wife will be entitled to dower as if no divorce had been granted.

DIVISION FENCES.

Adjoining owners must each keep half of the division fence in good repair. If B after proper notice will do nothing about it, the law provides a way by which he can be compelled to do it.

The statutes of New York and many other States require both owners of enclosed property to join in the division fence, each making half, and if they cannot agree on a division, the fence-viewers may be called upon to apportion the work. But where one owner chooses to allow his land to lie open to the public, one who wishes to enclose must supply the whole fence. But whenever the other encloses his part, the law provides that he shall refund to the first owner a just proportion of the value at the time of any division fence that may have been maintained.

Board of Education.

The contract for putting new heating and and ventilating apparatus in the following schools was awarded: Ward School, $2,945; Headly School, $2,953; Pickard School, $2,985. Diedrich Hayes & Cc. were awarded the contract for furnishing the heating and ventilating apparatus for Divlsion Street and Sheldon Schools at $2,999 each. The committee on Janitors and Supplies reported in favor of awarding the contract for supplying the schools with coal to several firms, but as several members of the board thought that the contracts were not sufficiently definite as to the matter of living up to them, in the event of grave contingencies, action upon them was deferred until the next meeting.

ARTISTIC GAS FIXTURES.

We take pleasure in calling the attention of our readers to the large assortment of Artistic Gas Fixtures exhibited by the Vosburgh Manufacturing Co., in their beautiful warerooms, 184 and 186 Wabash Avenue. This firm has opened this store as a branch to their old established house in Brooklyn. Their facilities for manufacturing Artistic Gas Fixtures enables them to compete both in quality and price with any manufacturers of these goods. They are selling at wholesale and retail, in addition to their Gas Fixtures, a fine assortment of Kerosene Fixtures, Lamps, Globes, Burners, etc. On all these goods they make a special discount to Builders and Contractors. who will find it to their advantage to call and examine stock and prices, when needing anything in this line.

How to Prevent Fires.

The following simple precautions, suggested by the New York Independent, if strictly followed, would prevent a great many destructive fires.

The leading causes of fires are kerosene oil, matches, and furnaces.

1. Never make a sudden motion with a lamp.
2. Never place a lamp on the edge of a table or mantel.
3. Never fill a lamp after dark.
4. See that the lamp wicks are always clean, and that they work freely in the tube.
5. Never blow out a lamp from the top.
6. Never take a light into a closet where there are clothes.
7. Use Candles just as much as possible, in going about the house and in bedrooms.
8. Matches should always be kept in earthern jars or in tin. Never leave them where rats can get at them. Nothing is more to a rat's taste than phosphorus.
9. Never leave a match on the floor, and have good safes in every place where matches are to be used.
10. Never let a match go out of your hand after lighting until you are sure it is out.
11. Have your furnaces examined carefully in the fall, and at least once during the winter, by a competent person. All the pipes and flues should be carefully looked to.
12. If there should be any closets in the the house, near chimneys or flues, put nothing combustible in them.
13. Never put any wood near a furnace, range or stove to dry.
13. Have your stove looked to frequently, to see that there are no holes for coal to drop out.
15. Never put hot ashes or coals in a wooden receptacle.
16. Be sure there are no curtains or shades that can be blown into a gas light.
17. Never examine a gas meter after dark.

Fires, of course, arise from other causes than those we have mentioned. Smokers burn up much valuable property which is not in the shape of cigars. Bunches of oiled rags of the most inanimate nature themselves, still perform the most wonderful feats in the destruction of property. Tramps, with their old pipes, will creep into barns and haymows, and servants will be careless in thousands of ways; but if every person who owns property will give the subject attention, and see that those around him are posted, and see that reasonable rules are always obeyed, many thousands of dollars could be annually saved, which are now burned out of existence.

Real estate in the suburbs of Chicago has been fairly active this year. The building in these suburbs has been and is still lively. Englewood, one of the pleasantest of Chicago's suburbs, has shown a decided growth. Many subdivisions in the southern part of the city and those from the city limits to Englewood have increased in value, and others are steady at last year's prices.

Particulars in regard to property in this vicinity can be obtained from Henry Bittleston, Real Eatate Agent, 243 State Street, Japanese Building. Mr. Bittleston will be found in every respect worthy of confidence in Real Estate transactions. He is making a specialty of Residence property. He also does a general fire insurance business.

THE RECORD.

BUILDING PERMITS.

A. W. Herr AND Co.
Manufacturers of
Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

NATIONAL SHEET METAL ROOFING Co.
Organized under Charter granted by State of Tennessee, September 30, 1882.
SOLE MANUFACTURERS OF
WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow—which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

Prominent Sanitary Engineers.

The passage by the chief States in the Union and the principal cities. of laws and ordinances governing the sanitary work in dwellings attest the importance attached to this branch of trade and the necessity in building for the employment of thoroughly skilled and practically experienced plumbers. The work, as a rule, is entrusted entirely to their discretion, integrity and conscientious care being essential to the success of their opefations as practical knowledge and skill.

Among our most reliable and thorough plumbers and gas-fitters in the city of Chicago, we certainly must include the popular house of Reed & Adler, No. 1437 State street. They have an experience of many years in this important business, and during this time they have executed numerous contracts for the best known architects, builders and contractors in and outside of the city. In addition to this, their well-known reliability has secured them a considerable share of the jobbing patronage of the wealthiest residents. Thoroughly conscientious in all their dealings, personally supervising all their work and employing only the best of material and skilled workmen,, they enjoy the patronage of a large circle of customers, and we congdently recommend them to our large number of readers and patrons in rcal estate circles as men among architects, builders, contractors, and property-owners, as reliable, highly-skilled and practical sanitary engineers.

Sanitary Plumbing and Gas Fitting.

PROMIEENT CHICAGO REPRETENTATIVE OF THE TRADE.

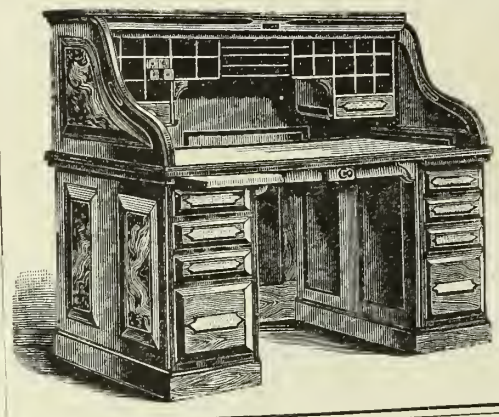
Medical men, scientific theorists, and practical hygienists, have devoted so much time and thought to the drainage question, and the subject has attracted such widespread attention from the general public that it is easily understood why so much importance has been attached of late to the most practical branch of sanitary science, the plumbing in a modern residence. Already in a private house, where the presence of a single system greatly facilitates construction, the selection of suitable appliances and their workmanlike adjustment render the plumber's operations of the greatest importance, and in some of these structures the manner in which they are carried reflects the greatest credit on his taste and skill. The latter qualification is, however, displayed to the best advantage in the first class flats and apartment houses in modern Chicago, where, owing to the fact that many dwellings, each with its individual system of plumbing, are virtually located under one roof, the greatest tact and practical knowledge are required to provide the requisite sanitary arrangements to ensure the accessibility of connections and appliances, and at the same time to avoid complications or interference. Thorough experience alone can accomplish such work satfactorily, and our best builders and architects appear to realize the fact.

Among those who are entitled to the fullest confidence of Architects, Builders and Property owners may be named Mr. Robert Griffith, practical sanitary plumber and gas fitter, No. 427 North Clark Street, Chicago, Ill. He is one of our most experienced practical plumbers and engineers, and though in business for many years, he has fully kept pace with the times and carefully studied and adopted the most reliable improvements in hygienic science, rendered necessary in caring for the city's vast population. He has every facility for the execution of contracts in a prompt and workmanlike manner, and is at all times prepared to furnish estimates for doing the entire plumbing, gas fitting, etc., of dwelling houses, stores, offices and buildings of all descriptions, and also to do jobbing and repairs at short notice and on the most reasonable terms.

Possessing the unqualified confidence of many of our foremost architects, builders, and the public in general, he has at different times executed the most complicated contracts, and in every instance given the most perfect satisfaction, and we can conscientiously praise his work and recommend him to architects, builders and the public in general, as a thoroughly reliable sanitary plumber, ranking among the foremost of our experts in the city of Chicago.

Opening of Dearborn Street.
A NEW IMPETUS TO BUILDING.

The special assessment for the opening of Dearborn Street is progressing very satisfactorily. It is confidently expected that the early fall will witness the completion of the magnificent passenger depot for the six trunk railroads operating the tracks of the Western Indiana. The opening of the street will be followed by durable and handsome improvements, commensurate with the tremendous travel and traffic which are to come.



Owing to the near advent of the improvements, property in the immediate vicinity is advancing in value—lots of forty feet or larger frontage commanding the highest prices, as width compensates for lack of depth. Except corners, such lots from Jackson to Van Buren are firmly held at $800 per front foot; from Van Buren to Harrison from $600 to $700—Rehm was offered the latter for his 100 feet—and from Harrison to Polk $400—prices having a strong upward tendency, with a prospect of reaching $1,000 per front foot sooner or later as far south as Harrison Street.

It is probable that the close of the yea 1885, will find this part of Dearborn Street built up substantially and generally. Numerous building projects are already on foot and others are in contemplation. The Brooks estate has purchased the 100 feet on the northwest corner of Dearborn and Harrison Streets for a magnificent business block. Their attorney will soon break the opposite fifty feet on the northeast corner, for a handsome business structure. Owners of the 130 feet north of the estate's purchase are preparing to build, and further north Rehm, Dale, Cheney, etc., have like building enterprises in view for their 300 feet frontage. The proprietors of the opposite side are preparing to build, and one five-story block is now being finished. Hence, the square from Van Buren to Harrison will soon be adorned almost its entire length with handsome structures for business purposes when Dearborn Street is opened and improved. The square from Harrison to Polk is progressing with substantial edifices, and the blocks from Van Buren to Jackson owned by the Brooks estate, Otis, Laflin, Grey, Jennings, etc., will wheel into line, so 1885 will witness the extension of Dearborn Street with its 4,000 feet frontage very generally and handsomely improved and occupied with substantial business blocks,

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

BUILDING DEPARTMENT.

—)o(—

THE LUMBER MARKET.

The situation at the yards remains practically unchanged except that many dealers have increased their shipments within the last week or ten days. This would seem to be an indication that some yards in the country are stocking up more liberally than they were inclined to do a few weeks ago. There is also an increase in the number of loaded teams about the lumber district and in front of the planing mills.

It is stated that considerable green lumber is now being distributed to points in the state and at low prices.

As usual at this time of year there is a good deal of "shopping around" in the district for dry assortments. Such finishing lumber is reported scarce. There is no change in prices worthy of note. Common lumber is selling under list prices at from 50 cents to $1.50 per thousand on the more ready selling sorts.

IMPROVEMENT IN BUILDING.

The Northwestern Improvement Record says:

"Perhaps no people on the globe have shown more rapid advancement in the matter of art and art decorations than the Americans. In every year of our existence great improvement in the work of all trades and professions can be noted. As an evidence of this we have but to refer to the rapid advancement in the style of architecture of every grade from the most expensive and costly mansion to the dwelling of the humble citizen. The plain, bare exterior of the dwelling of the mechanic has been superseded by neat and appropriate homes whose decoration and design give to it an air of social advancement. The costly mansion of the man with an abundance of this world's goods, in comparison with like residences of even a single decade ago gives evidence of the most rapid strides in architectural design and exterior decoration." This advancement is confined to no particular locality, but is general, and proves conclusively two things: the first of which is that architecture is keeping pace with all other forms of modern progress, and the second, that the status of the middle class in the social life of the United States has been very materially improved, in the period alluded to, notwithstanding the demagogical cry of the rich becoming richer, and the poor becoming poorer. While the improvement in architectural design and exterior finish has been so marked, it is fully equaled by inside finish and decoration, and the interior of the home of the mechanic of the United States of to-day shows marks of advancement and artistic taste, that is unapproached by those of any other country, and which would not have been dreamed of even in our own country ten years ago.

The rapid strides of Chicago toward metropolitanism were never before so marked as at present. A drive through the outskirts and suburbs reveals evidence of rapid advancement and solid improvement. Within the last three or four years a vast amount of residence building has been done in the suburbs, and within a few years new towns have sprung into existence, andthe Washington Park Club with a membership of five hundred leading citizens whose aggregate wealth will probably reach the sum of $300 000,000 have completed a race-course and club-house second to none anywhere in the world located in the Park by that name and south of South Park. The club-house is situated on the northwest portion of the grounds on the north side of the race-course and is designed in striking Gothic style. The track is laid out and graded upon the most approved lines and levels, and can hardly fail to be easy and fast. Secretary Brewster anticipates, in this respect, it will be far above the average of first-class running tracks this season, and a year hence will be the fastest track in the world. The whole establishment is superior to anything of its kind in existence. The entries have also been larger than ever known before. Gen. P. H. Sheridan, the president, has come especially to inaugurate the present running meeting, which bids fair to outstretch all precedents.

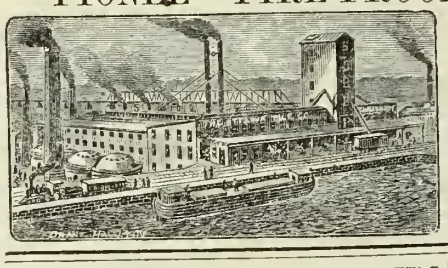
THE

Real Estate and Building Journal

R. C. SMYERS, PROPRIETOR.



CHICAGO, SATURDAY, July 19, 1884.

THE MARKET.

The week just closed shows a slight improvement over the previous one. The transfers have been more numerous and uniformly for a little larger amounts. To be sure, nothing of much importance has transpired by way of sales, but yet, the week's business all round was far from insignificant. What there is wanting in real estate operations is compensated for by the continued activity in building. This is shown by the long list of permits issued by the Building Department as well as the ring of the trowel and the sound of the hammer. The work of completing the hundreds of handsome residences, begun in the early spring, gives to the avenues on all sides of the city the appearance of brisk business and an air of metropolitanism. The Henderson store and factory building and the Marshall Field office building are going up rapidly, and when finished will be two more lasting monuments to Chicago's greatness.

On Washington Boulevard, in the vicinity of Leavitt Street, the work of fashionable house building can be seen as it is carried on in Chicago. The Ripley mansion, on the northwest corner of said streets, is nearly completed, and is built of pressed brick, light-brown stone and terra cotta trimmings. Upon the opposite corner, Mr. Martin, of the firm of Case & Martin, has his proposed, fine residence well under way. The double house being butlt by Mr. Barry, at Nos. 760 and 762 Washington Boulevard, has been delayed nearly three weeks by the failure of the terra cotta manufacturers to deliver their material. Directly opposite is another fashionable row of flats to be erected, much to the chagrin of the last named gentleman as well as his neighbors. Mr. Christy's new house is entirely finished, at No. 761 on the Boulevard, and is occupied by the owner. The style of many of the new residences is a conglomeration of several, and some of all kinds of architecture.

Real Estate News.

Real estate men and others who have not yet complied with the new license law are receiving summons from the city collector.

The Master Plumbers' Association met on Wednesday evening. Mr. Andrew Young, the President-elect of the National Plumbers' Association of Philadelphia, tendered his resignation as President of the Chicago organization. It was accepted and E. Baggott chosen as his successor.

Mr. T. J. Dolan and others, accused of swindling a woman out of $12,000 by means of a bogus mortgage, were discharged on Wednesday, the complainant not appearing against them. Mr. Dolan should keep out of bad company.

SOUTH PARK BOARD.

The South Park Board met on Wednesday. Ten additional water-pipes were ordered laid on Sixtieth Street from Woodlawn Avenue to Cottage Grove Avenue. It was decided th continue the work on the breakwater on the shore of Jackson Park, south of Fifty-ninth Street; sheeting to be substituted for stakes in the work. The contract for completing the work was awarded to Fitz Simmons & Connell, who agree to do it for $10 per lineal foot. It was also decided to fill up to the sub-grade the south drive of Garfield Boulevard from Wentworth Avenue to Halsted Street; to construct a mill-ash walk on the same boulevard from Wright Street to Halsted; and to construct a stone protection wall along the north end of Concourse Place. Hans Balatka was engaged to give a series of Snnday concerts in Washington and Jackson Parks alternately, beginning next Sunday in Jackson Park.

THE LAKE-FRONT.

In view of the proposed sale of the Lake-Front property, Ald. Manierre was in consultation with Commissioner Cregier yesterday in regard to reserving the rights of the city to reach the lake. Both men were of the opinion that some agreement should be made, not only to reserve the city's riparian rights, but to provide for some access to them. It was thought that Monroe and Randolph Streets should extend to the water's edge, so that the marine interests might be protected in the event of the construction of an outer harbor. Some suggestions like these will be made before the Council Committee, which will consider the subject next Friday.

REAL ESTATE LAW.

76—58.—John Raber, for use., v Frederick Gund. (Opinion by SCHOLFIELD, J., affirming.) Filed at Ottawa, June —, 1884.

1. HOMESTEAD—Confined to lot so occupied, if it exceeds $1,000 in value.—Where a debtor's dwelling house, garden, orchard and all the homestead improvements are upon a forty acre tract of a farm consisting of 640 acres, and such forty acre tract exceeds in value $1,000, the homestead exemption or estate will be confined to such forty acre tract, and any part of the balance of the farm may be sold on execution against the debtor.

2. If certain tracts of land, constituting a single entire farm, occupied as a homestead, do not exceed in value $1,000, the estate of homestead will include the farm; but if one lot of land occupied as a homestead exceeds in value $1,000, the estate of homestead must be limited by the boundaries of that lot, although it may have been used as a part of a larger farm.

3. SAME—Excess above $1,000 may be sold.—Where the lot of land in which there is an estate of homestead exceeds in value $1,000, the excess is subject to the lien of a judgment against the owner, or a mortgage though the estate of homestead cannot be disturbed while it lasts.

4. JUDICIAL SALE—To whom overplus is to be paid.—A, being the owner of a farm of 640 acres of land, gave a deed of trust on two forty acre tracts of the same to B, in which the homestead was properly released. It appeared that the homestead, buildings and improvements were all on the north forty acre tract, and that it was worth more than $1,000. A and his wife afterward gave a deed ot trust to C on the entire farm; D then obtained judgments against A, under which the south forty acre tract in the first deed of trust was levied upon and sold to C, still leaving a balance due on D's executions. The second trust deed was satisfied by a sale of all the land except the eighty acres in the first deed of trust, and thereupon the trustee in first deed sold the eighty acre tract to satisfy the indebtedness secured, selling the north forty acres first, which not bringing enough the south forty was sold, D becoming the purchaser of both forties. The sale realized $408 more than enough to satisfy the trust deed: Held, that D and not A was entitled to such overplus left in the hands of the trustee.

Appeal from the Appellate Court for the Second District; heard in that court on appeal from the Circuit Court of Stephenson county; the Hon. JOSEPH M. BAILEY, Judge, presiding.

92—72.—The National Bank of Pontiac v. Solhmon E. King et al. (Opinion by

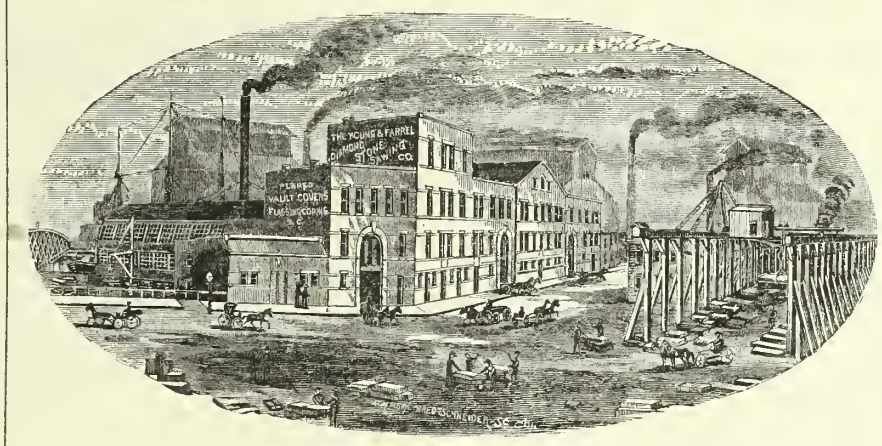
Scott, J., affirming.) Filed at Ottawa, June—1884.



Mortgage — Release of on taking land back, where does not let in intervening line. —When a tract of land was purchased subject to a mortgage thereon which was assumed by the purchaser as part of the price. and he gave his note secured by mortgage on the premises for the balance of the price, but never paid anything on the purchase or the taxes, and after the recovery of a judgment against him by a bank, the purchaser reconveyed the land to the mortgagee, his vendor in satisfaction of his notes and mortgage, and the mortgagee entered satisfaction of the mortgage upon the record in ignorance of the fact of there being a judgment against the mortgagor, and the land was sold under execution issued on the judgment: Held, that the original purchaser never had any interest in the land other than the equity of redemption, he having never paid anything, and that the bank by its purchase succeeded to no greater interest by the entry of satisfaction of the mortgage of record, it being in no way injured by such release, and in no manner deceived by it or induced to take any action it would not otherwise have taken.

Purchaser—Of land bought by debtor who has paid nothing—Must perform debtor's contract. — A judgment creditor who levies upon and purchases the land of his debtor who has bought the same but paid nothing of the purchase money, acquires only the interest the debtor had in the premises, which is nothing but the right to perform the debtor's contract. Before he can obtain any title, he must pay what his debtor was obligated to pay as purchase money and taxes accruing on the land.

A purchased a tract of land on credit, giving back a mortgage to secure the payment of the purchase money, but never paid any part thereof, and neglected to pay the taxes on the property. A bank, while the land was in this condition, recovered judgment against A, after which A reconveyed the premises back to his vendor who entered satisfaction of the mortgage upon the records, in ignorance of the recovery of the judgment by the bank, which had the property levied on and sold, becoming the purchaser. The assignee of the original vendor thereupon filed his bill to foreclose the mortgage making the bank a party, and a decree was entered requiring the bank to pay the sum agreed to be paid by its debtor, A, and also the taxes paid by the original vendor. his assignee, to save the property from tax sale within ninety days or be forever barred and foreclosed: Held, that there was no error in the decree as against the bank.

Appeal from the Appellate Court for the Second District, heard in that court on appeal from the Circuit Court of Livingston county; the Hon. O. T. Reeves, Judge, presiding.

— The following are some of the most important jobs in architects' offices:

Architect Ray is making plans for a three-story store and dwelling, costing $10,000, to be erected at No. 388 Ogden Avenue, for G. T. Stonewall.

Plans have been completed for the pastoral residence of Rev. John Waldron, of St. John's Catholic Church, to be built on the lots Nos. 1728 to 1734 Butterfield Street, at a cost of $25,000.

Edward Bauman, architect, made the plans of the flat building at Nos. 763 to 767 Washington Boulevard.

J. M. Hills, of No. 180 Dearborn Avenue, will have a new residence, costing $10,000. Planned by L. G. Hallberg.

An Enterprising House Mover.

Hearing of a great undertaking in the shape of a house-moving, our reporter repaired to the corner of Monroe and Jefferson Streets, the site occupied by the Cornice Factory of Knisely & Miller. This immense frame structure stands 36x85 feet and four stories high in its new location on Clinton near Adams Street. The house mover who performed this herculean task needs no better recommendation than he has honestly earned in the performance of this great task. We are always ready and willing to bring before the public any information which may be of benefit to such of our readers as are in search of skilled labor. The building with its machinery weighed about 350 to 400 tons, and was so long as to blockade the streets while it was being moved.

To parties in search of Skilled Labor and to the patrons of the Real Estate Journal who may by chance happen to need the service of a House Mover, we take the pleasure of recommending one whom we know to be competent and responsible, and this House-Mover is Mr. M. O'Brien, of No. 3 Blue Island Ave., Chicago.

CITY COUNCIL.

JUNE 30.

Ordinances were passed as follows, to-wit: For sidewalks on both sides of Prairie avenue from Douglas to Ogden avenue; same on both sides of State from Thirty-eigth street tJ Egan avenue; same on both sides of Canal street from West Polk street to West Twelfth; same on both sides of West Twelfth from Canal to Blue Island avenue; same on both sides of Butterfield street from Thirtieth to Egan avenue; same on both sides of Thirty-fourth street from South Park avenue to Rhodes; same on the west side of Iglehart place from Twenty-seventh street to its northern terminus;

JULY 7.

Ordinances were passed as follows, to-wit:

For sidewalks on both sides of West Division street from Lincoln to Robey; same on both sides of Seymour street from West Lake street to Chicago and Northwestern railroad; same on west side of Hamlen avenue from West Kinzie to West Indiana street; same on north side of Grand avenue from Rockwell street to Wright place; same on north side of Warren avenue from Albany avenue to Holmon; same on west side of Kedzie avenue from West Madison to West Lake street; same on both sides of Leavitt street from West Twenty-second street to Blue Island avenue; same on both sides of Blue Island avenue from West Harrison street to West Twelfth; same on both sides of Ewing street from Canal street to Halsted.

Also an ordinance repealing ordinance changing the name of River street to Wabash avenue.

Also an ordinance establishing roading and sidewalk space on Johnson place from Thirty-seventh to Thirty-eigth street.

Also permission has been granted to the citizens of the Twelfth ward to erect a wigwam 60x100 feet, on West Madison street, near Robey. Said wigwam to be removed immediately after the general election in November next.

Also permission haf been granted to the citizens of the Thirteenth Ward to erect a temporary building at No. 603 West Indiana street. Said building to be removed immediately after the election in November, 1884

West Prrk Board.

A communication has been received by The Journal from two of the tax-payers on the West Side in relation to an itemized bill for fees rendered by Mr. Ball, who was for a long time one of the attorneys for the West Park Board. Upon enquiry our reporter learned that said bill was materially cut down by the Board and then ordered paid. Some of the items, it is claimed, were simply based upon a mere pretext and really had no foundation. A heavy tax-payer living on Washington boulevard asks the further question, "What salary is paid to the Secretary and what amount to the assistant secretary of the Park Board." The Journal promises to make proper enquiry concerning all expenses of said board and give the desired information in the next number. But little is known about the inside workings of this Board and it is claimed by those who have looked into the matter that some of the positions now occupied by petty ward politicians are mere sinecures.

The Couch Estate in Court.

Another controversy has been instituted in the Circuit Court in relation to the Couch estate—a large and valuable property, which includes the Tremont House plant and other down-town real estate. The complainants are Caroline Couch and William H Wood, while the defendants are Caroline E. Johnson, Elizabeth G. Couch, Ira Couch, tho creditors and other persons interested in the estate. It is asked that the will of the late Ira Couch be interpreted by the Court, an adjustment made of the rights of the several heirs and devisees, the duties of the trustees fixed, and that certain realty may be sold to pay some $300,000 debts now hanging over the estate. The will originally provided that the estate should be fully settled up in 1877. The low price prevailing in the real estate market at that time would scarcely have permitted the trustees to clear enough out of the estate to pay the debts. It is said, however, that the increase of rents and other sources of income have cut down the debts and added to the value of the property until it is now worth $1,000,000, above the incumbrance.

BUILDING NEWS.

— John Unnach contemplates building an $8,000 residence on May street, near Milwaukee avenue.

Five three-story buildings will be erected at 1920 to 1934 Clark street for C. L. Jenks.

— Plans have been drawn for a large block of stores and flats at the corner of Randolph and Elizabeth streets, for A. J. Snell.

The Newberry estate will build an addition to the block of stores at Nos. 121 to 127 East Kinzie street.

A. I. Marble will soon begin work on a two-story barn in the rear of 242 Dearborn avenue.

— G. Isaacson has drawn plans of two three-story brick stores and dwellings for G. Gunderson.

162 Washington Street, CHICAGO.

—Charles Gee will proceed at once to erect two three-story and basement houses with cut stone fronts on LaSalle avenue near Chestnut street, to cost $12,000.

—Architect Van Osdel has plans on hand for the handsome residence of John Sollitt to be built at 519 West Jackson street.

Jacob Beidler is making preparations for a large block of buildings to be erected on the corner of Washingtou and Clinton sts.

—Work on the foundations of the new flat buildings Nos. 247 and 249 Illinois street has been commenced.

—W. Rentel, architect, planned the double store and flat building to be built at the corner of Twentieth and Halsted streets for Mr. Oesterreicher.

—C. Hulvie will erect a $10,000 store with flats above at No. 681 Madison street. Plans were drawn by Architect Frohman.

—A flat will be built by F. A. Helmer at 221 Michigan avenue. Planned by William Longhurst, architect; cost $12,000.

—Preparations are now being made for the erection of a $7,000 flat by F. Berry at 205 Lincoln avenue.

—It is reported that work will be commenced immediately on the handsome residence, planned by R. Rae, Jr., for H. A. Bliss to occupy lots 3350 and 3352 Wabash avenue, which will cost $15,000.

—W. Watriss will erect a very tasteful residence three-stories high with green stone front, adjoining his residence on North State street near Schiller.

—W. Peck will build two residences on Michigan avenue near Twenty-third street. Planned by Architect Bauman.

—A block of houses each 16x52 feet wil be built on West Randolph street, near Union, by C. Reitz. The plans are by Architect Bauman.

—George Adams has plans ready and will build two dwellings on Adams street near Laflin, at a cost of $25,000.

—L. G. Tuckenboss, architect, has prepared plans for an excellent block of brick and stone stores to be built at the southwest corner of Cottage Grove avenue and Thirty-first street, at a probable expense of $60,000 to S. C. Porter.

—The ground on Dearborn street, just south of Washington, formerly occupied by the "Tivoli" has been leased by Louis Hansen, who is making arrangements for erecting a six-story building thereon.

—John Featherstone will begin the erection of five brick houses on the corner of Wood street and Park avenue; also three brick and stone dwellings on Washington boulevard near Hoyne avenue.

—Thomas & Lane, architects, have prepared plans for a 3-story residence for W. D. Avery, at 15 Lane Place. They are also preparing plans for a 3-story flat for G. W. Hoffman, to be built on North State Street, near Indiana.

— Work is well advanced on the foundations for the new wholesale building for C. M. Henderson, at the northeast corner of Adams and Market Streets.

— A new grist mill is to be built at Bellaire, Mich.

— Edenville, Iowa, is to have a new $10,000 school house.

— A $5,500 Baptist church is being built at Ithaca, Mich.

— The Presbyterians of Counsil Bluffs, Iowa, will erect a $25,000 church.

— A new university building will be built at Pierre, Dak.

— The supervisors of Clare Co., Mich., vote to build at once a $7,000 jail.

— The Congregationalists of Central Lake, Mich., talk of building a new church.

— July 4, the corner stone of the insane asylum at Jamestown, Dak., was laid.

— The people of Racine intend erecting a new Y. M. C. A. building.

— Work on the foundation of the new court house at Rio Grande, Cal., will be commenced in a few days.

— The Sisters of the Academy in Davenport, Iowa, are building a four story structure, 150x42 feet.

— The Northern Pacific Railroad Company, during this season, will put up an elevator, round house, car sheds and other buildings in Northern Minneapolis.

— The Northern Pacific will also build a new brick freight depot on First Street, Minneapolis. It will be one story in height, except the lower end which will be three stories, and will have a slated roof. S. C. Cutler, contractor.

— The walls of the Hotel Ryan, St. Paul, Minn., are now up to the first story.

— Mr. E. P. Bassford, architect, has a large amount of work on hand for St. Paul, Minn.

— Plans are completed for the dwelling of C. W. Muller, on Lyndale Avenue, St. Paul, Minn.

— The Board of Education has closed the contract for the High School building at Brainerd, Minn., with F. A. B. King of that city, the contract price being $27,000, exclusive of heating apparatus.

— A union elevator will be built immediately at Barnesville, Minn.

— A $35,000 brewery will be erected by Milwaukee parties, at Bismarck, Dak.

— A large hotel at Britton, Dak., is being constructed.

— A new court house is being built at Santa Rosa, Cal.

— L. Zekendorf & Co. are having a business block put up at Tuscon, Arizona.

— At several points along Lincoln Avenue, Fergus Falls, Minn., excavations are made for brick blocks, to be completed before winter.

— At Minnesota Lake, Minn., a new Catholic church will be erected.

— The corner stone of the College of Arts, the main building of the Dakota University, will be laid in a few days at Mitchell, Dak.

— The contract for Mr. Corbett's building has been let to P. Porter. The structure, which will cost $75,000, will be erected at Portland, Ore.

— W. L. Brackenridge, of Rochester, Minn., will erect a fine brick building soon.

— A bill to permit the erection of a dam, across the Mississippi at St. Cloud, Minn., has passed the House and is now before the Senate without objection. Should the dam be erected, an enormous water-power at East St. Cloud will be the result, and a lumber manufacturing centre be created.

— The foundation is being laid for a new hook and ladder company building, at Stillwater, Minn.

— Ground has been broken for an extension of the L. C. Porter Milling Co., of Winona, Minn.

— A $30,000 hotel will be erected at the corner of Oak Street and Dakota Avenue, Watertown, Dak.

THE RECORD.

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y,

Being the Great Central Line, affords to travelers, by reason of its unrivaled geographical position, the shortest and best route between the East, Northeast and Southeast, and the West, Northwest and Southwest.

It is literally and strictly true, that its connections are all of the principal lines of road between the Atlantic and the Pacific.

By its main line and branches it reaches Chicago, Joliet, Peoria, Ottawa, La Salle, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Keokuk, Knoxville, Oskaloosa, Fairfield, Des Moines, West Liberty, Iowa City, Atlantic, Avoca, Audubon, Harlan, Guthrie Center and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri, and Leavenworth and Atchison in Kansas, and the hundreds of cities, villages and towns intermediate. The

"GREAT ROCK ISLAND ROUTE,"

As it is familiarly called, offers to travelers all the advantages and comforts incident to a smooth track, safe bridges, Union Depots at all connecting points, Fast Express Trains, composed of COMMODIOUS, WELL VENTILATED, WELL HEATED, FINELY UPHOLSTERED and ELEGANT DAY COACHES; a line of the MOST MAGNIFICENT HORTON RECLINING CHAIR CARS ever built; PULLMAN'S latest designed and handsomest PALACE SLEEPING CARS, and DINING CARS that are acknowledged by press and people to be the FINEST RUN UPON ANY ROAD IN THE COUNTRY, and in which superior meals are served to travelers at the low rate of SEVENTY-FIVE CENTS EACH.

THREE TRAINS each way between CHICAGO and the MISSOURI RIVER.

TWO TRAINS each way between CHICAGO and MINNEAPOLIS and ST. PAUL, via the famous

ALBERT LEA ROUTE.

A New and Direct Line, via Seneca and Kankakee, has recently been opened, between Newport News, Richmond, Cincinnati, Indianapolis and La Fayette, and Council Bluffs, St. Paul, Minneapolis and intermediate points.

All Through Passengers carried on Fast Express Trains.

For more detailed information, see Maps and Folders, which may be obtained, as well as Tickets, at all principal Ticket Offices in the United States and Canada, or of

A. W. Herr AND Co.

Manufacturers of

Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

Organized under Charter granted by State of Tennessee, September 30, 1882.

SOLE MANUFACTURERS OF

WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow —which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

We are offering a large list of desirable Real Estate in locations that are growing rapidly, and now paying from seven to twelve per cent net on the investment. For particulars apply to
SNOW & DICKINSON, 97 Washington St.

Lumber, Lath, Shingles, Etc.

No less than 350,000 people are engaged in the lumber production of this country, and the capital employed in it foots up to many millions. The consumption of the staple is simply enormous; the amount cut and sawed annually to supply the market far exceeds our imagination. This demand is constantly on the increare, and unless the greatest discrimination is exercised in felling only suitable trees, there will, in course of time, be a scarcity, which will send lumber up to excessive prices.

Among the reputable houses in the City of Chicago, actively engaged in the lumber trade, is that of Messrs. I. Wilce & Co., with planing mills and yard located on Twenty-second and Throop Streets. They deal extensively in Lumber, Lath and Shingles of every quality, to suit all buyers and all purposes. They make a specialty, however, of Kiln-dried, Hardwood Flooring, such as Oak, Ash, Walnut, Pine, Maple, etc., as well as Dry White Pine Flooring, Ceiling and Siding, and as their facilities are of the amplest kind, they are always in a position to meet all wants.

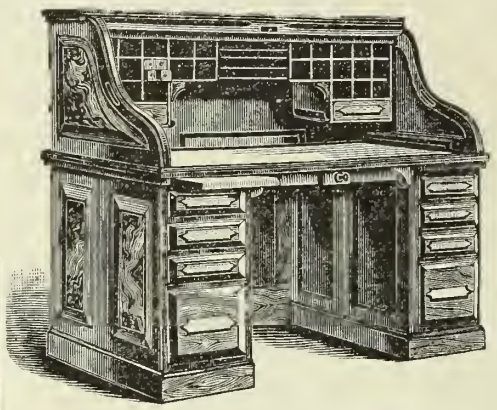
As the REAL ESTATE AND BUILDING JOURNAL is extensively patronized by the most prominent Architects, Builders, Contractors and Property Owners, it is with pleasure that we call their attention to this well known and reputable house, and so far as liberality and fair dealings are concerned, the name of I. Wilce & Co. is too favorably known everywhere to need any praise at our hands.

George M. Gross.

MANUFACTURER OF CORNICES, GUTTERS, SKYLIGHTS, TIN AND SLATE ROOFING, AS WELL AS GROSS' IMPROVED DUSTLESS ASH RECEIVER AND DUMPER.

Cumbrous cornices on modern buildings have been replaced almost entirely of late by metal work, and the care and skill exercised in its production, and the minimum of strain it imposes on the walls, have led to its employment almost exclusively for this purpose.

Among those engaged in it in Chicago, enjoying a lengthy experience in the trade, is Mr. Geo. M. Gross, of 2117 and 2119 South State Street, who manufactures iron cornices, gutters, leaders, skylights and the sheet metal work employed in connection with furnaces, hot air and ventilating systems, etc., etc., and contracts for the tin and slate roofing and sheet metal work on buildings. He has executed important contracts for our best known architects, builders and wealthy corporations, and enjoying superior facilities for the prompt and careful execution of work on any scale of magnitude, employing only skilled and experienced workmen, he is prepared to furnish estimates on every description of cornice, roofing and metal work, jobbing, etc., and we can strongly recommend him to architects, builders and property owners as a reliable and highly skilled mechanic. During the writer's visit to the above address, an invention was brought to his notice, which he deems of sufficient importance to give a description of in the columns of the REAL ESTATE AND BUILDING JOURNAL. The article referred to is GROSS' IMPROVED DUSTLESS ASH RECEIVER AND DUMPER, which commends itself AT SIGHT, and the rapidity with which it is being adopted everywhere is a convincing proof of its thorough usefulness and reliability. It is made to fit any sized and any shaped ash chutes, either square, oblong or round, whether they are built in a wall, outside a building or under construction. It can be used on any floor and on all floors at one and the same time without difficulty. In the hardest winds no dust can escape until placed in the proper receptacle to be dumped.



For utility, simplicity, cleanliness and durability it has no equal of its kind anywhere, and is adapted for use in Private and Public Buildings, Hotels, etc. It is now extensively in use among our most prominent citizens near and far, who have thoroughly tested its merits and found it to be an actual household boon; hence, we especially call our readers' attention to its merits, feeling assured they will thank us for having brought to their notice such a valuable and indispensable household contrivance.

The headquarters for Gross' Improved Dustless Ash Receiver and Dumper are at Nos. 2117 and 2119 South State Street, Chicago. Pamphlets and prices will be furnished on application and all orders will be executed promptly and satisfactorily every time. We refer to the manufacturer's card on another page.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

The Paper Trade.

The art of paper-making is an old one, as its name shows, being derived from the Greek term "papyrus," which was applied to a species of this article made from reeds or rushes. Papyrus, although not so durable as vellum or parchment, was far less expensive, and gradually came into ordinary use, entirely superseding, under its present name and improved manufacture, its ancient rival. In our days we manufacture paper of almost everything such as straw, wood, rags &c., in every variety of color and finish. The paper-making industry is a most important one in this country, and involves the employment of an immense capital, a great number of hands, and a fine supply of the most finished, delicate and expensive machinery. The process of manufacture is one of the greatest interest, well deserving and repaying the closest examination and study. The paper business is a most important one, particularly in Chicago, which is the market for such a large section of country, and there are quite a number of large houses engaged in its sale, and one among the best known and leading houses is that of Messrs. Hollis & Duncan, Nos. 33 and 35 North Canal street, corner of Lake. These gentlemen are dealers in wrapping, manilla, express, carpet, lining, straw, roofing, building, paper, etc., as well as paper bags, twines, etc. Their ware-house is commodious and affords every facility for the transaction of their business. They carry a large stock and their customers have a great variety from which to make selection. They are constantly in receipt of supplies from the leading paper mills in the country. In a word, this is a complete paper ware-house, where any orders are sure to be filled fairly and squarely and with dispatch. They do a large and constantly increasing business.

BUILDING DEPARTMENT.

—)o(—

THE LUMBER MARKET.

Dealers are looking with favor upon crop reports. They say if the country is to have good crops—and all the indications point that way now—that the farmers and the people depending on them generally will figure to do some building as soon as the wheat is cut. Farmers never get done building, and if nothing else is needed they will build fences. In this day and age there is almost what amounts to a craze for fine residence building in all American cities. The farmers visiting our larger towns and cities are awakened by the rapid improvements they see going on; their pride is stimulated, their ambition aroused, and they go home and at once undertake the work of further improving and adorning their homes. Lumbermen, not unlike other classes of business men in the West, do not look for any encouragement from the East, but have their prohetic eye turned to the farmer and his crops. No doubt the general depression of other kinds of business is having a depressing effect on building. not in preventing the vigorous prosecution of work already begun, but in checking plans for the future.

Complaint has come into the JOURNAL office that none of the papers, including this one, report the lowest figures for which materials can be bought. The authorized changes are made but once a month, and if parties can, by "shopping around," get stuff for 50 cents to $1.50 per thousand less than it is quoted, this Journal cannot help it. The Northwestern Lumberman of July 19, has the following on the subject:

"It was difficult to arrive at the real state of the market, as both commission men and yard jobbers were performing the pantomimic act, and were about as communicative as an oyster. This week, however, the cat is out of the bag, and all are more willing to talk. Last week $8.75 for piece stuff was the lowest figure a commission man was willing to name, but now he is ready to admit that it must be a good cargo that is selling at $8.50, while plenty of it is going at $8.25. No doubt that before this number of the Lumberman reaches its readers cargoes will sell at $8 a thousand in frequent instances. In fact it appears to be the general opinion that the market cannot endure the present strain much longer, and that dimension must drop another notch. The range on short piece stuff can now be quoted at $8.25 @$8.50, the latter figures covering the better cargoss, running a good percentage to long lengths."

The yards complain of dullness, but some few houses report a first-rate inquiry and a small increase in orders.

The monthly statement of the Lumberman's Exchange shows an incerase of lumber on hand July 1, amounting to 91,961,413 during the month of June, and 22,527,200 shingles, and an increase of lumber over July 1, 1883, of 39,917,-117. Though the increase is not apalling, it is sufficient to show that the summer business of this year has not been equal to that of last season, and calls for a careful survey of the situation and cautious going on the part of dealers.

STOCK ON HAND JULY 1.

	1884.	1883.	1882.
Lumber and Timber	470,292,195	430,375,078	443,039,546
Shingles	295,843,825	246,987,650	223,839,500
Lath	46,889,385	43,612,922	26,691,152
Pickets	1,331,104	1,486,077	1,902,187
Cedar posts	297,545	409,258	154,143

The timber interests of the world are reported to be in a bad way. The forests of northern Russia fail to meet the demands of St. Petersburg; those of Sweden and Norway have been decimaied; the woodland lumber of Germany is poor; that of Bohemia, Gallicia, and Transylvania is not accessible, and our own forrests are rapidly disappearing before the ax and the firebrand.

A general impression exists that slow-grown timber is the strongest, but this opinion does not, it is said, stand the test of experiment. There is in London a government establishment for testing the quality and strength of all woods and metals used for government purposes, the chronicles of which are said to be very interesting.

CHICAGO, SATURDAY, July 26, 1884.

THE MARKETS.

BUSINESS OUTLOOK OF THE COUNTRY—RENTS—NEW DEPARTURE IN BUILDING.

The substance of our report last week was "a quiet market and active building operations." The old stories about the summer heat, politics and the Wall Street Panic are getting threadbare. Owners of improved property are concerned in knowing that their houses will be occupied or that there is a reasonable prospect of receiving a fair rental.

There has been no speculative buying in Chicago, to speak of, for the last two years. People have been buying property for improvement and use, and not simply as a speculation.

THE LEGITIMATE BUSINESS OF THE CITY

and the Western part of the country is going along about as usual, save and except the usual summer quiet. The fall jobbing trade is now about to begin, and in some branches of business has already set in, as in the case of boots and shoes.

Each day brings forth one or more failures, even in Western business centers, and numerous small ones, but in each case incompetency, the utter lack of capital, and, frequently, the attempt to run a business on cheek, are the prime causes. If Chicago is not self-sustaining no city in the world is, because good crops, especially

WHEAT AND CORN, ARE THE MAIN SPRINGS

of trade here. More damage is done to business by making unnecessary and exaggerated reports of all assignments and and failures, in the daily papers, than would be effected by a simple knowledge of the fact that trade is dull.

Hundreds of men who are in no danger, from the very nature of their business, take undue advantage of their creditors by standing off their bills, or by feigning poverty, or by exhibiting alarm where no real danger exists. When there are good crops money is plenty and confidence strong.

THE PROSPECTS FOR GOOD CROPS

this season are assuring, and Chicago stands almost in the center of the most productive country in the world. Because the prices of commodities are cheap and tending to cheapness by the prospects of a bountiful harvest business men should feel no alarm, much less the poorer classes.

The very nature of speculation in grain and produce on our boards, if carried on extensively, is precarious, and it is bad logic to account for good or bad times by the success or failure of such institutions.

It is claimed that from present prospects the farmers will spend no money, as they will probably not sell on account of low prices. But is it not a fact that prices are advancing already, to some extent, in produce as well as stocks? If prices are yet too low, the condition is only temporary, and will soon seek a proper level. The tendency at this time, of grain, is to go upward. The farmers are intelligent enough to see it; and other indications point to a good, healthy fall trade.

If all business were conducted as carefully as the real estate business has been since the panic, no cause of failure need exist, at least in Chicago.

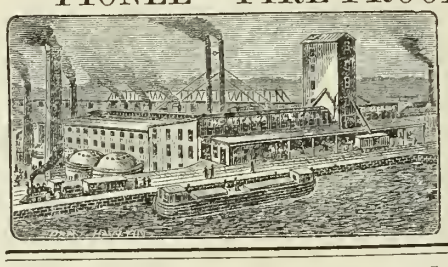
THE ONLY QUESTIONS REQUIRING

serious consideration by our capitalists and their agents here is the supply of and demand for houses.

The business of the REAL ESTATE AND BUILDING JOURNAL takes its agents and solicitors all over the city of Chicago and Cook county, and the editor has spent fully one-half of his time in driving through the city and suburbs for the purpose of gaining a correct knowledge of the improvements going on, and to learn if building is overdone. Upon the best streets, such as Washington and Michigan Boulevards, Prairie Avenue, South Park Avenue, and Dearborn and LaSalle Avenues, very few vacant houses of any kind can be seen; but, in the northwestern section of the city, east and north of Humbolt Park, and in the extreme southern portion of the city, as well as in Hyde Park, numerous vacant houses can be seen. On Madison, in the vicinity of Throop Street and Ashland Avenue, and as far west as Robey Street vacant stores and flats stare the house agent in the face. There is, however, no cause for alarm in this, because it is easily understood

RENTS

in Chicago have been up to a pretty high notch, considering the wages paid to working people and the almost unlimited scope to build on. Chicago enjoys the reputation of being the cheapest city in America to live in as far as food and clothing are concerned, and, of course, reasonable rents would be in keeping with other expenses. Notwithstanding the cry against "flats" hundreds of families who once lived in cottages, are now domiciled in them; thus a single building containing three flats will house as many people as three single houses or cottages. Besides, hundreds of owners, who have grown rich from rents, have built and are now building pallatial residences for themselves to live in, and are now renting their old houses. For example, the two sprightly and oddly constructed houses on the boulevard, near Central Park, owned and occupied by Mr. Morrison and his son-in-law, Mr. Spofford; the handsome stone and pressed-brick residence on the northwest corner Washington and Leavitt Streets, owned by Wm. Ripley, together with a half dozen others in that immediate neighborhood. To enumerate the palaces built on the South side during the last two years would require an eight-page supplement to the JOURNAL, and be it remembered that as fast as owners move into their own houses they leave a house unoccupied somewhere else. Besides, the houses that are now built for rent are fashionable and sprightly, and people who must or do pay $75 to $100 a month, will select one of these new ones, because the same money has been asked for an old fashioned house—if equally comfortable, not so sprightly. We have, however, enough houses and stores to house our growing population for the next year to come. Money invested in houses, even now and hereafter, is safer than to risk your wealth in stocks.



STAINED GLASS.

One of the new features in residence building is the use of stained glass in windows and transoms. The same thing has been used, time out of mind, in cathedral and church building, in the vast rock-tombs of Egypt, in Gothic architecture, and in the fashionable cottages of France; but it must be regarded rather as a new feature, recently adopted in residence building in Chicago. Everything else being equal that one of two houses which contains in its windows and transoms stained glass, will rent sooner than the one destitute of this handmaid of architecture, which seems to cast a radiance and a glow upon the walls of an otherwise cheerless house.

— Charleston, W. Va., will build a $61,000 State-house.

— Water-works, costing $100,000, will be built at Greensburg, Pa.

— The Everett Hotel, Jacksonville, Fla., will be enlarged and 175 rooms added.

— A new Presbyterian church at Battle Creek, Mich., will be finished in October.

— A new court house will be erected at Knoxville, Tenn. The contract price is $82,240.

— Samuel Noble, of Anniston, Ala., has given $20,000. to build two school houses.

— July 21, Charlevoix, Mich., will vote on building a town hall, jail and engine house.

— Arrangements are progressing for the erection of a new post-office at Minneapolis, Minn.

— Work has commenced on the freight depot for the F. & P. M. railroad, at Flint.

— Ground has been broken at Colorado, La., for a $40,000 hotel and $60,000 court house.

— A new court house at Weatherford, Texas, is to be 38x100 feet and 113 feet high, and will cost $60,000.

— It is rumored that the building of a grist mill and a wood-working establishment will soon be commenced in Tampa, Fla.

— The plan of a new county court house of Alachua, Fla., has been adopted. It is claimed that it will be one of the finest in the State. It will be built of brick and cost $35,000.

— The following buildings are to be erected at Kansas city, Mo.: A. B. Cross, store, 825 Broadway; cost, $10,000. Hayes Bros., three houses on Julia Avenue; cost, $1,300 each. J. Pierce, wholesale house, 112 West Third Street; cost, $7,000. R. J. Perrin, two houses, 1223 and 1225 Jefferson Street; cost, $15,000 each. G. L. Brown, house, Dundee Plain; cost, $3,000. P. E. Emery, two double houses, Thirteenth Street, cor. Washington Street; cost, $7,500 each.

— The John Stephenson Female Seminary is to build a three-story brick building, 47x54, to cost $8,500, at Charleston, W. Va., from designs by E. Baldwin, architect, Baltimore.

— Lexington, Ky.—A three-story brick and stone carpet-store, 31x117, is to be built for Mr. Wm. Campbell, from designs of Mr. P. L. Lundin.

— The Vicksburg Manufacturing Co. will erect a spoke factory at Vicksburg, Tenn. The main building will be 32x100 feet, with commodious offices and engine room.

— Charles Crowell will build a planing mill at Ashland, Ky.

— The Burnham Grate Co. will soon commence the erection of a large foundry in Birmingham, Ala. The company, which is a new organization, will also manufacture stoves.

— Madison, Ind., is to have a $100,000 foundry, a joint stock company having been organized for that purpose.

HYDE PARK.

Building operations are active in this suburb. In the North End the handsome dwellings are rising rapidly on all sides.

Charles Trego has begun the erection of a $40,000 house at Oakland, near the lake. The finishing touches are being given to the two handsome and costly houses of Robert Strahorn, corner Forty-seventh street and Woodlawn avenue. The two brick houses of O. W. Potter, on Forty-seventh street, near the corner of Greenwood avenue, and the frame house of I. N. Ash, on the corner, are rapidly progressing. C. W. and E. Pardridge have completed a block of thirteen brick houses on Langley avenue, near Bowen avenue. E. F. Bayley is having built a $6,500 house on Greenwood avenue, between Forty-sixth and Forty-seventh streets, planned by Architect Beers, in colonial style, the tower being a pleasing feature.

Contracts are just let for a $10,000 dwelling, in fine colonial style, at Fifty-seventh street and Madison avenue, Hyde Park, for Mr. Lane—Mr. Beers architect—and some of the arrangements, rare if not unique—these parts, may be interesting. There is the large chimney in the center of the houes, with the old-fashioned fire-place. The hearth is about six feet wide bv twelve feet long, arranged for log, andiorns and crane, with roomy seats wide enough to lie down on. The casings throughout are very narrow. The doors have no transoms, but small upper panels are made to slide or tip. The shutters ar made of solid wood, with an aperture cut in the upper portion for ventilation. The front vestibule door has plate-glass panels set in polished brass. The outside shows much shingle work and rough casting, filled in with broken colored glass and pebbles, The hardwood finish will be very plain.

CITY COUNCIL.

JULY 14, 1884.

Ordinances were passed as follows: For sidewalk on both sides of Milwaukee avenue from West Kinzie street to West Chicago avenue; same on both sides of West Monroe street from Canal street to Green; same on both sides of Monroe street from Green street to Aberdeen; same on both sides o

Laughton street from Hoyne avenue to Leavitt street; same on both sides of West Ohio street from Union street to Ashland avenue; same on both sides of Noble street from West Kinzie street to West Chicago avenue; same on both sides of Carpenter street from West Madison to West Indiana street; same on both sides of West Indiana street from Desplaines to Elizabeth street; same on both sides of Plum street from Loomis to Laflin street; same on both sides of Ashland avenue from West Madison street to Warren avenue; same on both sides of West Erie street from Noble street to Halsted; same on both sides of Peoria street from West Madison street to West Randolph; same on both sides of Oakley avenue from West Lake street to West Chicago avenue; same on both sides of Leavitt street from West Lake to West Indiana street.

Also an ordinance establishing side walk space on Ritchie place from Goethe street to Banks street.

Also ordinance establishing grade on Rhodes avenue from 31st street to 34th.

Also permission has been granted the citizens of the seventh precinct of the Twelfth Ward to erect a temporary building at or near the corner of Polk st. and Western ave., to be used during the presidential campaign for political purposes; said building to be removed immediately after the election in November next.

Lincoln Park Board.

The Lincoln Park Commissioners held their regular fortnightly meeting Monday afternoon.

A committee representing owners of property fronting on the park north of Fullerton avenue laid before the board a proposition to build a road on the west side of the park from Fullerton avenue to Diversey street. The property-owners offered to give the park for the purpose a strip of ground fifty feet wide, reaching the entire distance, and would agree to defray half the expense of the construction of the road. The board decided to postpone consideration of the offer until the next meeting.

A contract was authorized with Matt Taylor for a granolith walk seven feet wide on the north side of North avenue from Clark to Dearborn street. Authority was given for a contract with John Hand for twelve concerts at $30 each. The concerts are to be given on Wednesdays and Saturdays of each week.

Hyde Park Board.

Ordinances for sidewalks as follows: South side of Forty-second street, from Evans avenue to Vincennes avenue; both sides of Eighty-eighth street, from Houston avenue to South Chicago Railroad; west side of Langley avenue, from Thirty-ninth street to Fortieth street; north side of Ninety-fifth street, from Commercial avenue to east line Lot 2, Doyle's Addition. Frl. sec. 6, T. 37 N., R. 15 E.; east side of Commercial avenue, from Eighty-eighth street to Ninetieth street; north side of Sixty-third street, from Madison avenue to Cottage Grove avenue; west side of Seventh avenue, from Ninety-ninth street to One Hundreth street; west side of

REAL ESTATE NEWS.

The sale under decree of the unsecured promissory notes, secured notes, and the residuary real estate of the late Samuel J. Walker, bankrupt, was made by Henry Waller, Master in Chancery, yesterday morning. The aggregate amount of the sale was $263,266, all of which was struck off in turn to C. H. McCormick Jr. generally on the first bid. The main item in the real estate was a block of twelve lots on Ashland avenue, between Twenty-second street and the river, in Walker's Dock Addition, which brought $175,000. Unsecured notes of Joseph E. Young for $10,000 and $9,438 sold at $5 and $1, respectively. A note of H. H. Honore for $6,525, dated in 1873, sold at $5. Some Chicago, Danville & Vincennes Railroad notes of $15,962, face value, brought the same amount. The secured notes brought from $100 to $6,000. The remaining real estate consisted of forty-four lots in the Dock Addition, which in the aggregate sold at $17,850, and twenty-nine lots in Johnson & Lee's Subdivision, which were sold for $9,900, the ruling price being $300 per lot.

Chicago Real Estate Board.

The change made some time ago in board hours meets with general approval among the members. Before this change the board meetings were from 12 to 12:30, now the board meets a half an hour earlier, viz: from 11:30 to 12 M. The sale or wanted list of property is called off at 11:45. A daily lunch, consisting of coffee and sandwiches, is served at the board rooms, and heartily relished by the members. The membership is now 95, and several applications on file.

ONE OF THE ADVANTAGES of being a member of the association is the investigation of special assessments by the board's attorney and the discussion of the same by members in board meetings. Tax payers on the West side have recently asked at the office of this Journal concerning the SOUTHWESTERN BOULEVARD ASSESSMENT. Not being prepared to answer their questions then, we subjoin the following:

Mr. J. P. Wilson, the attorney for the Real Estate Board, advised the members that said assessment was illegal, and immediately went ahead to contest it, by the advice and consent of the association.

W. D. Kerfoot & Co. have opened up books for the purpose of taking a list of property assessed for the improvement, and all property owners interested in said assessment are requested to send their tax receipts to No. 90 Washington Street. The charges or costs of uniting with the contestants are as follows:

On bills not exceeding $20, a fee of $1. On bills over $20 and under $100, 5 per cent.; and 2½ per cent. is charged on all tax bills in excess of $100. It is stated that the treasurer of the Park Board will not receive any further payments of the aforesaid Boulevard assessment, until the matter is settled by the courts.

THE NEW YORK MARKET.

The only attractive auction sale the last month was that of the extensive sale of the property of Mr. John H. Deane, who under the pressure of adverse circumstances was compelled to make an assignment. The property was generally well selected, and the reputation of the owner as an expert in real estate matters, had much to do with the large attendance at the sale. The auction commenced on Tuesday the 15th inst., on which occasion it is estimated that 500 persons had crowded into the salesroom. It soon became evident that a portion of the assemblage had attended for other purposes than mere curiosity, as for an hour or two the bidding proceeded with a rapidity akin to eagerness, and a number of lots were disposed of at fair prices, but the energy manifested at the commencement was not sustained, so when property of the value of nearly a half a million dollars had been disposed of the sale was adjourned until the following day.

On the second day's sale on the 16th inst., another large mass of property of the same estate, was disposed of, realizing an aggregate of upwards of $500,000. The purchases generally speaking, were in favor of buyers. The property included a number of vacant lots in the upper part of the city, to the value of which, the facility of travel by the elevated roads has largely contributed. The sale was adjourned until the following day.

The third day's sale was proceeded with until about $300,000 worth of property was disposed of, when the persons assembled in the sale-room became so disorderly and clamorous for the acceptance of such inadequate prices as the auctioneer refused to entertain, that the further sale was deferred until Wednesday the 23d inst.

MODERN PLUMBING.

A WELL-KNOWN CHICAGO TRADESMAN

The attention that has been bestowed of late on every description of sanitary work, including the plumbing and drainage of our dwellings, has created an increased demand for skilled workmen in this line, and among builders and others, the greatest care is taken to secure competent sanitation. In accomplishing this purpose, not only a thorough theoratical knowledge of the scientific principles governing perfect drainage, but also a practical acquaintance with every detail of the work is necessary, and it has become a recognized fact that only a lengthy experience in the business can ensure both qualifications. In Chicago, as in other large cities, a careful supervision both by builders, property owners and the health department's officers is excrcised over every description of sanitary work, and among those plumbers who have made an excellent reputation among these discriminating judges, is Mr. John H. Shannon, plumber and gas fitter, No. 292 Blue Island Avenue, Chicago. He has for years been engaged in the plumbing business, and all his work is of a character to do him great credit. Employing a number of expert mechanics and keeping on hand a large assortment of appliances and materials of first-class manufacture and quality, he is prepared to undertake jobbing work of all descriptions, or the entire plumbing and gas fitting on any number of houses of first-class character, and will furnish satisfactory guarantees, estimates, etc., on receipt of particulars. We can strongly recommend him among our numerous readers, for all the work he does is done well, and at prices which are as reasonable as those charged by any other first-class house in the same line of business.

THE RECORD.

BUILDING PERMITS.

W H Thomas, two-story dwelling, 20x40, No 1343 Jackson ave, $2500.

N Fagen, three-story store and dwelling, 23x84, Halsted and Thirty-fourth sts, $8000.

A. W. Herr AND Co.

Manufacturers of
Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

NATIONAL SHEET METAL ROOFING Co.

Organized under Charter granted by State of Tennessee, September 30, 1882.
SOLE MANUFACTURERS OF
WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow—which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

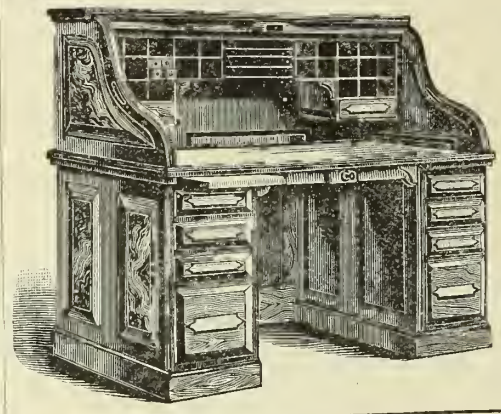
SNOW & DICKINSON, 97 Washington St.

Lumber, Lath, Shingles, Etc.

No less than 350,000 people are engaged in the lumber production of this country, and the capital employed in it foots up to many millions. The consumption of the staple is simply enormous; the amount cut and sawed annually to supply the market far exceeds our imagination. This demand is constantly on the increase, and unless the greatest discrimination is exercised in felling only suitable trees, there will, in course of time, be a scarcity, which will send lumber up to excessive prices.



Among the reputable houses in the City of Chicago, actively engaged in the lumber trade, is that of Messrs. T. Wilce & Co., with planing mills and yard located on Twenty-second and Throop Streets. They deal extensively in Lumber, Lath and Shingles of every quality, to suit all buyers and all purposes. They make a specialty, however, of Kiln-dried, Hardwood Flooring, such as Oak, Ash, Walnut, Pine, Maple, etc., as well as Dry White Pine Flooring, Ceiling and Siding, and as their facilities are of the amplest kind, they are always in a position to meet all wants.

As the REAL ESTATE AND BUILDING JOURNAL is extensively patronized by the most prominent Architects, Builders, Contractors and Property Owners, it is with pleasure that we call their attention to this well known and reputable house, and so far as liberality and fair dealings are concerned, the name of T. Wilce & Co. is too favorably known everywhere to need any praise at our hands.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

SANITARY PLUMBING AND GAS FITTING.

The business of the plumber and gas-fitter is more intimately connected with city domestic life than almost any other business. It is highly essential that the plumbing and gas-fitting in any building should be performed in an intelligent and thorough manner, if the inmates have any regard for either comfort or health. It frequently happens that the fumes of sewergas are distributed through every apartment in a house by reason of defective pipes or badly made sinks and water-closets. Cost should not stand in the way of good work, and every part of the plumbing should be rendered as perfect and substantial as possible. Only the best materials should be used and great care exercised in making a perfect joint that does not leak or permit the spread of foul oders. A highly reputable gentleman engaged in the above line of business, is Mr. W. S. Verity No. 229 West Randolph street, Chicago. He is a practical man, who takes a pride in filling orders with the utmost promptness, leaving nothing undone in connection with his work that shall in the least reflect upon his well-earned reputation as a sanitary plumber. He can refer to some of the leading and most prominent architects, builders and house-owners in the city and vicinity, in regard to his pains-taking and reliable methods of excluding sewergas effectively from dwellings. He keeps a full line of goods and can duplicate any new or desirable improvement when the requirements of the business make it necessary. As the REAL ESTATE & BUILDING JOURNAL circulates extensively in and outside of the city, and being specially requested by our patrons time and again to point out to them the reliable houses, capable of absolutely excluding sewergas from their dwellings, we now comply most cheerfully, and recommend Mr. Verity among others as being very successful in this intricate branch of business in making dwellings proof against the fell destroyer of human life.

CROP REPORTS.

THE OHIO, INDIANA, AND KENTUCKY CROPS.

Crop reports from Ohio, Indiana, and Kentucky to the Commercial-Gazette are that the wheat is the best in quantity and quality that has been gathered in years. Corn had suffered from drought, but the rains of the past week have rescued it and the yield will be an average one. Oats are a good crop. Tobacco has suffered more from drought than anything else, and in some localities is a failure, the rain being too late. In other localities the plant is in excellent condition, but the yield will be below the average if the rainy weather continues. A good rain fell here last night.

MINNESOTA AND DAKOKTA.

Crop reports continue favorable, and the new wheat promises to be of the finest quality. The first new Minnesota wheat was ground this week at Espenschied's mill, Hastings, Minn. The wheat was tough, and required a liberal admixture of old wheat to make it grind. Rye, oats, and barley are about all harvested in Southern Minnesota, and the yield, as far as reported, is fully up to expectations.

The condition of the wheat crop in Dakota has not changed since the last report. From the latest reports it is learned that the damage by the storms in the vicinity of Tower City will reach 10,000 acres, or a total of 100,000 bushels. This will not affect the general crop, and is as but a drop in the bucket. A special from St. Vincent says the farmers of that section of the Red River Valley are now prepared to harvest their hay, which is a very fine crop. Wheat and oats are fine. Crops are far in advance of anything that has been seen for years, but will not be ready to cut for three weeks yet. Reports of crops from Rolette and Cavileer Counties, in Dakota, are very flattering. A light frost visited that locality Monday night and the night before, but as yet has done no material injury, though in some cases its effects were quite visibie, but it was not so severe as to injure wheat or oats. There is considerable rust in the wheat along the Winona & St. Peter Road in Southern Dakota, and smut is doing a great deal of damage in the vicinity of Big Stone and Millbank. With these exceptions the crop is doiug quite well. Corn is progressing rapidly, and will soon be out of the way of drouth. Early frost is the only danger to be feared.

ILLINOIS.

Farmers have had little time this week to finish hay and oats harvest—clouds or rain every day this week and most of last. Considerable grain has been injured, and more is in a fair way, since there has been little opportunity to thrash. Much of the wheat coming in is of poor quality. The prospects of a bountiful corn crop were never more encouraging.

BUILDING DEPARTMENT.

—)o(—

THE LUMBER MARKET.

Last week was reported by some dealers as the dullest of the season, and the present shows no improvement. This being the busiest season of the year among the farmers, yards which do wholly a country business, complain most of the dullness. The apathy heretofore existing is increasing, therefore, among the shippers. If the mills go on piling up lumber a further decline in prices is expected. The principal demand is now for No. 2 inch lumber. Lumber is still accumulating in the yards, and causes some concern—the stock on hand at the close of July, amounting to about 40,000,000 feet more than for the month of June. Although this is the season of stocking up it is regarded as too much of an increase.

As the JOURNAL goes to press Friday of each week it is too early to embody the revised list of prices by the Lumberman's Exchange, in the week's report. At this juncture the larger part of No. 2 inch lumber is selling at $10 to $11, and one cargo last week sold at $10.50, another at $10.75 a thousand, the lumber going into cars for shipment to the country. Flat, common, with nothing better in it, is priced at $9.50 to $10; and when there is much cull lumber, down as low as $9. The range is fully $1 less than it was in June Quotations are as follows:

Piece stuff, green	$ 8.25@ 8.50
Long timbers, green	10.00@10.50
Boards and strips, No. 2, green	9.00@11.00
" Medium, green	11.00@13.00
" No. 1, green	15.00@18.00
High grade	18.00@24.00
Shingles, standard	1.75@ 2.00
" extra	2.00@ 2.20
" clear	2.80
" cedar	1.50@ 2.00
Lath	1.50@ 1.65

Hardwood Lumber.

There has been so little activity in hardwood lumber markets that our tables might as well be stereotyped. Prices remain with no change in quotations. In this as in other lines the tendency is to weakness in prices.

The demand is still mostly for small lots to meet current necessities, and as to walnut the demand being for culls and common, with uppers showing the most firmness. Whitewood is moving slowly, and prices are uncertian—dealers offering stock to consumers at figures far below quotations. Cherry, of certain thicknesses, is scarce, two-inch being in demand, beyond the supply. A limited quantity of dry is needed in the Chicago trade, in which there has also developed, of late, a new feature, to wit: the use of fine foreign woods. An exchange devoted to the lumber interests, says:

Before a year is over the woods of the West Indies and Mexico will have a recognized place in many Chicago yards. This city has been too long dependent on the East for her supplies, and workers in fine woods have been regular customers of eastern houses; but that limited the varieties used. The standard woods, rosewood and mahogany, were the only ones that were in definite demand, and when anything else was seen here, it was by accident. For example, an importing house in the East might receive a consignment of Manilla, and might mention the fact to a Chicago concern. The latter, if it felt pretty well, might conclude to try an experiment, and order a small quantity. In that way various fine and rare woods would be seen here, but were looked upon as curiosities, more than as permanent factors in the trade, and yielded small profit to anyone. Now, however, it is likely that they will assume a permanent place in the list of available woods, and importation direct to this city will be constant. Arrangements are being made for the establishment of mills for sawing the flitches, and Chicago will, to a great extent, cease to be dependent on the eastern importers.

An exchange says that a plan recently introduced into Belgium for preserving wood from decay produced by the atmosphere, water, etc., is to fill the pores of the wood with a liquid guttapercha, which is said to effectually preserve it from moisture and the action of the sun.

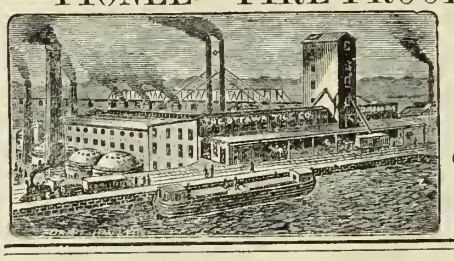
R. C. SMYERS, PROPRIETOR.

CHICAGO, SATURDAY, Aug. 2, 1884.

THE MARKET.



Considering the amount of noise of an alarming nature, made by the newspapers, the past week affords some signs of tenacity of life in real estate. Suburban and country sales certainly show some activity, as will be seen by all those who take the pains to examine the records as published in the JOURNAL. The week just closed has differed from the preceding in that more property has changed hands, but all the essential features of the land market remain the same. Attention is turning from the excitement of making nominations, and of the crash of a few business houses who do business with small capital and large cheek, to the more quiet duties of business.

Four years ago we had about the same local conditions, except as to the rate of interest charged for loans on real estate. The following extract is taken from the article on the market, in the REAL ESTATE AND BUILDING JOURNAL, dated July 3, 1880, when we were having the usual excitement about President making:

"The sales recently made have been almost entirely of minor importance, but in every instanee bona fide, with a cash payment exceeding the amount deferred. The smaller sales are, in large proportion, all cash.

Among the criteria for determining the actual condition of the land market there is no one thing that indicates it so truly and reliably as the going rates of interest. They are to-day uniformly 2 per cent. or 3 per cent. below what they were in the busy times of 1872. In December of that year about $75,000,000 was outstanding in loans made to Chicago from outsiders and by residents exclusive of banks. In the preceding year money was, as now, a drug at 8 per cent. It immediately, on the commencement of rebuilding, commanded 10 per cent. and was in active demand at that.

With inconsiderable exceptions all this money loaned was secured on real estate. Very little of it went into merchandise and manufacturing. In the past nearly the whole amount outstanding was absorbed in building, the material for which was obtained directly upon credit. The rate of interest realized on this vast amount of loaned capital averaged then 9 per cent. The very largest class of loans bringing, in isolated cases, as low as 8 per cent., and those under $10,000 never going for less than 10. Money is now borrowed readily at 8 per cent. for small loans and 7 per cent. and 6 per cent. for large loans. Now, as before, the borrowed capital is used almost entirely in building. Chicago merchants ceased years ago to borrow money to do business with. This practice is unknown here, because goods are, in mercantile phrase, 'turned over' so quickly and are sold for cash. The loans being then, wholly confined to real estate security, one can easily form a just opinion of the sales market from studying the loan movement. It is doubtful if this year a demand for property purchases sufficient to stimulate the money market to higher rates of interest, or even make it active at the present ones, will be experienced. Both in New York and Chicago there is such a large accumulation from business life of independent means that few loans are asked, and those which are, are sought for largely by men who have some building project in view from their own surplus, and merely intend enlarging it if they can obtain money at a low rate, and are independent enough to decline it if they wish."

It has always been considered that cheap money was a good thing for Chicago and the West, because of the newness of the country and the large amount of improvements required to keep up with the growing population. Instead of 8 per cent. money can now be had for 6, even on smaller loans than $10,000.

BUILDING.

Times are never so dull as to put a stop to building in Chicago. Through the six years of unusual depression it was everywhere the subject of remark that when every other enterprise seemed paralyzed building did not stop. It is, however, easily accounted for: The development of the western country in agriculture and mining and other interests will always make demands upon Chicago, its metropolis, for increasing supplies of everything known in the category of man's material wants.

Our commercial interest cannot be said to have flagged even in the worst years. It can never decrease while the West increases. Business houses in the Atlantic cities find the fibers of trade spreading over vast acres so far from them that they, to keep even a part of their custom, are compelled to open houses here. Our own merchants are selling more every year, and our business district is none too large when every lot has been covered with great buildings. So when the land market sunk to nothing, when banks were tottering to ruin, when schemes of all kinds brought small, if any return, Chicago business building kept right on, until now nearly everp spot that marks our great misfortune of '71, has reared upon it a fine large building.

BUILDING NEWS.

— Two brick dwellings are being built by O. W. Potter, on Forty-seventh street, west of Greenwood avenue.

— I. N. Ash is building an attractive house, at the corner of Forty-seventh street and Greenwood avenue.

— Work has been commenced on a $10,000 residence for N. Hurlbut, at 476 Belden avenue. Planned by H. L. Gay, architect.

— A three-story flat building is being erected for J. H. Ramsfeld, at No. 125 Townsend street. Planned by John Otter, architect

— The contracts have been let for a $6,000 residence, by architects Fromman and Gibson, for Frederick Ummack, to be built at 278 North May strect.

— The plans are now ready for an addition to the Gotfried Brewing Company's brewery, at Nos. 2231 and 2235 Stewart ave.

— Many handsome dwellings are in process of erection at Woodlawn and Kenwood.

— H. Kley has drawn plans for a four-story store and flat building, to be built at the corner of Milwaukee and Ashland avenues, for P. Schoenhofen. It will cost $52,000.

— F. Honemichel has had plans drawn by Architect Ruehl for a double, three-story dwelling, costing $16,000, to occupy lots 636 and 638 Blue Island avenue.

J. H. Stagg will build three two-story residences at Nos. 152 to 156 Leavitt street. The plans, prepared by Architect Renwold, contemplate an expenditure of $20,000.

— Ground has been broken for an extensive warehouse, to occupy the lots 117 to 123 Market street, for A. F. Froescher. The building will be 80x90 feet, six stories in height, and will cost $50,000.

— Two handsome houses will be commenced at once, at 2628 and 2630 Wabash avenue, for H. Birne, costing $95,000 each. Plans by Architect Chapman.

— The magnificent new building being erected for the L. Wolff Manufacturing Co., corner Lake and Jefferson strcets, is nearly ready for occupancy. The main offices will be removed to the corner, leaving the entire main floor of the old building to the packing and shipping department. The company has a frontage on Lake street of about 300 feet, and on Jefferson nearly 150. It gives them a big areage of space, but they needed it bad.

— The new works of the Baragwanath steam-jacket, feed-water heater and purifier will be commenced in a short time. They will be located on Division street, near Elston avenue, and adjoining the Chicago & Northwestern railway track, and will be of brick, two stories and an 11-foot basement high, and be 75x150 feet in size.

— The South Chicago Dock Company contemplate the erection of a mammoth warehouse for the accommodation of the wholesale grocery and heavy hardware trade of the city.

— The Brooks Estate has purchased 100 feet of ground at the northwest corner of Dearborn and Harrison streets, fronting on the former, and will build, at an early day, a splendid business block.

— C. M. Palmer, architect, has prepared plans for the new building projected by the Brown Brothers Manufacturing Company, at the corner of Clinton and Jackson streets. The structure will be 106x83 feet, five stories high, and cost about $30,000.

— It has been announced that the Union League Club has at last succeeded in securing a site for its club house. The lot at the southeast corner of Jackson street and Fourth avenue has been leased by C. W. Bonynge for 99 years, at $6,800 per year, without revaluation, and a building to cost $150,000 will be erected as soon as satisfactory plans are secured.

— The contracts for the erection of a $20,000 block of stores and flats for Henry Feid, have been awarded tn Gutrich Brothers. The block will be erected at the corner of Archer avenue and Butterfield street, and will be 104x89 feet.

— The Georgia capitol will cost $1,000,000.

— Water-works will be built at Port Huron, Marine City and Jordan, Mich.; Sweetwater and Franklin, Tenn.; Del Rio and San Angelo, Texas; Centerville, Md.; Pensacola, Fla.

— Jackson, Mich., will build an engine-house.

— The Republicans of Port Huron, Mich., will build a wigwam.

— New car wheel works are to be built at Birmingham, Ala.

— The Gulf Railroad Company have offered to locate their machine shops at Springfield, Mo., provided the citizens will donate $20,000. It is believed that the required amount will be subscribed.

— The Scandinavian Lutherans of Clay Banks, and the Hollanders of New Era, both of Oceana Co., Mich., are building church edifices.

— J. B. Randell, architect, 45 Montauk block, has plans for the following: Brick, eight-room school house, costing $20,000, at Sheboygan, Wis.; brick, four-room school house, costing $10,000, at Marion, Ohio; a brick addition to Oak Park school house, 47x48, four rooms, costing $10,000; a brick church at Waverly, Iowa, costing $5,000.

High Towers and Buildings.

On the above subject the Daily News has the following:

What we lack in church spires is made up in the point of tall buildings; veritable sky-scrapers have been springing up here during the past couple of years almost with mushroom rapidity. While there is no church spire in the city that rears its pointed head more than 175 feet high, there is the tower on the new board of trade building which Architect Boyington will get just 303 feet high before he, not it, will "take a tumble." That will be the highest point in town, and from it one may overlook this marvelous city of phœnix growth with ease and take in its many wonders at one single, comprehensive glance.

Next to this comes the water-works tower, 175 feet in height, and the tower on the new Michigan Southern depot, which will be 170 feet when completed. Then we have, of the other projected buildings, the Marshall Field building, with thirteen stories and 170 feet high at its most elevated point. The top of the corner tower on the new Pullman building is 165 feet high, and just that high is also the pinnacle of the Royal Insurance building, on Quincy, near Jackson street, while the Home Fire Insurance building and the Northwestern Loan and Trust company building will each be 160 feet. The Counselman building, the Montauk and the Calumet blocks are each about 145 feet high, and these are the tallest buildings so far erected in this city.

Hyde Park Improvements.

ORDINANCES—CHICAGO & LAKE CALUMET RAILWAY CO., ETC.

At the meeting of the Board on Friday, July 25, the third amendment, granting right of way to the Chicago & Lake Calumet R. R. Co., was presented for engrossment, commencing and running as follows: From a point upon the right of way of the Union Stock Yards & T. Co's. road, 350 feet west of Vincennes avenue, thence southeast across the street at Fortieth, thence to a point on Forty-sixth street, within 250 feet of St. Lawrence avenue, thence south to a point 500 feet north of Fiftieth street, crossing the same 850 feet west of Cottage Grove avenue, and thence to intersection of Cottage Grove and Fifty-first street, thence along Cottage Grove avenue to Seventy-first street.

The company is also required to macadamize Cottage Grove avenue from Sixtieth to Sixty-seventh street, outside the fence; the company shall also compensate all persons whose property is damaged, and pay all expenses incident to a settlement. It further stipulates that at least six trains per day each way shall be run over the road, each one stopping at every station, and that the rates of fare shall not exceed those of the Illinois Central Railroad Company or the Chicago, Rock Island & Pacific for similar distances. The road may be used as a passenger trunk line, all trains stopping at all stations. Also that the engines shall burn coke or use smoke consumers, and that passengers shall be landed in the city of Chicago east of the river and as far down as Harrison street.

The ordinance occasioned considerable discussion on the part of those present, but was finally engrossed by a vote of 6 yeas.

BUILDING.

Mrs. Ford will build a $15,000 residence of brick and stone, on Oakwood boulevard, after designs of Architect Edbrook.

Mr. Edbrook is about to build a neat residence for himself, on Drexel boulevard, near Forty-first street. Also on Drexel boulevard, in the same block as above and after the same architect's plans, T. C. Pennington will build a $15,000 residence, and it will be one of the handsomest of the many new improvements now being made along the upper portion of this fine driveway.

Harrison Street.

Citizens of West Harrison street, between Ogden avenue and Rockwell street, are considerably exercised over the effort on the part of the city to collect assessments for the improvement of that thoroughfare. Not that they object to paying the proportionate cost of the work, but because it seems to them apparent that the work is to be done before the street railway track of the Adams and Harrion street line is ready to be laid, thus causing them to pay the entire expense of filling the low ground, and making a complete roadway for the street-car line to place its tracks upon. They see no indication that the railway tracks are to be built as rapidly as promised, and regard it as an injustice on the part of the city to force them to make their payments now. A property-owner remarked yesterday that although the contract had been let for the grading and paving of the street, he had no

idea the work would be done within two years; yet they must pay now, and give the city the use of their money.

THE McNEIL LOT.

It wai reported some time ago that Mr. Frederick Eames was endeavoring to secure a lease of the property owned by the McNeil estate, on the south side of Jackson street, from Clark street to Pacific avenue, and had negotiated for the Everhart and McCoy leases adjoining, making a block of land 2e5 feet on Jackson street by 150 feet deep on Clark street and Pacific avenue. The object as then stated, was for the purpose of eventually erecting thereon another large office building, which was expected to elipse any that has thus far been erected or projected. An agreement for the Everhart and McCoy leases was affecled, but the lot belonging to the McNeil estate was not then secured, and up to the present time has not been transferred to Mr. Eames.

It has been said that unless Mr. Eames could secure the McNeil lot, his plans for the proposed structure would not be matured, as he was anxious to have the 215 feet frontage on Jackfon street. Negotiations have been pending with the parties in control of this property, but nothing definite has yet been affected. It was learned yesterday that testimony was being taken of prominent real estate dealers before a master in chancery for the purpose of ascertaining what would be a fair rental for the McNeil lot, with a view of presenting the matter to the court upon a petition for authority to make a lease of this property to a some one—presumably Mr. Eames—for a period of ninety-nine years. The affair has been very quietly proceeded with, and nothing could be learned other than the mere fact that the steps were being taken for the purpose mentioned. From this it appears that, although the project has been regarded as having fallen through, there is yet some prospect of the plan of Mr. Eames maturing, provided the court can be shown that it will be for the best interest of the McNeil estate to direct the leasing of the property.

Mr. Eames was called upon and asked as to the status of his scheme. He statod that nothing had been done in the matter during the last three weeks, as he felt assured that could not succeed in securing a lease of the McNeil lot, and expected the proposition would eventually be dropped. At all events it would be determined within the next three weeks. He had contemplated erecting on the ground mentioued a large office building that would be commodious, fire proof and an ornament to the city, and regretted that he had been unable to perfect the plans he had laid out at first.

Although Mr. Eames now seems to be of the opinion that he may not be successful in his undertaking, if the action of the court should be favorable when the presentation is made, it is yet among the possibilities that he may be enabled to witness a culmination of his plans, and next year proceed with the enaction of one of the largest and most ornamental in structures that has yet been projected in Chicago.

REAL ESTATE LAW.

MORTGAGOR NEED NOT PAY ATTORNEY'S FEES IN FORECLOSURE.

JAMES BENDEY AND WIFE, appellants, v AMOS TOWNSEND AND WILLIAM BRIGHAM.

Appeal from the Circuit Court of the United States for the Western District of Michigan.

The maker of a promissory note executed, to one who for his accommodation signed his name on the back of the note before its delivery to the payee, a mortgage of real estate to indemnify him against all costs and charges arising from his contract, with a power of sale in case of the mortgagor's default in paying the note. The mortgagor failing to pay the note at maturity, the mortgagee paid the amount thereof to the payee, and entered it upon his books in general account against the mortgagor, and the payee indorsed the amount as a full payment on the note, and delivered up the note to the mortgagee. The mortgagee afterward assigned to a third person the mortgage and the obligation therein mentioned: Held, that the assignee might maintain a bill in equity against the mortgagor for foreclosure and sale of the land under the mortgage, and for payment by the mortgagor persoually, of so much of the amount of the note as the proceeds of the sale. under the foreclosure, were insufficient to satisfy.

A stipulation, in a mortgage of real estate, that, in case of foreclosure, the mortgagor shall pay an attorney's or solicitor,s fee of one hundred dollars, is nnlawful and void by the law of Michigan as declared by the Supreme Court of the State, and therefore can not be enforced in the Circuit Court of the United States upon a bill in equity to foreclose a mortgage, made and payable in that State, of land therein.

DEARBORN STREET EXTENSION.

The opening of the extension of Dearborn street is not progressing as rapidly as some of the property owners on that thoroughfare desire. The special assessment for the opening and improvement of the street is being collected, but more slowly than was at first expected. It is believed, however, that this central thoroughfare will be completed sometime duriug the autumn, about the time the new and magnificent passenger depot of the Western Indiana railway is finished. Several new blocks of buildings have been projected for erection on this street, as soon as it shall have opened, and others are talked of. It is almost iu the center of business, and it is but reasonable to expect improvemeuts thereon to rise rapidly during the coming year, from Jackson street to Polk. The large office building of the Brooks estate, at the corner of Dearborn and Harrison streets, is expected to be among the first to be erected next year.

CITY COUNCIL.

JULY 21, 1884.

Ordinances were passed as follows: For sidewalk on the east side of Southport avenue, from Belden to Fullerton avenue; for sidewalk ou both sides of West Congress street, from Centre avenue to Loomis street; for sidewalk on both sides of Thirty-eighth street, from State to Butterfield street; for curbing, filling and paving in front of sundry lots on Michigan street, between North Clark street and Kingsbury tract; an ordinance repealing ordinance and annulling assessment for the improvement of Warren avenue, from Ogden avenue to Leavitt street; for curbing, grading and paving Warren avenue, from Ogden avenue to Leavitt street; for sidewalk space on south side of Illinois street, from Pine to St. Clair street; for grade at intersection of West Erie and Arnold streets. Also, permission was granted the citizens of the 7th ward, to erect a wigwam at the northeast corner of Blue Island avenue and West Fourteenth street.

Property Assessments.

Assessor Ryan of the West Town has turned over his books which show the following valuations: The total amount of personal property is $5,382,030 and the total of the real estate valuation $33,065,670. Notwithstanding the removal of the North Side Rolling to South Chicago (a loss of $140,000) and a number of lumber dealers to the same place, the valuation of personal property has increased.

The total amount of the personal property assessment on the North Side is $1,532,540 and the total real estate assessment $12,-883.560.

The books of the South Town assessor, Mr. Drake, show the following assessment: The personal property valuation is $16,048,-410, and the total of South Town real estate assessment is $43.722,130, an increase of $826,980 over the year 1883, and a decrease of $534,100 in personal property.

The assessment of railroad property in 1883 was 345,600 and this year it is $741,155 an increase on this item of $395,555.

The valuation of real and personat property made by Assessor Chase on the North Side for this year was as follows: Personal property, $1,532,540, against $1,505,790, in 1883; real estate $12.883,560, against $12,441,950, an increase of $441,610.

—The contract for paving Throop street from Madison to Harrison with cedar blocks was awarded to R. F. Conway. The cost will be $18,000, the price of the paving being $1.36 a square yard and of the curbing 75 cents per lineal foot.

The old Call Board Building was sold yesterday to the Daily News by James E Henneberry for $1,500, not including the fixtures. The price paid by Henneberry was $750.

The Sanitary Inspectors served 489 notices and abated 472 nuisances last week; and the market men condemned 200 packages of decayed fruit and 1,400 pounds of bad meat.

A. W. Herr AND Co.

Manufacturers of

Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting life, limb, and landlords from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

NATIONAL SHEET METAL ROOFING CO.

Organized under Charter granted by State of Tennessee, September 30, 1882.

SOLE MANUFACTURERS OF

WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow—which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

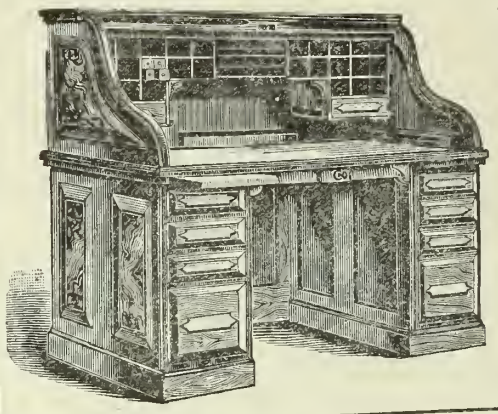
SNOW and DICKINSON,
97 Washington St.

We are offering a large list of desirable Real Estate in locations that are growing rapidly, and now paying from seven to twelve per cent net on the investment. For particulars apply to
SNOW & DICKINSON, 97 Washington St.

Lumber, Lath, Shingles, Etc.

Chicago may safely be classed as the largest lumber market in the world. Its near proximity to the vast lumber regions, its superior advantages in transportation by lake and rail, contributed to make it the best and cheapest market. and this being conceded it is natural tn suppose that all articles manufactured from wood can be sold at closer figures here than elsewhere, hence the advantages offered to all, directly or indirectly connected with the building and other kindred trades.

Among the representative houses engaged in the lumber trade in this city, the well-known firm of Nathan and Charles H. Mears take a prominent position. They are among our most extensive dealers in lumber, lath and shingles, which a glance at their extensive yards located at No. 82 Beach street, second yard south of Polk street, will con firm. With their large and well assorted stock constantly filled with fresh arrivals; they are in the best position to execute at a moment's notice, any and all orders placed in their hands at the most reasonable prices. With a firmly established reputation of supplying goods exactly as represented, of superior specification and cut into such lengths and sizes as buyers may require, with shipping facilities which cannot be surpassed, it naturally follows that their business, large as it is, is constantly growing into larger dimensions. It is a concern in every way representative, and we only regret that want space prevents a more extended notiee. We trust, however, that enough has been said to call the attention of our many readers among architects, builders, contractors and others to the many inducements offered by this model house.



Interior Decorating and Finishing.

A feature of house finishing during the past few years is the taste for artistic embellishment and elegant decoration everywhere displayed. In no department of industry does this prevailing taste find more striking expression than in the interior woodwork and finishing of our principal residences, halls, theatres, etc. It has, in fact, developed a separate industry to provide for this demand, and some of our leading establishments have devoted no small portion of their resources to this department. The well-known Messrs. Garvy & Jenkinson have especially distinguished themselves in this specialty. They are general manufacturers of doors, sash, blinds, newels, mouldings, etc., and make a leading specialty of stairwork in hardwoods, and are prepared to furnish at short notice the most elaborate designs and the most highly finished work in balusters, rails, etc., etc. Their resources include the most artistic work in carving. In fact their department of interior decoration and finish is full and complete in every particular. Many specimens of their work can be seen in Chicago and so at many places wide apart from each other and distant from their headquarters they have made for themselves a record and lasting reputation in their specialties. All their lumber is thoroughly seasoned, without which no work can be perfect. In native woods and their combinations they are one among the leading houses in the United States, both in originality, number and beauty of designs, excellence of workmanship and perfection of finish. Many of their designs are original and made to correspond with the purposes of the place decorated, whether it be a public hall, hotel, church exchange, office building or private residence. In brief, they have made a decided hit in this line of work and have so provided and perfected their resources that they stand to-day among the foremost concerns in the country as workers in wood for decorative purposes. Their office and factory are located at No. 995 999 South Paulina street, between West 22d street and Blue Island avenue Chicago, and all orders will, as usual, have their most careful and best attention.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it. knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

The famous structure of the new Board of Trade Building is pushing rapidly toward completion. The massive granite walls are about up. The wall facing LaSalle street is receiving the last blocks of granite. The largest and most important contractors of this building are the Hallowell & Bodwell Granite Co. They have discharged their immense undertaking, in supplying the granite, in such a way as to reflect great credit upon themselves. Geo. F. Bodwell, the western manager of this company, has had this contract under his special supervision, and has earned a reputation for faithfulness and reliability. This firm received the contract for furnishing the granite in the Pullman Building. They have also recently obtained the contract for furnishing the granite to be used in the Home Insurance Company's Building, which is now being erected on LaSalle and Adams streets. The celebrated Fox Island granite is used in this building, and is the same as that in the new Board of Trade Building. These buildings will stand as lasting testimonials of the superb quality of their granite, and of their faithfulness in discharging contracts received.

Though Real Estate at present ls not active, the inclinations are toward a good trade in the fall. The crops are reported as good throughout the country, and this will have an effect to make more firm the money market. Real Estate is one of the most safe and paying investments at the present time. Among those who are offering good investments in Real Estate is E. D. Coxe, with office at 84 Washington street. Mr. Coxe has formerly engaged in the abstract business for some years—under the firm name of Haddock, Coxe & Co.—and is reliable in all his transactions. Parties looking for investments will receive information in regard to several bargains which will net a good per cent. on money invested, by addressing E. D. Coxe, 84 Washington street.

Mary and Charles Rohe complained that in August, 1883, on the representation of William F. Higgie that he owned a piece of land on California and Ogden avenues and Fifteenth street, they bought it of him for $5,000, paying $500 down and giving notes for the rest. They have since learned that the city claims title to a strip forty feet wide off the entire Ogden avenue frontage of 160 feet, and if this is taken away from them it will damage their property over half. Higgie denies the city has any title, and has promised to protect complainants against any loss or damage. They are afraid, however, that he will transfer the notes and then forget to keep his promise, and filed a bill Saturday to prevent him assigning or attempting to collect the notes until the question of title is decided.

BUILDING DEPARTMENT.

——)o(——

BUILDING MATERIALS.

As will be seen by the table prices have been reduced on articles most in use. Meacham & Wright, dealers in lime cement, etc., at 89 Market street, report the following prices:

Lime in bulk 65 cents; in barrels $1; cement in bulk $1; in barrels $1.25; Portland cement $3.25@3.50; hair 25c; Michigan plaster $1.75; New York plaster same; sand $1.25. Mr. Henry Martin of 69 Market street, reports prices as follows: Michigan and Iowa stucco $1.65; New York stucco $1.75; Akron Milwaukee and Louisville cement $1.25; Portland imported $3.25@3.50; white sand $1; plastering hair 20c; marble dust $2. Consumers must bear in mind that one or two barrels cannot be sold as cheaply as wagon and car load lots. The above quotations are the lowest we have heard of. The table has been corrected to correspond with latest reports. Hinchliff & Owen room 10 159 LaSalle street quote common brick from $6 to $7, and Indiana pressed brick $16 to $28, and further sayeth not. Mr. J. J. Lockwood offices No. 199 Lake street, quotes St. Louis pressed $30; St. Louis selected, red, $25; Trenton, N. J., pressed $40; Baltimore pressed $55; Milwaukee pressed $25; Philadelphia $42@45; Philadelphia enameled $90@125, All delivered at buildings in Chicago at this date.

THE LUMBER MARKET.

The prices of lumber must remain as reported for July. The monthly priee list meeting—all there was of it— met July 26. The chairman announced that under the present condition of trade it would not be advisable to make any changes in the lists, or even issue a reprint of the July schedule. In his speech the chairman said that the lumber business at the present was like the craft described by the poet, "A painted ship upon a painted ocean,"—a lifeless hulk. On motion of Mr. Hutt, to do nothing, which was carried, the whole matter was deferred till next month

As was predicted over two months ago shipments of lumber to the country are increasing, which has already had the effect to improve the volume of business. There is a large amount of lumber on hand at the yards as a result of the continuous and heavy receipts during June and July, but the supply will, e'er long, be worked off. Agents who are selling to the country trade are making prices low in order to secure trade, and the cut sometimes goes below the "one-dollar-less" mark. Yards doing a city trade have had no cause to complain, because the building activity in Chicago and suburbs is consuming a large amount of lumber. Some dealers claim to be doing as much, fully, as they did last year at this time. The majority of houses being built in Cook county are of the smaller or residence class, and consume more lumber in proportion than heavy store or office buildings. The receipts of lumber, shingles, etc., for the week ending July 31, were as follows: Lumber, 61,118,000 feet; shingles, 18,475.000; and for the six months ending July 31: Lumber, 897,772,000; shingles, 451,503,000, showing an increase of 66,104,000 feet in lumbet and a decrease of 112,664,000 shingles.

Quotations at the docks are as follows:

Piece stuff, green	$8 .25@ 8.75
Long timbers, green	10.00@10.50
Boards and strips, No. 2, green	9.00@11.00
" Medium, green	11.00@13.00
" No. 1, green	15.00@18.00
High grade	18.00@24.00
Shingles. standard	1.60@ 1.75
" extra	1.80@ 2.00
" clear	2.80
" cedar	1.50@ 2.00
Lath	1.25@ 1.40

For retail prices see price list on Page 15.

Mr. E. S. Hotchkiss, secretary of the Lumber Manufacturers Association of the Northwest, has issued a circular, calling a meeting of the association, to be held at the Grand Pacific Hotel, this city, August 20, at 10 o'clock A. M. Every lumber manufacturer in the Northwest is invited to attend and participate in the discussion of the questions that will be presented. The question of shutting down the mills early in the season will be the main one considered.

A GERMAN paper says that a roof can be made fireproof by covering it with a mixture of lime, salt, and wood ashes, adding a little lampblack to give it a dark color. This not only guards against fire, it is claimed, but also in a measure prevents decay.

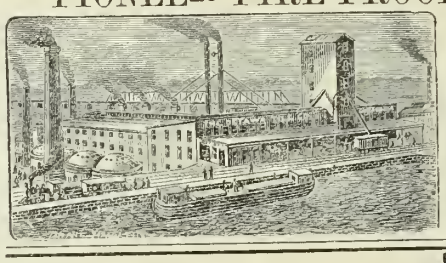
CHICAGO, SATURDAY, Aug. ,9 1884.

THE MARKET.

Last week there were 163 sales within the city limits, amounting to $902,250, and 146 sales, amounting to $403,927, in the suburbs, making a total of 309 sales, amounting to $1.306,177; but two of the sales recorded in our columns last week, in the vicinity of Adams street and Wabash avenue, amount to $380.000. An unusually large number of sales took place last week in Hyde Park—there being far more south of the seven-mile radius than were recorded for the belt outside of the city limits and within a point seven miles from the Court House. The week just closed has been, if anything, more quiet; fewer sales have been made, and noue for more than $30,000, and but few over $10,000.

In spite of numerous business failures and other disturbing causes the price of Chicago realty has not been shaken in the least. As, for instance, 20x124 feet, west of Robey street, on Washington Boulevard, sold for $4,000, or $200 per foot; and property on Warren avenue, near corner of Leavitt street, for $125 per foot; on Belmont avenue, north of city limits, northwest corner of Southport avenue, 10 acres were recently sold for $30,000, and 3¾ acres in N. W. ¼, 14 37 14, for $5000. The price of land cannot advance any faster than improvements are made. Certain localites are kept back on account of having no handy conveyance to the city, and the horse cars are too slow to meet the requirements of business men and clerks engaged in the central portion of the city. We excel in the number and grandeur of our houses, but we are badly behind in street and road improvements, and but few of our streets are in good condition. If less money was spent upon fine houses and more, in the shape of taxes, for street improvements, we would have a city more inviting to strangers. Broadway, New York, is to have a horse-railway, the Board of Aldermen refusing to take $1,000,000 or any sum for the franchise. The aldermen were in favor of disposing of the question at once, and granted the privilege for nothing. Our Chicago board would have taken all the money the corporation had to spare, or fought over the right of way indefinitely. It is plain to see that localities having paved streets and good sidewalks are more thickly settled and houses are better rented than is the case in neighborhoods where these improvements are wanting. There are, however, fewer vacant houses and stores than there were a month ago, and it is confidently predicted by the JOURNAL that the middle of September will find all, or nearly all, of the houses in Chicago, occupied Trade in real estate will be light until the real estate agent and the capitalist return from their vacation.



FROM EVERY PART OF THE WEST

and Northwest encouraging news are received in regard to crops. The starting point of so many failures and so much distrust among speculators, originated in the fall and decline in railroad stocks in Wall street, New York. Now, everything is going upward on the strength of fine crop prospects.

THE PRESIDENTIAL CONTEST

will undoubtenly interfere with investments temporarily, but the regular business of the country will go on as usual. Those who have money and are afraid to invest it in realty will soon find their mistake, as every foot of land in the West is becoming dearer every year.

REAL ESTATE LAW.

TRUST DEED — POWER OF SALE — BANKRUPTCY OF GRANTOR—SALE—REDEMPTION.—The opinion of the United States Circuit Court for the Northern District of Illinois, by BLODGETT, J., holding that a sale made under a power of sale in a trust deed, after the grantor has been adjudicated a bankrupt and before the appointment of an assignee, is voidable, either on the application of the assignee or those claiming under him, unless it is made by order of the court. We regard this as an important opinion.

EXCURSION TICKET—CONTINUOUS PASSAGE—PUTTING OFF TRAIN.—The opinion of the Maryland Court of Appeals, by BRYAN, J., holding that where the plaintiff bought an excursion ticket at a reduced rate, good for a limited time only, and attempted to return on it after the time had expired, and was put off the train, that since the ticket was bought at a reduced rate and accepted and used, the purchaser was bound by the stipulations on its face, and that when once excluded from the car he had no right to be readmitted without paying the whole fare from the starting point.

JURISDICTION—INJUNCTION—LAND IN FOREIGN STATE.—The opinion of the Kentucky Court of Appeals, by PRYOR, J., where a person in Kentucky owning land in Illinois sold it but gave a deed with such a defective acknowledgement it could not be recorded, holding that a court in Kentucky had jurisdiction to enjoin the grantor from selling it to a third party.

West Side Property.

The property in the western part of the city has advanced steadily for several years, and is now demanding prices which compare well with those on the other sides of the river. The improvements have been such as to enhance the value of adjoining property. Take, for example, the fine hotel built on the corner of Canal and Madison streets. The strong demand for this property on the part of those who are looking for good investments, has led some to deal in this property almost exclusively. Among these is the firm of Kenny & Hartigan, with office at the southeast corner of Madison and Union streets. They have had a large experience in this property and can furnish any information desired, with reference to val

An Aged Land Claim.

A bill was filed in the Circuit Court during the past week by Geo. W. Stow against his brother, Wm. W. Stow, a patent-right man, and Jane R. Stow, Wm. Linton, W. C. Goudy, Monroe & Leddy, and Treat Campbell, to get possession of some land valued at $40,000. He represents that since 1859 he has been the owner of Lot 2 Block 44, in the original town of Chicago. Prior to 1863 his only claim was under tax title, but in February, 1863, a patent from the government was issued to him by his brother, W. H, Stow, of which he had no knowledge until within the last year. In 1866 Wm. Linton recovered a judgment for $209 against complainant, under which the above lot was seized and sold to Buckner S. Morris. In December, 1869. W. H. Stow, Jr. recovered a judgment by confession, against complainant. and as judgment creditor redeemed from the sale to Morris, and then sold the lot again and bid it in himself. Since then, at Mrs. Stow's request, and on representation by her and her husband that he only had a tax title to the property above described, complainant has given her a quit-claim deed, not knowing he owned the property in fee. Complainant now charges that both the judgments above mentioned are fraudulent, that he never owed either plaintiff anything, and that his brother, sister in-law, and nephew have been guilty of fraud, perjury, forgery, and false representations, and have conspired together to swindle him out of his property by keeping him ignorant of his title, and by procuring a sale of the land under fraudulent judgments. Mrs. Stow has been in possession of the property, which is now worth $40.000, since 1859, and has encumbered it to the extent of $10,000, Complainant claims she ought to account for the profits of the property ever since she has had it, and he asks that the two judgment sales and the quit-claim deeds made by him may be all set aside, and his absolute title to the property established.

A. S. Maltman & Co., with office at No. 97 Dearborn street, are doing a general Real Estate business, buying and selling property, negotiating loans, managing estates, etc. Mr. Maltman has had many years' experience in Chicago property. He is capable of transacting all business given to him in a satisfactory manner. This firm is also negotiating in stocks and bonds on the Chicago Stock Exchange. Investors will find it to their interest to call on them.

Wires Underground.

Owners of real estate in the business part of the city and agents who represent large interests express themselves as very much gratified at the prospect of having telegraph and telephone wires laid underground. While they recognize the incalculable advantages of electricity, and are not disposed to throw any obstacles in the way of its use, they will be pleased to see the wires and poles removed if as good facilities can be afforded by the underground system. In the business portion of the city there is scarcely a house-top that is not made the anchorage for hundreds of wires. Recently the business men have been discussing the question of a fixed rental for the use of the roofs for such purposes, and some of them have inclined to the opinion that the wires should be removed from all roofs as well as from the poles that line the busy thoroughfares of the city. However, they recognize the fact that even with an underground system it will be difficult to conveniently reach all points without the use of the roofs to a certain extent. But, when an underground system shall have been perfected, they anticipate a removal of a large number of the wires that are strung in every direction over the roofs, and on the question of a fixed rental for the use of the house-tops will defer action for the present.

The proposition of the Mutual Union Telegraph Company to lay its wires from the corner of Washsngton and La Salle streets to the city limits on the south. is but the entering wedge to the final determination of the question. If it shall be found that these wires work successfully it may be expected that but little time will be permitted to elapse until all the wires will be placed under the ground.

BUILDING NEWS.

—Five buildings have been commenced recently at Hegewisch; the works of the United States Rolling Stock Company are advancing rapidly, and the town has been made a postoffice.

—A substantial double store and flat building is being erected on North State street, near Illinois.

—J. H. Ackerman has prepared plans for a store and dwelling to be erected at 129 Townsend street, for John Hart. Will cost $10,000.

—J. G. Shortall is building a $15,000 residence at 1608 Prairie avenue. Plans by architects Burnhom & Root.

—J. H. Smith will build a $11,000 residence at 43 Lincoln place. Plans for which have been drawn by C. C. Smith.

—L. G, Hallberg is putting up a $15,000 residence at 3242 Indiana avenue.

—A new jail will be built at Danville. Va.

—Many new buildings are being erected at Ypsilanti, Mich.

—Ionia, Mich. is building a court-house.

—Proposals are being received for a court-house at Crossville, Tenn.

—H. M. Stewart, Chestertown, Md., will build a $13,000 jail in Kent county, Md.

—The City Council, Fort Worth, Texas, will build two school-houses, costing $11,000.

—The Baptist church of Ithica, Mich., has broken ground for a $6,000 house of worship.

—The Baltimore & Ohio railroad will build a round-house and repair shops at Harrisonburg, Pa.

—Laphan and Longstreet are erecting a new planing mill in Lansing, Mich.

—A new roller flouring mill is to be built at Plankinton, Dak.

—The Knoxville, Tenn., Woolen Mill Co. have commenced the foundation of their new works.

—The corner-stone of the new English Chngregational Church at Youngstown, O., was laid the 23d of July.

—The court-house committee at Accomack county, West Va., invite bids for building a new court-house.

—Carter & Cross will build a planing mill, sash. door, blind and general wooden ware factory at Tavares, Fla.

—Plans are drawn for the postofflce of Detroit, Mich., but cannot be used until a much larger appropriation is made.

—Work has begun on the foundation of the cotton seed oil mill at Newnan, Ga., to be erected by R. D. Cole & Co.

—Watertown, Wis., is to have a new city hall at a cost of $17,675.

—Architect W. W. Boyington has made plans for a fine block of stores and dwellings to be erected for Thomas Moran at the corner of Michigan avenue and Thirty-first street. There will be eight stores on Michigan avenue and sixteen flats above, all finished in first-class style. The store fronts will be of iron and plate glass, and the upper stories of pressed brick, The block will cost between $50,000 and $60,000.

—Architects Bauer & Hill have planned a $20,000 block of dwellings at Nos. 439 to 443 LaSalle avenue for H Stoelker.

—Architect Kley has made plans for a 3-story store and dwelling for T. E. Larson at No, 1058 Milwaukee avenue to cost $8.500.

—Architect Baumann has made drawings for a three-story flat building on Maple street for E. Burkhardt, to cost $17,000.

—Fifty more houses are to be built in Fernwood this season. Persons are now negotiating for the building of two factories in the place which will employ about sixty or seyenty hands.

—The foundation for the Brown Brothers Manufacturing Company's new factory is being laid.

CITY COUNCIL.

JULY 28, 1884.

Ordinances were passed as follows: The clerk presented a report and ordinance for sidewalk on south side of West Fifteenth street, from Warren avenue to Washtenaw; (we think the sidewalk will never be put down as Washtenaw avenue is at right angles with both Warren avenue and Fifteenth street;) same on west side of Washtenaw avenne, from West Twelfth street to Ogden avenue; same on both sides of West Polk street, from Halsted street to Centre avenue; same on both sides of Banks street, from North State street to Lake Shore Drive; same on both sides of A street, from Southport avenue to Dominick street; same on both sides of B street, from Southport avenue to Dominick street; same on Burling street, from North avenue to Belden; same on both sides of Wieland street, from Schiller street to North avenue; same on both sides of McGlashen street, from Twenty-second street to Archer avenue; same on both sides of Lincoln street, from Milwaukee avenue to Ellen street; same, establishing sidewalk space on Campbell Park, from Leavitt street to Oakley avenue; also same, changing names of Evergreen and Woodbine place to Campbell Park.

Hyde Park Improvements.

An ordinance was passed for water pipe in Ontario avenue from Eighty-ninth street; an ordinance for sidewalk on west side of Prairie avenue from Forty-sixth to Forty-seventh street: an ordinance giving consent to the Board of South Park Commissioners to take regulate, control, and improve Michigan avenue from the center line of Thirty-ninth street to the north line of Fifty-fifth street, pursuant to the act of the General Assembly, passed April 9, A. D., 1879; an ordinance concerning the Chicago and Lake Calumet Railway Company.

SIDEWALKS ORDERED BUILT.

East side of Exchange avenue, from Ninetieth street to Ninety-second street; north side of Ninety-third street, and north side of Exchange avenue; from Marquette avenue to South Chicago avenue; east side of Drexel avenue, from Seventy-fifth street to Seventy-sixth street; east side of Woodlawn avenue, from Sixty-second street to Sixty-seventh street.

Success in Cottage Building.

More than a year ago a description of the

DIXON & PETERSON,
(Successors to C. G. Dixon & Co.)
Manufacturers of
CARPENTERS' MOULDINGS,
Also Brackets, Balusters, Newels Etc.,
13 AND 15 NORTH CANAL STREET,
CHICACO, ILL.

subdivisions made and handled by S. E. Gross & Co. was given in the REAL ESTATE AND BUILDING JOURNAL. Their chain of subdivisions then extended in around the city, commencing in Lake View, at the corner of Diversey street and Lincoln avenue and extending to a point near the corner of Thirty-sixth street and Ashland avenue.

About one year ago these enterprising subdividers found their business increasing so rapidly that they were compelled to take a much larger office in a more central location. Since their removal from 69 Dearborn street to the northwest corner of Madison and Clark streets, where they occupy all of the main floor for their office, their success has been phenominal. Mr. S. E. Gross, the prime mover in this great work of improving the city and supplying houses on favorable terms to people of moderate means, says: "We have built and sold. during the last four years, over 500 cottages, many of them to members of building societies, and we are proud to say all buyers recommend us highly to-day. The materials used in our cottages are selected with care and bought in large quantities for cash, to enable us to sell a well built house for a good deal less than a single house could have been built for."

Near Humbolt Park, on Division street, they have just finished a number of elegant brick cottages, built of the very best materials, with pressed brick fronts, stained glass windows, double floors, each house containing six large rooms, pantries and closets They send a man from their office with the customer, to show him the cottages, which are reached by taking the Chicago avenue street cars to Leavitt street, and then going three blocks northwest.

They also have a number of fine cottages, just finished, on Monroe street, Sacramento avenue, and Colorado avenue. The houses are sold as fast as they are finished. These cottages, as well as hundreds of others built by the same firm, can be distinctly seen from the entrance to Garfield Park, at the terminus of Washington Boulevard. Their cottages, with lot 24x125 feet, are sold from $1500 to $2200 each, with a perfecs title, and guaranteed; on monthly payments or at a discount for cash. Want of space in this issue renders it necessary to continue this description in a future number of the JOURNAL.

PLUMBING AND GAS FITTING.

The importance of any branch of trade is regulated by the influence it produces upon the whole community. The more beneficial to health and the greater the amount of time and knowledge required to become proficient in it, the more it is enhanced. Reasoning upon this hypothesis, we venture a few remarks upon the art of plumbing, etc., in a large city, where so much knowledge is required to project and keep in order the millions of pipes of every kind of metal for the different usages. The effect of heat and cold must be brought to bear, contraction and expansion, corrosion from acids; the force of gases and liquids, the proper size of the pipes, etc., their ramifications, and their bearing upon each other. Another great consideration is the perfect-fitting of joints to prevent escape of gases and above all, the proper distribution of the most approved sewer traps. It will be readily perceived that the knowledge possessed by a plumber who can master all these requirements, must be by no means slight or superficial, and therefore it is necessary to exercise great caution in selecting those who have these qualities from experience and years of study. Few of our readers are aware that it requires an apprenticeship of many years to become perfect in the art. In this connection we hope to receive the thanks of our many readers and patrons among architects, builders, contractors, real estate owners, capitaltsts, and others for laying before them the claims of Mr. John Blake, plumber, gas fitter, etc., No. 1348 South State street Chicago, to their patronage. He has an experience of many years and is enabled to meet all the exigencies which are so often occurring. We are told that some houses, after being built only a year or two, have to be entirely re-constructed in the plumbing, while others requires no repairs in twenty years. The subjects of diptheria, malaria putrid fever, Asiatic cholera and the like has been discussed so much lately, and imperfect plumbing and sewerage, being, in so many cases, the direct cause, will be an apology for this lengthy article, and for the recommendation of a person who can remedy the defects. His references are of the highest order. He thoroughly and effectively exterminates sewer gas from dwellings, and does all work prpmptly at reasonable rates, and what is more, guarantees it to be perfect, which his numerous references corroborate in every instance.

Chicago a Resort for Young Men of Gall.

Hundreds of times the Chicago papers have recorded the exploits of spoiled young men who have no professsion and have learned to be mean in outside smaller towns and cities, who come to Chicago for the purpose of doing the city or beating somebody. A short time ago a young man from the southern part of the State came to this city with a theatrical troupe, and on account of his lack of usefulness was dismissed by the manager. He then undertook the job of imposing upon the REAL ESTATE AND BUILDING JOURNAL by giving references, who would not recommend him, and insisting upon going to work on trial. The fellow asked permission, at a late hour, to use pen, ink and paper, sat down near some valuable steel engravings, and at the first opportunity, left the room, in possession of gold pen and holder and steel engravings.

Very shortly after the fellow left, the printers could not find the pen nor the pictures. The fellow tried to sell the pictures in Chicago, and all the evidence necessary to convict the young rascal is obtainable.

Reports from Galesburg and Maquon make his case worse. Some of his friends, or alleged lawyers, ask for a retraction of our article, published in the JOURNAL, concerning the theft. This is not the first time that thieves have come to Chicago to do a little dirty work, thinking it would not be noticed. The JOURNAL does not happen to circulate where the young man lives, but a copy was sent for by a man who was imposed upon by the same fellow.

As soon as the fellow puts in an appearance we will procure his arrest. It was feared that the fellow had given an assumed name, and until we get evidence to prove the name identical with the thief we will suppress the former.

CHICAGO REAL ESTATE BOARD.

At the regular meeting on last Wednesday the Board adjourned, to meet the first Wednesday in September. At the last meeting the

REPORT OF COMMITTEE ON REVENUE REFORM

was made, and read as follows:

TO THE CHICAGO REAL ESTATE BOARD:

Gentlemen:—Your Committee on Revenue Reform have carefully considered the matter committed to them, and beg leave to report that in their opinion the following changes would be desirable in the present Revenue law.

1st. The substitution in each county, for the present system of Independent Town Assessors, Town Boards of Review, County Board of Equalization, and that portion of the county clerk's duties, pertaining to assessment matter, of a Board of Assessors, consisting of three or more persons, with power to appoint deputies needed, who shall have full charge of the assessment of property within their respective counties.

2nd. The day of listing to be changed so that more time shall be allowed for making the assessment, and so that the taxes of the year may be collected within the current year.

3rd. Sworn returns to be made for personal property, and by corporations, such property to be listed by the assessors, at same rate as real estate, sufficient penalties to be attached for failure to make, or for false return.

4th. Your committee would recommend that the Special Assessment law be changed, so that no special assessment can be levied unless the improvement to be paid for has been petitioned for by a majority in amount of the owners to be taxed for same.

Your committee believe that all persons or property receiviug the protection of the State, should contribute toward its support in proportion to their or its ability, that many now pay much less than their fair share, thus increasing the burden of others.

This committee are advised that under the present constitution it is doubtful if a law can be framed, that would be sustained, and fairly adjust the amount of taxation, according to the ability to pay, and they would suggest that a petition be presented to the Legislature, asking for the appointment of a commission, consisting of members of both Houses, and private citizens, who, from special knowledge, ability and integrity, are fitted to serve upon such a Board, for the purpose of reviewing and and revising the whole matter of revenue.

All of which is respectfully submitted, and your committee would ask to be discharged.

E. A. CUMMINGS,
C. C. CHASE,
JOSIAH L. LOMBARD.

A. W. Herr AND Co.

Manufacturers of
Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

NATIONAL SHEET METAL ROOFING CO.
Organized under Charter granted by State of Tennessee, September 30, 1882.
SOLE MANUFACTURERS OF
WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow—which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

The Gross Cottages and Subdivions

From the report made of the last 4 years work by S. E. Gross & Co. we publish the following as much to encourage other similar enterprises as a matter of news. Adopting the description used by the firm we will say that

BRICK COTTAGE NO. 1

embraces five new and elegant designs located on Gross Park way and Thomas st. near Western ave. and Division st. Boulevard three blocks east of Humboldt Park.

These houses have pressed brick fronts and terra-cotta trimmings. Each contains six rooms, pantry, closet, etc.; windows are finished with stained cathedral glass, inside and outside blinds, double front door, double floors, lake-water, sidewalk, &c. Terms $2,000, small cash payment and balance in monthly payments of $20.

BRICK COTTAGE NO. 2.

These cottages are located on Monroe st., Sacramento and Colorado ave., one block from Madison st. cars and three blocks from Pan Handle R. R's Madison st. station. Each house contains six rooms, vestibule, three closets, pantry and 7-foot basement. Fronts tuck-pointed, stone-window caps, double front doors, outside and inside blinds, windows trimmed with cathedral stained glass, double floors, lake-water, sewer, water-closet, sidewalks, &c. Terms $1,900 and 2,000, small cash payment and balance in mothly payments of $20 each.

BRICK COTTAGE NO. 3.

These are situated on Monroe st., Sacramento and Colorado aves. one block from Madison st. cars and five blocks east of Garfield Park. Built in different designs, these dwellings also contain six rooms, vestibule, three closets, pantry, and 7-foot basement; fronts tuck-pointed, double front doors, folding doors between P. & S. R., outside and inside blinds; windows trimmed with cathedral stained glass, stone window caps, double doors, lake-water, sewer, water-closet, sidewalks, etc. Terms $2,100 and $2,200, small cash payment and balance $20 a month.

BRICK COTTAGE NO. 4,

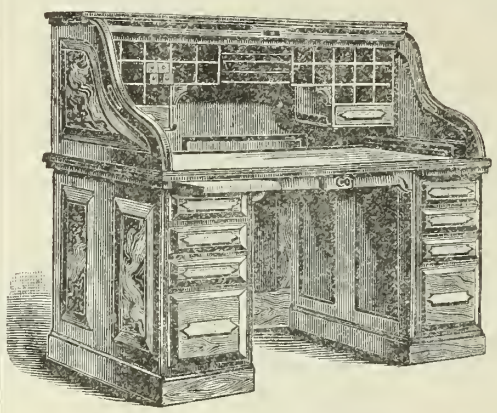
comprises five new designs. Located on Gross Parkway, near Humboldt Park. Have pressed brick fronts and terra cotta trimmings. Each house contains six rooms, pantry, closets, etc. Windows trimmed with stained cathedral glass, inside and outside blinds, double front doors, folding doors between parlor and sitting-room, mantel in front parlor, double floors, lake water, sidewalks, etc. Terms $2100 small cash payment, balance $20 monthly.

BRICK COTTAGE NO. 5,

on Gross Parkway, Thomas St. and Fairfield Ave., near Western Ave. and Division St. These are built in three different styles. Each house contains six rooms, three closets, pantry, seven-foot basement, fronts tuck-pointed, double front doors, folding doors between "P" and "S-R", double floors, lake water, sidewalk, etc. Terms $1500, $1650, $1700, $1800—small cash payment and balance $15 a month.

BRICK COTTAGE NO. 6.

Twenty-six of these elegant cottages have been erected on Albany Ave., one-half block from Madison St. cars. They are built in different designs, containing six and seven rooms, closets, pantry and seven-foot basement. Each has a verandah and front trimmed with ornamental tiles, double front doors, inside and outside blinds, sliding doors between "P" and "S-R", "P" and "S-R" finished in cherry, windows trimmed with stained glass, mantel in parlor, ornamental center-pieces in parlor and sitting-room, double floors, all windows hung with weights, water in first floor and basement, sewer, water-closet, sidewalks and tight board fences. Terms—$2500 and $2600, small cash payment, balance $25 a month.



FRAME COTTAGE NO. 1

comprises five new designs. Situated on Melrose St., one block from corner of Lincoln and Belmont Aves. Terms—$1800, small cash payment, balance monthly payments of $20 each.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

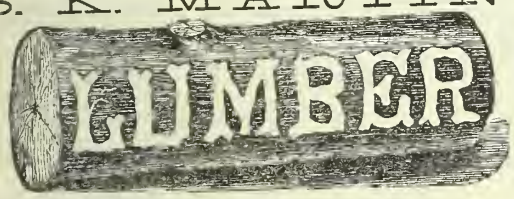
Sycamore as an Interior Finish.

The use of hardwoods in the interior of houses is becoming more pronounced every day. The better class of dwellings would be incomplete without them, and their value is greatly increased by the use of the finer woods, their brilliant polish and the excellence of their figure and color being highly prized by those in search of a house which they intend to make their home. Among the various hardwoods, Sycamore is now beginning to take its place as an interior decoration. This wood is often referred to in Scripture, and was largely used in building the Jewish Temple by King Solomon, and by the ancient Greeks in their palaces and temples. It subsequently fell into disuse, probably on account of its mode of manufacture being among the lost arts. The Sycamore is noticeable for its variegated figure and soft harmonious blending of colors, sawed-quartered in such a way as to show the medular ray, and the wavy interlaced figure so greatly admired in the once famed but now extinct San Domingo mahogany. The wood sawed in the ordinary manner through the log does not possess any of those singular marks of beauty, but when prepared by first quartering the log and sawing always directly towards the heart, it develops those distinguishing features which make it unsurpassed by the finest hardwoods extant, requiring but the finishing touches of the mechanic to fit it for the adornment of the handsomest residences.



Hyde Park Assessment.

—The assessment for Hyde Park has been completed, and is as follows: Real estate, $6,275,978; personal property, $617,050; total, $6,893,028. The assessment for 1883 was: Real estate, $6,406,718; personal property, $441,655; total, $6,848,645. The decrease on real estate assessment is $130,740; increase on personal property, $175,405; net increase, $44,655.

We are pained to announce the death of Alexander Wolcott, the veteran surveyor of Cook County, who died on Monday night last of paralysis of the spine, at his sons residence 3006 Indiana ave. He has been the official surveyor of Cook County for a period of thirty years, and has been engaged in civil engineering fourty years. His death is mourned by a large circle of acquaintances.

BUILDING DEPARTMENT.

——)o(——

BUILDING MATERIALS.

The work of building goes bravely on in Chicago and throughout the larger cities in the west and northwest. Prices remain substantially the same as reported last week. The following quotations will be found reliable.

Lime in bulk 65 cents; in barrels $1; cement in bulk $1; in barrels $1.25; Portland cement $3.25@3.50; hair 25c; Michigan plaster $1.75; New York plaster same; sand $1.25. Mr. Henry Martin of 69 Market street, reports prices as follows: Michigan and Iowa stucco $1.65; New York stucco $1.75; Akron Milwaukee and Louisville cement $1.25; Portland imported $3.25@3.50; white sand $1; plastering hair 20c; marble dust $2. Consumers must bear in mind that one or two barrels cannot be sold as cheaply as wagon and car load lots. The above quotations are the lowest we have heard of. The table has been corrected to correspond with latest reports. Hinchliff & Owen room 10 159 La-Salle street quote common brick from $6 to $7, and Indiana pressed brick $16 to $28, and further sayeth not. Mr. J. J. Lockwood offices No. 199 Lake street, quotes St. Louis pressed $30; St. Louis selected. red, $25; Trenton, N. J., pressed $40; Baltimore pressed $55; Milwaukee pressed $25; Philadelphia $42@45; Philadelphia cnameled $90@125, All delivered at buildings in Chicago at this date.

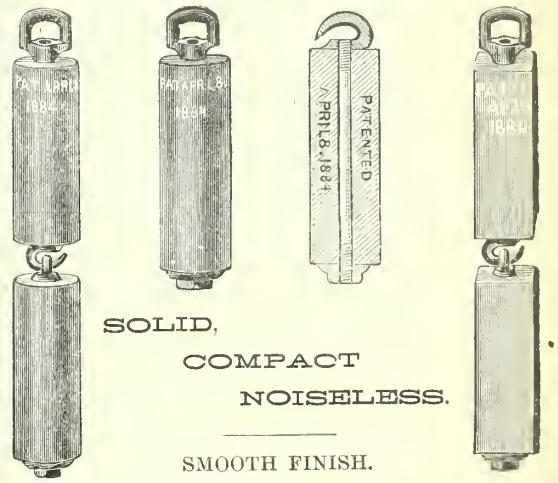
DECEITFUL BUILDERS.

Among all the trades and professions representive of American industry there is perhaps not one but where there is more or less deceit or fraud of some kind practiced to enrich the perpetrator. The chief aim of many of them seems to be to ascertain some plan for ringing in a bill of extras, or for evading the true intent of the contract by furnishing a different and poorer material than that stipulated in the specifications. It is a very difficult thing for a "green hand" at building to make a contract with a builder which will hold water. There is such a chance for ambiguity, and for concealments and for ommissions. There seems to be no way of avoiding this trouble unless one goes to a skilled and honest architect and places the matter wholly in his charge. Even then disputes and litigations frequently arise.



There is room for radical reformation in the building trades. The cause of much of the dishonesty in these trades arises from the unscrupulous competitionwhicht here prevails. Bidders offer to take jobs at a loss, hoping to make up by scrimping and by obtaining payment for a liberal amount of "extras." It is difficult to point out a remedy for this evil. If one can find a builder who is known to be honest, it would be better to patronize him, even if his bid is a trifle higher than that of his competitors. Underbidding is the bane of the building trades. Cheap contracts generally mean cheap and deceitful work, and unsatisfactory results all around. It is pretty safe to say that no builder calculates to loose money on a job, and many of the gentlemen of the craft will get out from too low a bid by means which will not bear the light of day.

All contractors for erecting buildings, as has been said, are not thus dishonest. Some, even, will go on to the end and faithfully perform their engagements when they will loose by so doing. Such men should be rewarded by good patronage, but unfortunally they do not always grow rich. The doctrine of the "suvival of the fittest." we are sorry to say, does not always prove true in their case. North-Western Improvement Record.

During the ten years between 1872 and 1881, the sum of $130,800,000, was spent in Paris for public works, $79,600,000 for new works,and the remainder for repairs and maintenance. The total length of the streets, opened or widened since 1872 is about sixteen miles.

Real Estate and Building Journal

R. C. SMYERS, PROPRIETOR.

CHICAGO, SATURDAY, Aug. 16, 1884.

THE MARKET.

One of the chief difficulties in the way of gathering a report of the real estate market is the absence of agents from their offices.

The change in the weather during the fore part of the week, from cold to 80 degrees above, has produced a leathargy, if nothing more.

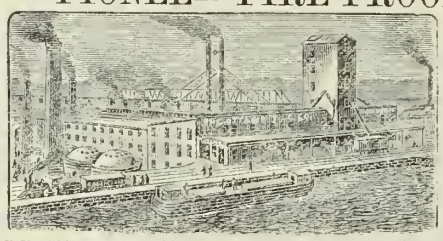
The week closes quiet for the real estate agent, but architects and builders are as busy as usual. In a broker's office, on Washington street, we learn of a positive inquiry for business property in the vicinity of Canal street, the would-be investor being desirous of making the purchase simply as a holding, and not for improvement. The same party does not buy in the central portion of the city, east of the river, for two reasons, to wit: Land is too high and too scarce—nobody has any to sell. Some of the best business property in Chicago has risen in value from 100 to 200 per cent., since four and five years ago. Those who could see a good thing then, and take it, are bosses of the situation now. "If our foresight, etc., etc.,"—but no matter, we are still progressing. By-and-by, we will have a remedy for the bridge nuisance, and then look out for a boom across the river.

A RISE IN PROPERTY ADJACENT TO PARKS

is sure to take place in the near future. A better arranged system of parks and boulevards cannot be found in the world than is already laid out on the three sides of Chicago. People of means need not wait for street car facilities, because the distance is easily overcome by the use of horses and carriages, and the smallest kind of a business man can afford to keep a horse and buggy, if for no other purposes than the health and enjoyment of himself and family. Street car fare will go a long way in feeding a horse. Driving is the best kind of exercise, and is growing in popularity, as is seen by the growing patronage of our race tracks.

LOTS ON SOUTH PARK BOULEVARD,

in the vicinity of Thirty-ninth street, or, in fact, all the way from Thirty-fifth to Forty-seventh, can now be bought for, say $90 to $125 per foot. This must be considered reasonable if we take into account the vast improvements that have been made and are being made. All vacant lots on South Park avenue, north of Thirty-fifth street, are being improved with elegant and fashionable residences. So it is on the avenues on the North side. Those streets leading into Lincoln Park are being rapidly taken up and improved by those who can afford the expense.



THE WORKING PEOPLE OF CHICAGO

find no scarcity of cheap tenements, and, if men like Turner & Bond, S. E. Gross, Campbell Bros., and last but not least, E. A. Cummings & Co., continue their operations, there will be an abundance of sprightly, comfortable houses for all Chicagoans of moderate means. And then comes more expensive, and, in fact, elegant houses, built by such men as W. D. Kerfoot & Co., U. P. Smith, Reed & Hurlbut, and others, whom we will mention hereafter. No danger of a famine in houses!

THE SUPPLY OF HOUSES

is at present a little in excess of the demand, at least, several well known house agents have so expressed themselves to the reporter of the REAL ESTATE AND BUILDING JOURNL, and present appearances in some portions of the city will corroborate their statements.

REAL ESTATE LAW.

New Hampshire Supreme Court.

INSURANCE—CHANGE OF TITLE.

The conveyance of property to the daughter of the insured, and by her to her mother, the wife of the insured, is a change in the title of the property, and will avoid a fire policy which declares that any change in the title will render it void.

A policy of insurance issued to a mortgagor of real estate, made payable to the mortgagee in the case of loss, is an insurance of the interest of the mortgagor in the estate, and not of the interest of the mortgagee; and in such case the mortgagee is not an assignee of the policy, and is affected by subsequent acts of the assured: Baldwin v. Phœnix Insurance Co., page 163.

CONVEYANCE TO CHILDREN—LIFE ESTATE.

A conveyance to the children of A, upon the condition that A shall take the custody of the property and manage it for his own benefit as long as he lives, with the power of relinquishing his interest at any time to his children, if accepted by A, gives him a life estate which may be taken on execution by his creditors.

The donor of a life estate in land can not exempt the same from attachment on the debts of the donee by inserting in the deed creating it a provision that it shall not be liable for such debts: Wellington & a. v. Janvrin & a. page 174.

NOTICE OF TITLE—ALIMONY.

A knowledge of such facts and circumstances as would put a person of ordinary care on inquiry, and if traced and understood, would lead to a knowledge of title in a third party under an unrecorded deed, is sufficient to charge a purchaser with a constructive notice of that title. Such notice may exist without a change of possession under the deed.

If a wife has an inchoate claim for alimony at the time of filing her libel for a divorce, it can not be said to exist after the libel is dismissed; and if the husband subsequently obtains a divorce, and is ordered to pay alimony, a voluntary conveyance by him previous to the filing of his libel is not necessarily fraudulent as against her: Janvrin v. Janvrin, & a. page 169.

equity to redeem homestead premises from a mortgage, executed by the debtor and his wife, releasing homestead rights, holds the premises subject to the wife's homestead rights as well as to the mortgage, and if the grantee of such assignee pays or takes an assignment of the mortgage, the wife is entitled to a homestead without contribution, she having first redeemed: Pollard v. Noyes, page 184.

Supreme Court of Oregon.

March Term, 1884.

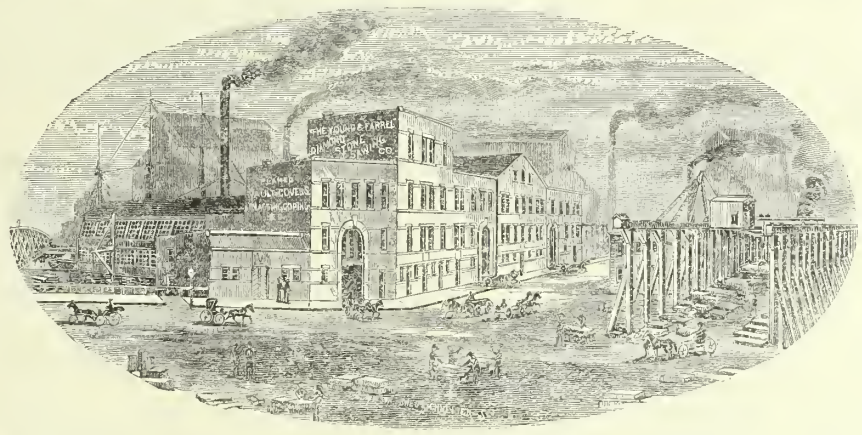
WILSON ET AL. V. SHIVELEY.

TIDE LANDS—GRADUAL SUBMERSION OR ACCREATION.—When land is submerged by the gradual advance of the sea, the sovereign acquires the title to the part thereby covered by water; conversely, the riparian owner is entitled to whatever is gained from the sea by alluvion dereliction.

TIDE LANDS belong to the state as sovereign, and it has the absolute right to dispose of them.

TIDE LANDS—ABUTTING OWNER—RIGHT TO PURCHASE.—Under the act of 1872, and the acts amendatory thereof, the abutting owner on tide lands, or his grantee, has the right to purchase such tide lands.

Landlord and Tenant.



A deceitful landlord, who holds out to a good tenant that he will make certain improvements, for the purpose of getting the tenant to sign the lease, and then refuse to do as promised, is guilty of false pretenses; and when the landlord owes the tenant a bill the latter cannot deduct it out of the rent, but if the landlord, through stinginess, refuses to allow it, the tenant can sue him for the amount. The courts will not encourage a man to get rich by gouging his tenants, especially when the tenant pays promptly and makes all inside repairs.

CITY COUNCIL.

AUGUST 4.

An ordinance was passed for sidewalk on both sides of Twenty-second street, from Indiana to South Park avenue; for same on both sides of Twenty-third street, from Michigan to South Park avenue; for same on both sides of Charles place, from Fifth avenue to Franklin street; for same on both sides of Congress street, from Fifth avenue to Franklin street; for same on both sides of W. Madison street, from Ashland to Western avenue; for same on both sides of Warren avenue, from Oakley to California avenue; for same on both sides of Leavitt street, from W. Indiana street to W. Chicago avenue; for same on both sides of W. Huron street, from Robey to Leavitt; for same on both sides of Evergreen avenue, from Milwaukee avenue to Robey street; same, repealing ordinance for sidewalk on both sides of Stone street, from Division to Banks.

Sole Agents for Penn. Green Serpentine, and Scottish Red Corsehill Stone.

That Washington Boulevard Assessment.

The West Park Board met Monday, Aug. 11. The Treasurer's report for July of the Washington Boulevard Assessment showed to have been $15,349; disbursements $8.608; balance $6,741. To this balance should be added vouches not yet cashed by Treasurer to the amount of $1.343, making a total balance of $8,084. July 21—General park fund receipts $43.152; disbursements, $30,117; balance $13,035. An additional bond of Fred Blount, Treasurer, in the sum of $200,000 with John R. Walsh, Henry Nash and Adolph Loeb as sureties, relating to the fund collected on the South-west boulevard assessment was approved.

Commissioner Clark said the gravel furnished by Geo. Miller & Co. from the Carey pit, in accordance with the contract granted a fortnight ago, would not pack so as to make a good roadway. The people living between the railroad tracks and Garfield Park, on the boulevard, were dissatisfied. He therefore moved that the contract be revoked. The matter was referred to a special committee with power to annunl the contract if they deemed proper.

CHICAGO REAL ESTATE BOARD.

The report of the committee, appointed by the above board, on Revenue Reform, was published in the JOURNAL of last week, but by mistake was inserted at the close of the records, on Page 12, instead of among the editorial matter in front. The committee, it is understood, is still at work during vacation, circulating a petition, to be presented to the Legislature when it next convenes, praying for needed legislation on Revenue Reform. This association represents about $200,000,000 worth of real estate, and its members are shrewd enough to see that realty bears too much of the burden of taxation.

Hyde Park Improvements.

—H. M. Dupee is building a block of detached residences on Hyde ave. between 51st and 52nd sts.

—Michigan Central freight transfer warehouse at Kensington, destroyed by fire July 20, is being rebuilt and will be completed in September.

—Rust & Coolidge are building an extensive house for Mr. Coolidge fronting on 48th st. on the new subdivision of the Judd property east of Woodlawn ave.

—An ordinance was passed for sidewalk on East side of Jefferson ave. from 54th to 55th st., also for same on East side of Greenwood ave. from 44th to 43rd st. and thence on South side of 43rd to Lake ave. There was a petition for sidewalk on Wolcott ave. between 42nd and 43rd sts. An ordinance vacating alleys running east and west blocks 10 and 11. Wait & Boehn's sub 23 38 14 E. was ordered engrossed.

LAKE VIEW.

—The Board of Trustees held a meeting Monday afternoon.

—An ordinance was passed for the grading and paving of Evanston ave. from Diversy st. to Belmont ave.

—The Supervisor was authorized to employ a suitable person to assist the County Collector to collect the delinquent personal-property tax.

—The Supervisor was instructed to issue rebate vouchers to property-owners who had built curb walls and filled the street to the required grade.

—Bids for the construction of a sewer in Orchard st. from Frederick st. to Deming court, and in Deming court from Orchard to Clark st. were opened and referred to the Assessor and Engineer.

—A special meeting was appointed for the evening of Aug. 21 to consider the ordinance granting permission to the Consolidated Gas & Illuminating Company to erect and operate gas-works and lay mains in the Town of Lake View.

—The Town-Attorney was instructed to report what rights the town had inGraceland ave., from Ashland ave. to Clark st. In 1871 the Trustees by ordinance declared this street to be 100 feet wide, and at the last meeting of the board the Trustees approved a plat in which it was laid down as 66 feet wide.

BUILDING NEWS.

NEBRASKA.—The corner-stone of the new State Capitol was laid July 15, at Lincoln.

MASSACHUSETTS.—It is estimated that one thousand new buildings will be erected at Somerville, during the present year.

IOWA.—The Y. M. C. A. will build a house in Des Moines. The corner-stone of the new Jewish Synagogue, in Davenport, was laid the 22nd ult.

WISCONSIN.—Whitewater will soon have a $30,000 hotel. A new hostelry is being built at Appleton. The Catholics of Arcadia have laid the corner-stone of their new church. Although almost $20,000 has been subscribed for the proposed new Y. M. C. A. building, at Racine, it is thought that the edifice will not be commenced this season.

MINNESOTA.—Brainerd has awarded the contract for building the high school, at $27,000. The St. Paul, Minnesota & Manitoba Railroad will spend $35,000 for shops at Barnesville.

MICHIGAN.—Muskegan is building a new school house. Big Rapids will build a new school house. House building is lively at Battle Creek. The Michigan Central Railroad will build a passenger depot at Ann Arbor. It is estimated that $50,000 worth of buildings will be erected at Hastings this year. A reform school is being built at Lansing Clio is making arrangements for building a $6,000 brick school house. The Battle Creek committee on water-works has decided to build a new reservoir,60x12x10,in the West end, for fire protection. The Lafayette Avenue Baptist church, of Detroit, will erect a new church; cost, $122,000. Clio will soon build an opera house.

CHICAGO AND VICINITY.—A handsome three-story and basement block of stores and dwellings will be erected on West Van Buren street, near Aberdeen, by J. P. Atwater. A syndicate, headed by Frederick Eames, will build a mammoth structnre on the lots known as as the Everhardt and McCoy leases. Plans are drawn by Burnham & Root.

It is stated that C. L. Jenks will at once proceed with the construction of his six-story building next to McCoy's Hotel, fronting on Van Buren street, plans for which have been drawn by Cass Chapman. Architects Edbrooke & Burnham have planned a block of five dwellings for J. L. Campbell, to be erected at Nos. 95 to 105 De Kalb street, to cost $25,000. Architect J. C. Doerr has drawn plans for a block of stores and flats at Nos. 3807 to 3815 State st, for Henry Berath, to cost $35,000. Architect Dixon is receiving figures on a residence for Mr. C. I. Dougler, on Prairie avenue, near Twenty-ninth street, to cost $15,000. Architects Burling & Whitehouse have planned a block of stores and dwellings for Mrs. Turnbull, at Nos. 2120 and 2122 State street, to cost $12,000.

To much of most Everything.

The following from the Chicago Tribune is "TOO" good to be omitted. It shows whats the matter with the country.

"Too much wheat, too much corn, too many hogs, too many salmon in the Columbia, too much dried fish at Gloucester, and too much hunger in the tenements of New York, Chicago, and Philadelphia. Too much milk in Orange County and in Middlesex, and too many babies dying of chalk and water in Boston and New York. Too many calicoes and too many little girls in rags; too much wool and too many blankets, and too many people sleeping cold on winter nights. Too many hides and too many boys going barefooted. To much starch and too much linen, and too many families without clean shirts. Too much thread and too many sewing-woman working till midnight to earn money enough to buy it with. Too much coal and too much shivering. Too much lumber, too many nails, and too many saw-mills, and too many persons to the room in Bridgeport and the Five Points.

Too much whiskey, too many bottles, and too many drinkers. Too much lead, too many plumbers, too many doctors, too much quinine, and too much diphtheria, too much sewer gas, and too much typhus. Too many druggists and too much to pay for prescriptions. Too many school books and too many of the illiterate. Too many factories, and too many people out of work; too many stores and too many clerks. Too many millinaires and too many paupers. Too many railroad kings and too many subject States. Too many railroads, too many steel rails, and too much to pay for freight. Too many railroad stocks and too many stockholders asking for dividends.

Too much money and too many tenants who can't pay their month's rent; too many investments; too many trustees; too many "irregularities"; too many men out of prison. Too many sympathetic bankers and too many weeping depositors. Too many speculators and too much Missouri Pacific for sale. Too much gambling on the Board of Trade and Stock Exchange and too many brokers starving for commissions. Too much demand for currency to move the wool, and wheat, and cattle of the West, and too many greenbacks and to much gold locked up in the safety-deposit vaults of Chicago and New York. Too much confidence in buying Wabash (assessments extra), and too much lack of confidence in buying 90 cents' worth of wheat for 80 cents.

Too many Presidential candidates, too much Widow Butler, and too much Widow Halpin.

Too many ships in the Mersey, and too much freight on the wharves of the world. Too much sugar in New York, and too many ruined plantations in Cuba. Too much population in Ireland, England and Scotland, and too much land cleared of cottagers and given to deer and grouse. Too much wild land in the United States and too many wild people in the cities. Too many marshes to be drained; too many streets to be cleaned; too many homes to be built; too many roads to be opened and improved; too many diseases to be stamped out; too many wildernesses to be tamed; and too many men standing idle all the day.

Too much of this."

A. W. Herr AND Co.

Manufacturers of
Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

NATIONAL SHEET METAL ROOFING Co.
Organized under Charter granted by State of Tennessee, September 30, 1882.
SOLE MANUFACTURERS OF
WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow —which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

L. D. CORTRIGHT, Western Agent, 146 La Salle St., CHICAGO, ILL.

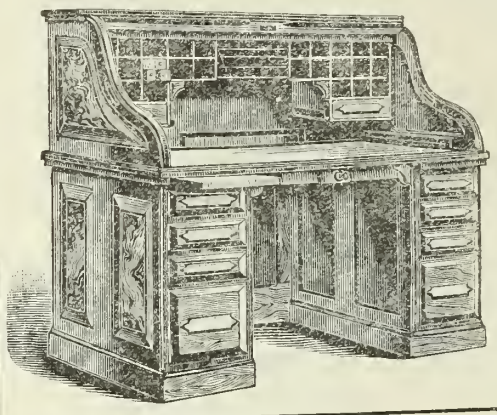
Indicator for Elevators—Thomas S. Young, New York, N. Y. 303,247.

GOOD BRICKS AND BRICKWORK.



There are certain criteria of good bricks, which, being infallible and readily applied, constitute the best practical tests as to the quality of these valuable materials. In the first place, good bricks are always heavy—always solid and compact, ringing with a clear, sharp sound when struck together, and well and truly formed, with nice sharp edges. Neither will they absorb much water. If you have to choose between two bricks of equal or nearly equal weight, immerse them in water after weighing them dry. Twenty-four hours after take them out, and reject the one which has acquired most weight, and therefore imbibed most water. Over-burnt bricks may be heavy, but they are also cracked and distorted in form by undue heat, and may be readily distinguished from the better sort by their general appearance. Bad bricks, on the contrary, are light, will not ring at all when struck together, are ill-shaped, hollow on one side and round on the other, readily abrade on the edges, suck up water like a sponge, and indeed are sometimes so soft that a strong thumb may force off the edges, such as they are.

Good brick-work is laid truly and accurately to a level, every joint answers truly to the line, and every part of the face coincides with the plumb. All the beds and joints are well filled with mortar until it is fairly pressed out in the faces; all deficiencies are carefully pointed up as the work proceeds, and the whole well flushed in course by course. The mortar is well mixed, lime and sand thoroughly blended, and the sand, if handled alone, is found to be clean and sharp to the touch, feeling thoroughly gritty, and free from all slimy, greasy and tenacious qualities. The joints are never to exceed three-eighths of an inch, and should never exceed one-quarter of an inch in thickness, and the vertical lines must be truly plumb over each other in such courses as intended, according to the kind of bond employed. The work is also carried up uniformly level throughout, and no difference permitted even for a temporary purpose, under any circumstances whatever. By these means only can unequal settlements be prevented. Contraction of bulk, or settlement we know must occur rrom the combination of materials in an expanded condition, as mortars and cements are, when in a plastic form; and therefore all walls must sink or settle down as the mortar becomes dry, but it is essential, to prevent dislocation, that this settlement be uniform throughout, and this can only be secured by adopting the precautions prescribed above. For the same purpose the back and interior of the work must be brought up, laid, and finished as completely as the front, and no gaps or crevices left for subsequent patching. One other rule has to be observed, and we reserve it to the last and separate, and emphatic statement, to show our estimate of its importance, in order to produce good brick-work, which is this—that the mortar should be as thick as it may be, or as nearly approaching the solid form as is consistent with the degree of plasticity essential for its proper distribution and penetrating into the joints, while the brick should be thoroughly wetted on the surface. By these means the adhesion between them is rendered the more perfect, and the subsequent amount of shrinking and settlement is reduced to a minimum. The watery mortar, on the contrary, suffers extreme contraction, while the essential properties of the lime are actually dissipated, and when the wall becomes thoroughly dried, if ever it does, little remains in the way of cement but the sand compounded with it.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling tbeir attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Cbicago.

BUILDING DEPARTMENT.

—)o(—

THE LUMBER MARKET.

The lumber manufacturers of the Northwest Thursday decided to curtail the product of the present year. It was recommended that mill owners shut down their mills on Nov. 1. thus reducing this year's product to 4.000,000,000 feet, against 7.000,000,000 feet turned out last year. The surplns has made such action advisable. Lumber is now cheap as well as nearly all kinds of building material. There is an increased demand for lumber to go to country retailers, on the assumption that farmers will soon begin to build. A condensed report of new buildings in Minneapolis and St. Paul, and throughout the cities and towns of the Northwest, as published in the following pages of this journal, would indicate that there is not an over supply of seasoned lumber at least.

The people are not poor by any means, and can afford to buy all the lumber they want. Iron, brick and stone are, however, employed more extensively in house building than ever before, and these materials are tending to cheapness. The Industrial World has the following on "Hardware. Iron and General Metals":

"An exaggerated idea of the weakness of prices prevails, and it is sheer folly to make further concessions, because each cut is accepted by the purchasers as the forerunner of another, and it is a notable and significant fact that trade is better and confidence strongest in those lines of business in which prices have been the best maintained. The tendency of prices downward is in times like the present always beyond the cost of production, and this tendency is accompanied by a timidity in buying which leaves the country bare of supplies. and some fine day begets a reaction more or less sudden. There is, however, in the present condition of affairs a strong conservative element which discountenances the probability of anything like a boom. The signs all tend to indicate a continuation of the present inactivity for some weeks yet, until the crops are fairly cared for, and the wheat comes into the market, when a moderate revival, both in trade and values, is probable."

At the Chicago Docks there are signs of improvement which consists in greater steadiness of the price of piece stuff, and less prevarication and naggling. The yards are shipping more lumber than they were a fortnight ago. The Northwestern Lumberman of Aug. 16, says:

"Estimating all the conditions carefully, we must conclude that there is a degree of actual, healthy increase in demand. The first ripplings of the rising tide are undoubtedly here, and it is hoped that the rise will continue. There is certainly no reason why country dealers, or consumers in city or country. should not buy lumber now if they are to need it during the fall months. Lumber is cheap enough for the most exacting. Prices are made to please in a manner to suit any buyer. It would be folly to wait until purchases could be made at more accommodating figures."

Quotations at the docks are as follows:

Piece stuff, green	$8 .25@ 8.75
Long timbers, green	10.00@10.50
Boards and strips, No. 2, green	9.00@11.00
" Medium, green	11.00@13.00
" No. 1, green	15.00@18.00
High grade	18.00@24.00
Shingles, standard	1.60@ 1.75
" extra	1.80@ 2.00
" clear	2.80
" cedar	1.50@ 2.00
Lath	1.25@ 1.40

For retail prices see price list on Page 15.

BUILDING MATERIALS.

The following quotations will be found reliable.

Lime in bulk 65 cents; in barrels $1; cement in bulk $1; in barrels $1.25; Portland cement $3.25@3.50; hair 25c; Michigan plaster $1.75; New York plaster same; sand $1.25. Michigan and Iowa stucco $1.65; New York stucco $1.75; Akron Milwaukee and Louisville cement $1.25; Portland imported $3.25@3.50; white sand $1; plastering hair 20c; marble dust $2. Consumers must bear in mind that one or two barrels cannot be sold as cheaply as wagon and car load lots. The above quotations are the lowest we have heard of. The table has been corrected to correspond with latest reports. Hinchliff & Owen room 10 159 La-Salle street quote common brick from $6 to $7, and Indiana pressed brick $16 to $28, and further sayeth not. Mr. J. J. Lockwood offices No. 199 Lake street, quotes St. Louis pressed $30; St. Louis selected. red, $25; Trenton, N. J., pressed $40; Baltimore pressed $55; Milwaukee pressed $25; Philadelphia $42@45; Philadelphia enameled $90@125 All delivered at buildings in Chicago at this date.

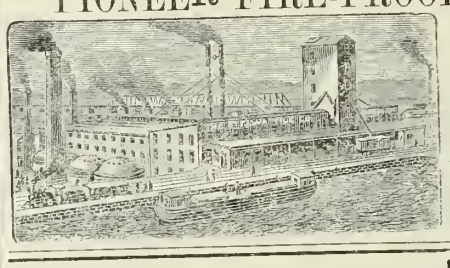
THE

Real Estate and Building Journal

R. C. SMYERS, PROPRIETOR.

CHICAGO, SATURDAY, Aug. 23, 1884.

THE MARKETS.



From the West come reports of a promising corn crop, and a good average yield in oats and wheat. The corn crop in Ohio, which was so promising a few weeks ago, has been injured by the drouth, and is only compensated for by a magnificent crop of hay. All classes of business men are calculating upon a revival in business on the strength of good crops. Real estate men are content to wait for the fall trade, believing that the demand for Chicago property will continue as long as the West continues to grow.

During the last two years or more, a great deal of property has been purchased by people who were able to hold it, and who, if they have not already improved it, are intending to do so. We have had the active buying season, and now and for some time will have the season of building and improving. Building materials and lumber are cheap, and lumbermen are devising measures to cut down the supply. Common brick, especially, is cheap. Money is plenty, at least the banks are well supplied with currency. Money can be borrowed for building purposes at 6 and 7 per cent., according to the size of the loan. These conditions are the prime causes for so much building on a grand scale. Besides this is the age of utility. Whatever contributes most to the comfort of mankind, and at the same time develops the country most rapidly, will attract capital.

Further on will be found a report of the Lumbermen's Convention, called for the purpose of coming to an agreement about shutting down the mills to prevent a further decline in prices. Unless there comes a reaction in building operations throughout the country, the demand for lumber must increase, and it is certainly a condition not to be regretted. When we have not overproduction we have something worse—underconsumption. It seems impossible to adjust matters so as to accommodate all. The real estate men may just as well say there is too much real estate and too many lots, and call a meeting for the purpose of putting a stop to subdividing as well as to building. The fact of the matter is we are going fast enough and getting rich (not the JOURNAL) too fast. Some people are so confounded lazy that they are always looking for a "boom" or a "tidal wave" to give them a boost to save effort. They want to get rich quickly, and having no capital and no energy to secure a fortune with, they are simply growling because they cannot lift themselves by their own boot straps.

The records show a light business for the week, as was the case the week previous. The month of August has always been barren of new projects in land operations in and around Chicago. Agents who are compelled to stay in their offices through July and August sometimes get ~~— not all such by any means. In many of the East-

ern cities there is a perfect "hegira" to the watering places and to the country during this season of the year, and Chicago people are learning the advantages of a few weeks' rest in summer. No new features have developed in real estate circles since one week ago.

Landlord and Tenant.

Considerable discussion has been provoked by the law opinion published last week under this head, to-wit: That if a landlord had a good tenant who had always paid his rent, and besides made all inside repairs for a period of two or three years, and said landlord owed his tenant a "bona fide" sum of money, the latter could not deduct the amount from the rent as it became due and payable, for although the landlord owed the tenant, yet the former could bring a suit of Forcible Detainer against the tenant, and the tenant would be compelled to sue and obtain a judgment against the landlord, and then the money could be held from the rent in due form of law. We simply meant in our former opinion that the mere fact of indebtedness would not protect the tenant against a suit for forcible detainer by the landlord.

CHARLES GOSSAGE & CO. AND MR. LEITER DISAGREE.

The large retail dry goods house of Chas. Gossage & Co., whose ten-year-lease of their store at the southwest corner of State and Washington streets expires the 1st of next January, was unable to agree with Mr. Leiter on the terms of a new lease, and that in consequence would wind up its business at the end of this year. The present rent is $40,000 a year, and it is understood that Mr. Leiter refuses a new lease at less than $55,000. This figure is considered exorbitant by the firm, and there is talk in some quarters that Mr. Leiter is now improving his opportunity to settle an old score, not having forgotten that it cost $100,000 to induce the firm of Carson, Pirie, Scott & Co. a few years ago to give up their lease of the store now occupied by Marshall Field & Co., then newly bought by Field & Leiter. It has also been talked in dry-goods circles that the firm has not been doing a satisfactory business, and that the heads of several departments had been dischared.

Mr. Andrew McLeish, the managing part-

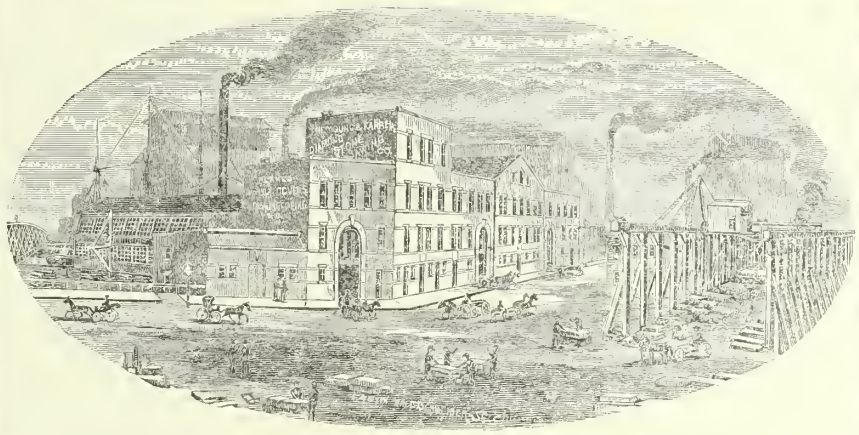
ner, said frankly that the firm was unable to come to an agreement with Mr. Leiter on the terms of a new lease. Mr. Leiter having raised the rent to a figure which the firm, he said, would never consent to pay. That the house had not been making money Mr. McLeish denied with emphasis. He thought the rumor to that effect could be traced to certain discharged employes, and was very positive in his denials. He declared that the firm was now quite undecided as to the future, but denied that any plan for winding up was being considered. On this matter, in fact, he was very reticent, meeting all inquiries with the answer that if any change should be decided on the public, as well as the firm's employes, would be given due notice. Schlesinger & Mayer, he said, had been taken over the building by Mr. Leiter's agent, but he did not know with what results. He could not see how any concern could afford to pay the rent demanded.

When Mr. Gossage died it was for a long time a mooted question as to who would succeed to his name and business, and little surprise was expressed when the large and strong wholesale house of Carson, Pirie, Scott & Co. became his successor, as their desire to open up a retail house in the business center had been known for a year or more.

South Park Board.



The South Park Board met Wednesday afternoon, Mr. J. R. Walsh presiding. Permission was granted the Consumers' Gas Company to excavate across Michigan avenue, on the north side of Twenty-ninth street, for the purpose of laying a 16-inch gas main. A communication was received from Geo. Scoville, Esq., attorney for the Harris heirs, offering to compromise the claim of said heirs for land now held by the commissioners, for $3,000. The matter was referred to the attorney of the Board. The following report of the Superintendent was read: All the walks in Washington Park have been completed and the masonry of the Farmstead bridge finished. About 1400 feet of the new stone pavements on the beach of Jackson Park have been laid. The building of the breakwater keeps pace with the paving of the beach, and the dredging and hauling of the sand, for the safety of the beach, is continued. The filling in of the Garfield boulevard was postponed until October. The water supply of the park has been improved by the laying of a 10-inch, cast-iron pipe from Hyde Park village main, on Woodlawn avenue, to Cottage Grove avenue, and thence to the park. The yield of hay was 366 tons, of which 174 is being sold. The grass in the outlying avenues in Jackson Park, south of Fifty-ninth street, was sold standing for $610.

THE WEST PARK BOARD.

The West Park Board met on Monday. The contract awarded to George W. Wilson & Co. for 8,000 yards of screened gravel was rescinded. The contract was then awarded to the Lombard Gravel Co. of Lombard, Ill., at the rate of $1.58 per cubic yard. A bond in the sum of $5,000 was required. Though the contract with Wilson & Co. had not been formally executed, the firm had assumed that the contract was to be in force and had dumped fifteen car-loads of Carey gravel. The firm of Wilson & Co. is understood to be dissatisfied.

The proceeds of the hire of boats in Garfield Park, during the soldiers' and sailors' reunion Wednesday and Thursday, were ordered turned over to the Soldiers' Home.

BUILDING NEWS.

ILLINOIS.—A new armory building is being erected at Champaign.

MINNESOTA.—Granite Falls will have a gymnasium. Minnesota Lake is to have a Catholic church. A passenger depot will be erected at Hastings.

DAKOTA.—Wahpeton will have new Catholic and Episcopal churches. The cornerstone of the new Episcopal church at Jamestown was recently laid. A Masonic temple will be erected in Springfield.

NEBRASKA. — Wisner has voted to issue $4,000 in bonds for the construction of water-works. The citizens of Hartington are talking of bonding that town in the sum of $5,000, for the purpose of building a court house.

MICHIGAN.—Hillsdale is moving for waterworks. A new town hall will be built at Ferry, Oceana Co. Cheboygan will have a sanitarium and hospital. A new county house is being erected in Van Buren Co. One hundred new cells will be added to the Detroit House of Correction. Big Rapids has voted to build a new $8,000 brick school house. A brick structure, 30x124, is being built at the military academy at Orchard Lake, to furnish barracks for the cadets.

CHICAGO AND VICINITY.—Seven dwellings are being erected on Lake avenue, near Fifty-first street, by H. M. Dupee. A beautiful residence for Horace Jackson is being erected on Rosalie Villas Court, South Park. Work has been commenced on a $6,500 building, for F. Wolz, at 151 Indiana street. E. L. Allen will build a two-story residence on Jackson street, near Ashland avenue. Plans for a $7,000 dwelling for A. Doering, at 894 Monroe street, have been completed. W. Young will build an $8,000 flat building, on Market street, near Chicago avenue. J. H. Smith has commenced a $9,000, three-story house on Lincoln place. A. Warner has begun the erection of a residence, after the modern Gothic style, at 503 Dearborn avenue. A block of buildings is being erected on Ninetieth street and the Strand, South Chicago, for A. Cassidy. A. W. Ring will build a $6,000, two-story apartment house, on Belden avenue. A $12,000 block of stores and flats is in the process of erection at the corner of Douglas and Rhodes avenues, for G. W. Brown. C. H. Gottig has furnished plans for a $6,000 residence, to be built by Saehn Bros., at 523 Hurlbut street. G. C. Hutchinson will build a residence on Ashland avenue, near York street. Preparations are being made by J. N. Crandall for the erection of a $6,000 residence. L. G. Halberg, architect, is erecting for himself two residences, on LaSalle avenue, near Eugenie street. In a short time work will be commenced on a $15,000 residence for C. I. Dangler. Dr. T. W. Brophy will erect two houses on Monroe street, near Western avenue, during the summer; cost is estimated $12,000. C. W. Blaisdel will build a residence on LaSalle avenue this season. H. M. Shepard has had plans drawn by Architect Halberg, for an expensive residence on Grand boulevard, near Forty-fifth street. Architect J. Huber has plans in readiness for a six-story, double flat building, on Farwell street, near Wentworth avenue, for Mrs. McCarty; also plans for a residence for J. H. Butterman, to be built on Dearborn avenue, near Division street.

MINNEAPOLIS.—J. H. Jones is building a $3,800 residence of ten rooms, on Nicollet avenue, between Thirty-first and Thirty-second streets, according to plans by C. J. Hughes. E. S. Stebbins is the architect of a $1,700 house which E. C. Briggs is building for J. F. Stephens, on Twenty-fifth street, between Stevens avenue and Second avenue south. MacClary & Quigley are building a residence, to cost $2,000, for Rev. Dr. Peter Stryker, pastor of the Andrew Presbyterian church, on the corner of Seventh avenue southeast and University avenue; it is to be completed by December 1. Brownell is the architect and James A. Tyler the builder of a brick veneered store building for Dr. F. A. Dunsmoor, on Western avenue, in Oak Lake Addition; the structure will cost $2,500. I. W. Kelly has drawn plans for R. H. Abraham's block of four tenements, commenced this week on Eleventh street, near Hennpin avenue; the building will cost. $10,000. W. A. Hunt has just completed plans for a fine residence to be built by Gen. L. A. Grant, on Prospect street, near Spruce Place; the cost will be about $10,000. D. B. Lyon is building a nine-room house, costing $1,400, on Eleventh avenue southeast between Sixth and Seventh streets. J. S. Scott is building an eight-room house, to cost $1,200, on Pleasant avenue, between Thirty-third and Thirty-fourth streets. W. Muther is the architect and builder of an $800 house for Samuel Erb, on Third street, between Nineteenth and Twentieth avennes north. Dennis & Caulkins are the architects of a $4,500 residence for C. Wright Davison, on Highland avenue, in Oak Lake addition. Dinsmore & Son, the contractors and builders, are about to erect a residence, to cost $2,500, on the corner of Lake street and Third avenue south. Prof. David L. Kiehle is building a residence, to cost $3,000, on Sixth avenue south and Twenty-eighth street; James Carlisle is the contractor. Wait & Matthews have recently built for Miss Isabel Johnson a good house, on Sixth street, between Twenty-fourth and Twenty-fifth avenues north. Work is rapidly progressing on the walls of the gas reservoir building, on Second avenue north and Sixth street; the gas capacity of the building will be nearly 500,000 cubic feet. J. W. Tousley & Son have recently commenced the erection of a $1,000 house, on Blaisdell avenue, near Twenty-eighth street; also one of similar cost on Pleasant avenue, between Twenty-eighth and Twenty-ninth streets. The grain elevator and warehouse which are being built by L. C. Bisbee & Co., for Baker, Potter & Co., on First street, between Fifth and Sixth avenues north, are to be complete l during October, and will together cost about $90,000. L. S. Buffington is the architect of an eight-room house, costing $2,000, which A. F. Pierce is building for C. W. Smith, on Hillside avenue, near Fifteenth street; it is to be completed within ninety days. Mrs. M. J. Bushnell is building a $600 house on Thirty-second street, near Blaisdell avenue. F. G. McMillan is building a house, to cost $3,700, on Seventh street and Ninth avenue south east. A. F. Pierce is building a $1,500 house on Hillside avenue, between Fifteenth and Sixteenth streets. Geo. Blakney is building a seven-room house, to cost $700, on Eighth avenue north, near Twelfth street. I. C. Bolser intends building a $1,200 house on the corner of Ninth street and Twenty-second avenue north. Orff Bros. are the architects of a $1,600 house for Mr. Clark, on Seventh street and Eighth avenue southeast. Jas. Gibson is building a $1,200 residence on Lyndale avenue, between Thirty-seventh and Thirty-eighth streets. Wm. Ainsworth is building two houses, to cost $600 each, on Fifteenth avenue south, between Fifth and Sixth streets. A. Geary is building a small house on Seventh avenue north, between Twenty-sixth and Twenty-seventh avenues north. S. G. Sutton is building a small house on Seventeenth avenue south, between Twenty sixth and Twenty-seventh streets. C. M. Scone is erecting a small house, to cost $400, on Twenty-fourth avenue north, between Sixth and Seventh streets. I. W. Kelly is making plans for a $2,000 residence, soon to be built by S. F. Zesbaugh, near Lyndale avenue. Dr. Reed's fine residence, to cost $7,500, has recently been commenced on Seventeeth street, near Central Park; W. A. Hunt is the architect. W. A. Hunt has plans for a $2,500 house of nine rooms, commenced this

week for Mrs. L. A. Douglass, on Tenth street, between Nicollet avenue and Mary Place. Wm. Williams is building a seven-room veneered house, to cost $1,500, for James Staples, on Thirteenth avenue south-east and Division street, in Elwell's Addition. George McAllister has laid the fonndation for a nine-room house, costing $3,200, on Portland avenue, between Twenty-fifth and Twenty sixth streets; the architectural plans were prepared by W. A. Hunt. A. Woodbury is the builder for Roberts & Lenhart, of a two-story brick store building, 52x75. to cost $4,000, on Main street just below Central avenue; it is to be completed within sixty days.

A West Side Alder (Elder).

Who among real estate men in Chicago has not heard of the elderbarry? This plant, like a peculiar species of the mulberry blossoms, as it were, but never bears fruit. It has grown to more than the usual size, and is now an elder tree. Students of Botany, who have learned to botanize, can analyze this plant and fully appreciate what the writer says. The elderberry, as is well known, assumes to be a thoroughly good tree, but the fact of the matter is that this plant is not only exoginous—growing from without,—and polypetalous—having many petals, or rather tentacles, but it is a powerful absorbent as well, drawing by a natural process the very substance of all things within its reach into its own system. The elderbarry is also a church plant, and first took root and gained considerable growth under ministerial influences, on sacred ground. The goodness of this plant consists wholly in giving good advice to people who need something better. The old saying, that "a tree is known by its fruit," applies to the elderbarry as well as to the actions and life of all mortals. The absorbing nature of the plant under discussion is so strong that a stone step lying in front of a neighbor's door, fully sixty feet away, was taken up by its stroug tentacles and removed to the domicile of this elderberry, to do service as a stepping stone.

This is not one of "Æsop's Fables," gotten up for the purpose of poking fun at the elderbarry, but is the production of one of the friends of the West Park Board, who is acquainted with the committee in charge of Tree Planting. This "plant," being an elderly one, of stately "mean," was desirous that the "Governor" of all should place it in the Parks, but the boys in charge of politics and the weather did not recommend this elderbarry as one who would impart as well as receive, for, as a rule, the genuine plant of this description bows graciously to Mother Earth, as its fruit grows and ripens, that all mankind may have "pie."

"Stops" and "Starts" in Business.

In the same manner that a large body of troops moving forward by columns,in a new or broken country, must frequently halt, so the business of a new country embracing every kind of production and industry, must experience times of stagnation alternating with periods of progress. The "Western Insurance Review", of St. Louis, on the subject of railway construction, etc., says:

"There are times when production and industry substantially stand still, and times when they progress by leaps and bounds. The difference between a time of stagnation and one after two or three years of great growth is immense, such as is never seen in an old country, because in no old country do we see such an increase as that from a production of 2,310,000 tons of pig-iron in 1878, to 4,144,000 in 1881, and 4,623,000 in 1882; or as that from 3,630 millions of feet of lumber in 1878, to 6,769 in 1881, and 7,552 in 1884; or from the construction of 2,700 miles of railroad in 1878 to 11,600 in 1882. After such tremendous growth has gone on for a short time all the productive agencies and all the carriers of the country are taxed to the utmost to supply the demand, which means that they are then able to make extraordiuary profits. This leads to a multiplication of factories and railroads, and the time the rapid growth ceases the country is likely to be over-supplied with these, with the consequence that profits will fall below the average."

The fact is that we are engaged in providing a growing country with the industrial appliances it needs—railroads among them—and this is a work which cannot be done with exactness—fast enough, and not too fast—even when carefully planned beforehand. Here it can hardly be said to be planned at all. Any man or set of men who can raise money can build a railroad almost anywhere in the country. In Europe, India or Australia, it is substantially impossible to get authority to duplicate a road. Here a new railroad may be built alongside of an old one, and take away a large part of its traffic without legal check, and a territory which is able to support the thousand miles it has, may within a few years have two or three thousand miles to support—or starve.

THE LAW OF TAXATION.

Taxes upon property must be reasonable and proportional, and there should be taxing districts and a rule of uniformity.

A state tax should be apportioned through the state; a county tax through the county; a town or city tax through the town or city; while in the case of local improvements that in a special and peculiar manner benefit some portion of the state, or of a county or town, there may be a special taxing district, within which the expense may be apportioned: Dil. Mun. Corp. 739; Cool. Const. Lim. 495; Opinion of the Justices, 4 N. H., 565, 568, 569, 570. To render taxation uniform, it is essential that each taxing district should confine itself to the objects of taxation within its limits; otherwise there may be double taxation and inequality: Cool. Const. Lim. 499. In Wells vs. Weston, 22 Mo. 384, it was held that property located in one taxing district cannot be subjected to taxation in another, as it would be the arbitrary taxation of one class of citizens for the benefit of another class. A taxing district might be established for certain purposes common to the entire district, so that the plaintiffs could have the protection and benefit of the local taxation in common with all the citizens and owners of property in the district. But, assessed as the tax is for the local purposes of the defendant town, it is illegal: Dorgan vs. Boston, 12 Allen, 223, 237. The state and county tax included in the tax in question is also invalid. College Grant and Dixville being unincorporated places, the state and county treasurers had assessed the tax apportioned to them under the provisions of General Laws, ch. 60, secs. 1, 2. Case discharged.

TAXATION AND PROTECTION—SITUS.—The opinion of the Supreme Court of New Hampshire, by Bingham, J., holding that taxation and representation are reciprocal; that in a town in which a chattel has no situs, and in which its owner does not reside, it is not taxable for expenses of the town not actually or presumptively beneficial to the owner.

JUDGMENT OF SISTER STATE.—The opinion of the Supreme Court of California, by Myrick, J., holding that a defendant, in an action on a judgment rendered against him in another state, after due service of process and opportunity to be heard, cannot impeach the validity of such judgment for reasons which might have been given in defense in the action in which the judgment was rendered, in the absence of surprise or fraud on the part of the judgment creditor. —Legal News, Aug 16, 1884.

The Lumbermen's Convention.

The convention of the lumbermen of the Northwest met in Chicago, on Wednesday, August 20. The attendance was quite large and represented an aggregate capital of $500,000,000. Mr. Van Schaick, President of the association, in his address referred to the depressed condition of the lumber business, and suggested as possible remedies a temporary closing of the mills or a reduction in the cut next winter. Several favored the latter proposition, while a few preferred the former. Mr. Thaddeus Dean of Chicago thought that each lumberman should be left free to act for himself, and condemned artificial expedients for enhancing prices. He said the schemes proposed were opposed to the interests of the people. After considerable discussion the following officers were elected for the next year: President, A. G. Van Schaick; Vice-President, O. C. Merriman; Treasurer, A. A. Bigelow; Secretary, E. S. Hotchkiss.

The mills will be closed temporarily November 1.

The New York Market

Last week was the dullest of the year so far, both on 'Change and in the brokers' offices, nor will matters mend before September. The Conveyances still make a good showing as compared with last year, but much of this is due to the numerous deeds recorded by the purchasers at the Deane sale. These are numerous because in some instances each transfer required three deeds, hence the Conveyances make a better showing than the number of transactions warrant. Twenty-four of the 154 conveyances recorded during the week convey or release property in which John H. Deane had an interest.

The dealers in town speak hopefully of the fall season. It is known that some valuable properties will come upon the market. Brokers argue that if with a depressed stock market they had so good a season last spring, what may not be expected with a better feeling in Wall street, with gold coming from Europe and large sums of money lying idle in the bank. It is believed that in the race for the favor of investors real estate will have the advantage of the securities market.

Mr. C. W. Luyster, the well-known builder, returned to town on Thursday from a Western tour. At Chicago and other points he found business quite active and business men in the building trade very confident. Here in New York, Mr. Luyster says, he finds trade very dull and many people over-anxious about the future.

Many of the brokers and builders report that during the week there has been considerable inquiry for houses. — Record and Guide.

A. W. Herr AND Co.

Manufacturers of
Sidewalk Ventilators and Vault Covers,

Are now ready to supply the public with their new and improved VENTILATOR and COAL-HOLE VAULT COVERS. This invention entirely does away with propping up or placing barrels or boxes in your sidewalks, at the same time giving you all the desired ventilation and three times the light given by covers now used, and always leaving the sidewalks fully clear to the public, thus abating an intolerable nuisance, and protecting **life, limb, and landlords** from serious damages. These covers are constructed with two heavy-hinged wings, so that one or both can be opened from below by turning a heavy thumb-screw when ventilation is desired, and can be readily closed to prevent rain or dust without obstructing the light to apartments below in either case, or disturbing the cover on sidewalk. We have all sizes, both round and square, with or without rings and fastenings. We invite the public, and particularly architects, builders, and those contemplating building, to call and examine our new devices, which will be found cheaper, and we will guarantee better satisfaction than any ever used.

We also invite your attention to our new and indispensable "EUREKA" VENTILATOR and FIRE LOCATER, to be placed on iron shutters, locating the fire in a building to a certainty, thus giving easy access to the apartment where fire is located, saving great damage and delay and loss of property, and can be used as a ventilator whenever desired for ventilation of attics, mansard roofs, outhouses, barns, stables and wooden structures of all kinds where ventilation is needed. It will be found as safe a protection from outside heat as the solid shutter. Call and see for yourselves, or send for circular.

NATIONAL SHEET METAL ROOFING Co.
Organized under Charter granted by State of Tennessee, September 30, 1882.
SOLE MANUFACTURERS OF
WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

+TIN+SHINGLES+

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow—which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durahility, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

Michigan Lumber, and Southern or Yellow Pine Lumber.

It is almost impossible to realize the immense natural resources of the United States, yet, what we do know is sufficient to yield amazement and pride. In considering the area of our forests in the Northern and Southern States, and the extent of our trade, we have ample reason to believe that in this respect our supplies are superabundant. All sorts of Michigan lumber are shipped in large quantities by vessels—yellow pine, on the other hand, in car-load lots, and then only the choicest, on account of the large railway freight, which makes it unprofitable to ship common grades.

Among the leading houses in the city of Chicago, with an experience of fifteen years, that conduct a large business in supplying the trade, is that of Messrs. Street, Chatfield & Co., with office and yards at No. 14 East Chicago avenue. They are extensive manufacturers of and dealers in Michigan as well as Southern or yellow pine lumber, making a specialty of long leaf yellow pine flooring and finishing lumber, which, on account of its choice character, is extensively used among our builders, and has established a reputation second to none. They have the best of facilities for cutting and kiln-drying odd sizes and widths of yellow pine flooring, at the same time a large stock is kept on hand. They also keep a large and well assorted stock of timber and heavy joist, as well as flooring and finishing lumber in white pine.

They do a large business, and have supplied the material in many of our first-class private and public buildings, and in every instance have given the greatest satisfaction. As a business house they are known to make promptness and accuracy in filling orders their rule, and only furnish such goods as cannot fail to be satisfactory to purchasers.

Sanitary Plumbing and Gas Fitting.

One of the most gratifying evidences of popular appreciation of scientific progress is the increased attention that is bestowed upon the sanitary condition of private dwellings and public buildings. The condition of the appliances for the use of water and gas is one of the first considerations in renting or purchasing residence or business property, and the general character of the work that is done by our representative plumbers and gas fitters shows that they realize the necessity of keeping pace with the progress of the times.

Among the most experienced practical plumbers and gas fitters in this vicinity, we unquestionably must include Mr. E. Baggot. He has the well-earned reputation of doing first-class work, and has in consequence executed numerous large contracts for a number of the most prominent builders and well-known private parties in and outside the city. He makes a specialty of sanitary work in dwellings, stores, office buildings, etc., introducing water, making sewer connections, fitting up water closets, baths and boilers, etc., furnishing gas fixtures from the simplest to the most elaborate, and generally placing buildings of all descriptions in the most perfect sanitary condition, warranting all work to be strictly first class in every respect.

His assortment of novelties in gas fixtures, chandeliers, etc., is as diversified as the stock in a fancy millinery shop, and fastidious indeed must be the desire that fails of being immediately suited after a careful examination of the art products in this extensive department, where is displayed a greater variety than most other firms, and in consequence of his constantly increasing trade he has recently enlarged his premises and his warerooms, beautifully fitted up, present to-day unusual attractions, well worthy the attention of art critics, as well as architects, builders and property owners. Suspended from the ceilings may be seen chandeliers and pendants of the most exquisite patterns, finished in all the different ways known to the skilled mechanic, and he takes a great pleasure in inviting an examination of these standard articles, as they cannot be surpassed in artistic beauty or reasonable prices.

Orders for work in city or country, and jobbing in all its branches receive prompt attention, and we can confidently recommend him to our numerous subscribers and patrons as being thoroughly skilltul and competent to execute satisfactorily any and all work in this important and highly responsible business. His establishment is located on Madison street and Fifth avenue, Chicago, Ill.

EGBERT & RIGGS,
Carpenters and Builders.
Store and Office Fitting a Specialty.
Office 160 S. Clinton Street, Chicago.
Jobbing promptly attended to.

Sash, Doors, Blinds, Etc.

Among the reputable houses in the manufacture of the above class of goods we must include Messrs. Jacky & Reed, of this city, (the senior having been fifteen years in the business in this city, and consequently well known to the trade.) Having the best of facilities, with the latest approved machinery, specially devised by modern, mechanical ingenuity for those purposes, the most skilled mechanics, coupled with thoroughly seasoned and best material, this firm is enabled to turn out at all times the most superior work at the most reasonable prices. There is nothing adapted for the interior decoration of a building that they are not prepared to do, and do well; hence, their trade is large. A complete assortment of their manufactures is always kept in stock, while work is made to order after new and novel designs peculiar to themselves, or from designs that may be furnished by the customers, as may be desired. They are also prepared to take contracts to any reasonable extent and at the most reasonable prices for first class work.

As the REAL ESTATE AND BUILDING JOURNAL is extensively circulating among the most prominent architects, builders, property owners and capitalists, to them we say, if they desire anything in Sash, Doors, Blinds, Mouldings, Stairwork, etc., call or communicate with the above firm, and we warrant that every order will be executed in the most satisfactory manner. Their office and mills are located at No. 178 Mather street Chicago, Ill.

BUILDING DEPARTMENT.

—)o(—

THE LUMBER MARKET.

It was predicted two weeks ago that country dealers would commence to make orders for lumber, and that by Sept 1st the fall trade would set in with a degree of actual healthy demand. This improvement, which was predicted by the JOURNAL two or three weeks ago, is entirely due to the fact that farmers have harvested their grain and threshed it, and now, if ever during the year, will do considerable marketing. The "building fever" which has taken hold of our larger cities and towns, has extended to the farmers and villagers, and this being the fact, country dealers will either have to stock up or "shut up." No doubt the cry of panic by unreliable newspapers has had much to do with retarding improvements, as well as all kinds of business in the West.

Wholesale dealers here claim that they are unable to get into Iowa with dimension, the middle river and northern points cutting them almost entirely out of trade in this class of lumber, and the same applies in Nebraska and Kansas, where competition bars out a large amount of Chicago trade. Chicago dealers now have decided advantages in the shingle trade, because a large stock has been put in at cheap figures. They are being shipped to all points in the Northwest—even into Dakota. Houses that bonght freely of shingles during the season of heavy arrivals and low prices, will realize a fair profit on their investment.

There is an increased demand for cedar shingles. In the past cedar shingles were not regarded with much favor, because pine mannfacturers preferred to work a part of their logs into shingles. An exchange devoted to lumber says:

"The rising demand for lumber at the yards should have a tendency to steady prices and mitigate the vicious habit of cutting when there is no particular need of it. As yet the improvement in trade has not been so forcibly felt as to prevent considerable slashing. Houses that have labored along during the despondent season are now taking fresh courage, and in their eagerness to secure a portion of the rising demand, they are sometimes offering low lists. Competition is sharp, and all are anxious to meet it. The financial stringency since the May panic has placed some in just that condition in which they desire to make sales as rapidly as possible. Often it is not so much a question of profit as it is one of turning lumber into bankable funds. This feeling will wear off as the active season progresses, the merchants will get into an easy financial condition, and the motive for selling cheap lumber will not be as strong as it is now. In this connection it is pertinent to inquire, What is to be done with the 'official' price list? As it now stands it is a sort of discount list—a zero from which prices are reckoned up or down—mainly down. Will the dealers on Aug. 27 rally around the old list and try and steady it up on its groggy legs, or will they neglect it as during the summer?

Stocks in the yards are now in good condition. All sorts are in supply somewhere in the district. It is alleged that B inch selects are rather scarce, but they are always procurable between yards. Anything that is wanted in the line of lumber can be procured of the merchants here. Stocks are fairly dry in sufficient quantity to meet the demand."

Quotations at the docks are as follows:

Piece stuff, green	$8 .25@ 8.50
Long timbers, green	8.75@ 9.50
Boards and strips, No. 2, green	9.50@11.00

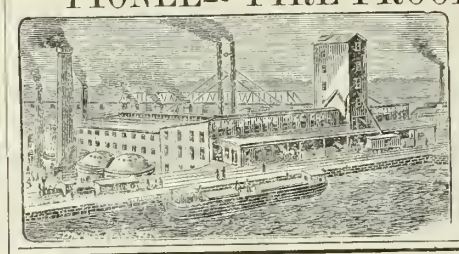
THE MARKET.

The rounds of another week have developed no new features in the land trade. The drift of public and private opinion is that we are to have a turn in the course of trade and values, and that it will be in the direction of improvement. In fact, there is already a perceptible improvement in the demand for lumber, and merchants are looking forward to the fall trade with hopefulness.

The month of August, although a very dull one, has not been barren of results in real estate. During the month twenty-four new subdivisions were filed for record, and some of them quite important, as can be seen by a careful perusal of that column. While the city and the immediate outside belt, confined to a seven-mile radius, have not shown more than half the usual number of transfers and about that proportion in value or consideration, the county as a whole has done enough to keep the boys in the recorder's office very busy.



As will be seen by the records in the JOURNAL, a transfer on South State street, for $30,250, was recently made; also one on Oglesby street for $30,000, and one on Jackson street, near Fourth avenue, for $28,500.

The south half of Hyde Park is doing immensely, as can be seen by reading "South of City Limits" and "Suburban Deeds," headed "Hyde Park."

A very healthy indication for the coming fall is the continuous activity in building all over the city and county, and the further fact that there are fewer vacant houses.

The property south of the new Board of Trade Building, owned by John R. Bensley and others, including Armour & Co., is not to be improved this year, although the plans for the new building have been prepared. Less the court this lot is 142½ feet north and south and 173¾ feet east and west, and the projected building is to have four exposures, to wit: Van Buren street, Pacific avenue, Sherman street and Board of Trade court. The plans are for a twelve-story building, to contain 350, or more, rooms or offices of good size. An offer of $25,000 per year, for a 99 years' lease, has been made and is under consideration, the lessee to pay all taxes, etc. The project when first contemplated was reported in the JOURNAL, and again, when abandoned, or rather deferred. There will be nothing done the present year. This is the best piece of business property in Chicago, and for the price, the best in the United States.

The Recent Improvements of Turner & Bond

IN "DAVID DAVIS' SOUTH ADDITION.

The construction of the Thirty-first street railway, extending from the lake to Brighton, and of the new line on Butler street, with its down town connections, brings into new prominence the peculiar merits as a building locality for wage-workers, of the tract known as David Davis' south addition. This comprises the ten blocks between Twenty-ninth and Thirty-first sts., and the Fort Wayne R. R. and Wallace st. Two years ago this whole area was barren of any improvement. At that time, under the management of Messrs. Turner & Bond, it was opened for residence uses, and no portion of Chicago has since then undergone a more notable change. Fifty houses, built by the above named firm, of varying styles,—pleasing, convenient and durable—enliven the streets of the new subdivision, viz: Hanover, Butler and Wallace sts., and Parnell avenue. They are brick cottages of six and twelve rooms, on ample lots, and by reason of their manifestly thorough construction, and the inducements offered to purchasers of moderate means, have met a lively popular demand. Less than a half dozen remain unsold. No similar locality within the city limits is so cheaply and quickly accessible by so many different lines of steam and horse cars. Five of the former and six of the latter furnish reliable means of conveyance for residents here, and the worker whose time and car fare are paramount considerations, reaches these comfortable homes from any point with but slight delay and expense.

The domestic and business advantages of this section are in fact so numerous and varied that a period of five years will probably witness the Thirty-first street front of this rapidly developing tract lined from Stewart avenue to Wallace street with sightly structures for trade, and the whole corresponding area northward to Twenty-ninth street covered with tasteful dwellings. The owner of these forty acres of land for more than a generation, Judge David Davis, is as familiar to the people of Chicago as the land itself, and our recent conversation with several of the many purchasers of the attractive cottages now located on it, elicits a uniform expression with their present experience of possession, and a hearty appreciation of the enterprise, fairness and courtesy of the managers of the estate Messrs. Turner & Bond.

House and Railroad Building.

Mr. Edward Atkinson, of Boston, in his interesting paper on "Railroad Building," estimates that under normal circumstances we build 6000 miles of railroads annually, at a cost of $150,000,000. This, he states, will be commensurate with the annual increase

of 2,000,000 in our population. All of our periodical financial panics have been traced, in great part at least, to the locking up of vast sums of floating capital in such improvements; yet no one seems to have thought that house building is consuming more capital than railroad building. No doubt, double the amount of capital is put annually in new buildings, or about $300,000,000. In New York there has been invested $40,000,000 in new residences, stores and factories; in Chicago about half that sum annually; but taking the data of New York, Philadelphia, Boston, Chicago, Kansas City, Denver and Minneapolis, it would seem that $300,000,000 is too small an estimate, and that it ought to exceed $400,000,000 for the whole accounting, not including the improvements in old structures. It would seem, therefore, in accounting for depressed times by capital being changed from a floating to a fixed form that it is necessary to include house building as well as railroad building, for, although capital is distributed among tradesmen and laboring men by building of all kinds, economists and statisticians have overlooked the building statistics in accounting for the temporary withdrawal of capital in land and building improvements.

The development of social life in Chicago and throughout the West, and the growth of public taste as shown in the character of private dwellings erected, proves that we have entered upon a new era in this respect. Up to a very recent period the inhabitants were content to provide shelter for themselves without paying any attention to beauty of design in construction and adornment of their dwellings; now, a large class of capitalists have reached a stage of affluence, where, how to spend their fortunes in the most judicious manner possible, is the question. But the building movement is not confined to capitalists. Many men, not in active business, have come to see that money is good for nothing but to spend, and when expended for fine buildings it affords comfort and pleasure as well as security for capital. Formerly, everyone was a speculator and was ready to sell his house if he saw a small profit in the transaction Now, on the contrary, the tendency is largely to build houses and homes for the future. This new principle of living is very plainly shown in the architecture of the dwellings erected, and the unique and beautiful designs displayed in all the newer sections of this city attract the notice and admiration of all; but it is the interiors that display most pointedly the renaissance of household art in the West.

There were 6,754 miles of railroad built in the United States in 1884, making a total length of 121,591 miles of road built up to the 1st of January last. We have nearly half the railroad mileage of the world, Germany, Great Britain, France, Russia, and Austria following next in order, but the length of our railroads considerably exceeds that of all the European lines combined. The total amount of liabilities of our railroads, on account of stocks and debts, is now $7,495,471,311.

The railroad freight transportation in 1883 amounted to 400,453,439 tons, the value of which, at only $25 to the ton, would have exceeded $10,000,000,000. The total length of all tracks was 149,183 miles, of which 78,491 miles were laid with steel rails. The number of locomotive engines employed was 28,823; of freight cars, 748,661; of passenger cars, 7,899; of baggage, mail, and express cars, 6,948.

BUILDING NEWS.

ILLINOIS.

The corner-stone of a new Masonic temple, to cost $18,000, was laid August 19, at Maroa. Bradford—Decker & Mayhue are erecting a brick market building. W. M. Leet has commenced a one-story brick bank building. W. M. Pilgrim has had plans completed for a brick store. Chicago and Vicinity—Bauer & Hill have completed plans for a block of dwellings for H. Stoelker, at 430 to 434 LaSalle street. C. K. Miller will build a $30,000 house, with barn, on State, near Schiller street; plans by A. M. F. Colton. The McCormick estate will build a double building on the northeast corner of South Water and Clark streets. Mr. Stoelker will build two $21,000 flat buildings on LaSalle avenue, north of Division street; Bauer & Hill, architects. Wm. E. Seipp, County Treasurer, will build three $22,000 houses on Groveland Park avenue, north of Thirtieth street. Conrad Seipp will build double flats on South Park avenue, opposite Twenty-seventh street, costing $20,000; also three handsome houses on the southwest corner of Groveland Park avenue and Thirtieth street. Mr. Foley will build a $7,000 brick and stone dwelling on Centre avenue near Harrison street. E. A. Hartwell will build three houses on Jackson st., near Paulina; cost $3000. Supervisor John M. Connell, of Lake View, will build a handsome residence on the lake shore. Mr. Charles Shober will erect a three-story residence on North Wells street, near Schiller; cost is estimated at $8,000. Architect Barfield has planned a Queen Anne frame house for Hy Hoyt, to be built at Woodlawn and cost $4,500. Mr. Boyer has had plans completed for a two-story residence, on the Lake View side of Fullerton avenue, near Lincoln avenue. Mrs. E. L. Irwin will build a nine-room house at Ravenswood, costing $3,000. C. L. Stiles is drawing plans for a three-story store building, on West Jackson street, east of Halsted; also for a pressed brick block on Ogden avenue. Architect N. T. Kelovec has made plans for a $40,000 business building, corner of Sebor and Desplaines streets. A. Hayden will erect an $11,000 brick store and flat building, at 483 West Twelfth street. Christian Madsen will build a $5,000 flat building at 32 Centre avenue; H. Rehnoldt, architect.

NEW YORK.

Hartwell & Richardson have drawn plans for a $25,000 residence in Binghampton. The Elite Roller Skating Company of New York will build a rink, 200x275 feet. H. B. Scholes will erect two three-story and basement, brown stone dwellings, on Rodney street, near Bedford avenue.

MICHIGAN.

A Congregational church has been commenced at Nenaygo. Hart will have a new hotel. Grand Rapids will build two new school houses.

FLORIDA.

T. A. Bass will erect a new hotel at Kissimmee. Until September 1 Henry Co. will receive bids for building a jail. A joint-stock company has been formed at Pensacola for the purpose of erecting a new hotel. The town council of Spring Garden is said to contemplate the erection of a saw mill.

NORTH CAROLINA.

Makepeace & Son have commenced work on their factory.

TEXAS.

Britton & Long will build the court house at El Paso.

MISSISSIPPI.

W. C. Albertson, Moselle, Jones Co., is putting up a saw mill.

MISSOURI.

Mr. Merrill Watson is erecting a residence at St. Louis.

TENNESSEE.

Work has been commenced on the M. E. Church at Chattanooga. A large two-story, brick hotel will be built at Whitesburg. George Hesselmeyer is building a saw mill at Clinton. Prof. Landreth is at work looking for a site for the new water-works.

KENTUCKY.

Fulton, Hickman County, has raised $11,000 to build a college. Lexington—The Armstrong estate will build a five-story business house on Sycamore, between Third and Fourth streets.

INDIANA.

Vincennes—A Presbyterian Church, costing $20,000, will be built. Wabash—C. W. Weesner will build a $10,000 house. Richmond—The Board of Education will build a $17,000, two-story building. Geo. H. Knollenberg will erect a two-story stone and and brick residence. Chas. Jenkins will build a two-story frame residence. Seymour—A structure will be built for the First Baptist church.

OHIO.

Cheviot—H. E. Holtzinger is erecting a fine residence for E. W. Crowther. Cincinnati—A Jewish synagogue will be erected at the corner of Mound and Richmond streets.

The County Commissioners have adopted plans for the new court house for Belmont and Holmes counties, prepared by J. W. Yost. Akron—Seil & Day are building a $10,000 brick business block. An Episcopal church will be built, costing $75,000. Springfield—Wittenberg College will have a $10,000 theological hall. Toledo—A $14,000 block of two-story and cellar dwellings will be built at the corner of Eleventh and Lafayette streets; Rayneer & Seagrave, owners. Brookville—A company of ten citizens is being organized for the purpose of erecting a flour mill at that place.

GEORGIA.

A new court house is to be erected at Covington. Atlanta—A Central Presbyterian church will be built, costing $40,000.

WASHINGTON, D. C.

Senator T. W. Palmer, of Michigan, is building a three-story brick dwelling on Vermont avenue, which will cost $50,000.

Law Department.

MORTGAGE ON UNDIVIDED INTEREST IN LAND—AFTER PARTITION BINDS PART ALLOTTED.—Land which has been equitably converted into personalty by virtue of the testator's positive direction to sell, may be re-converted by the act of the distributees in agreeing to a partition, and such re-conversion will have a retroactive effect so far as to give validity to the lien of a mortgage executed while the direction to sell was in full life. When a testator explicitly directs his executor to sell his real estate and divide the proceeds among his children, their interest is no more than a right to receive a share of the proceeds, and an instrument in the form of a mortgage, purporting to charge the mortgagor's interest in the land, operates only as an assignment of the share which will be due to him when the conversion is actually made; but if, instead of a sale by the executor, there is a partition of the land itself by the beneficiaries, such an instrument at once obtains all the force of a mortgage upon the purport alloted to the mortgagor, its lien dating from the day when it was recorded. Bailey v. The Allegheny Nat. Bank. Sup. Ct. Pa. Phila. Leg. Int., June 20, 1884.

MECHANIC'S LIEN—IMPROVEMENTS MADE FOR LESSEE.—A lease provided that the tenant should make certain improvements and repairs and that they should belong to the landlord at the expiration of the term, in consideration of which no rent was to be paid. Held, that a mechanic's claim for improvements made under such an agre

ment would bind the estate of the lessor. The land is not bound for the erection of a building not provided for in the agreement. When the work which is done upon an old building does not materially change its character or appearance, it is only a repair or an alteration. Long et. al. v. McLanahan et. al. Sup. Ct. Pa. Pittsb. Leg. Jour., July 2, 1884.

MORTGAGE MERE SECURITY—MORTGAGEE NOT ENTITLED TO RENTS.—A deed absolute on its face, but intended as a security for the payment of money, is a mortgage even at law, if accompanied by a separate contemporaneous agreement in writing to reconvey upon the payment of the debt. The American cases sustain the rule that as long as the mortgagor is allowed to remain in possession he is entitled to receive and apply to his own use the income and profits of the mortgaged estates; and although the mortgagee may have the right to take possession upon condition broken, if he does not exercise the right he cannot claim the rents; if he wishes to receive them he must take means to obtain possession by foreclosure. Teal v. Walker. S. C. T. S., 29 Alb. L. J. 70.

SHERIFF'S SALE—RIGHTS OF PURCHASER, USE OF AND PROFITS FOR LAND BEFORE COMPLETION OF TRANSFER.—A sheriff's sale gives the vendee at once an inceptive interest in the land, but he has no right to enter and no claim upon the profits as against the defendant until the acknowledgement of the deed. The defendant may remain in possession and enjoy all the advantages arising therefrom, such as cutting ripened grain, working an open mine, or collecting the oil from an existing well, and the products of these operations are libable to execution by his creditors. Before severance from the realty, however, they are a part of it, and therefore not the defendant's property. His privilege of remaining on the land is one which he may exercise or not, at his own option; his creditors can neither compel him to do so, nor can they levy upon anything not severed from the realty by him. If the defendant voluntarily abandon the property, and the sheriff's vendee enter, without waiting for the acknowledgement of his deed, and the deed is snbsequently acknowledged, all the product thenceforth accruing belong to him, without liability to execution by the creditors of the defendant. Hardenburg v. Beecher. Sup. Ct. Pa. Pittsb. Leg. Jour., May 16, 1884.

Cook County Board.

THE LIST OF ACCEPTED APPOINTEES—SALARIES INCREASED.

The County Board met on Monday. A full Board present.

A communication was received from the attorney of Jefferson, asking that the North ditch on the stone road, between the county grounds and the Milwaukee plank-road, be cleaned as a sanitary measure. it beiug now choked up; referred to the Joint Committee on Charities and Roads and Bridges.

The Committee on Judiciary recommended the payment of $750 to I. N. Stiles for services in the Harms case. He wanted $1000. The report was rejected.

The Committee on Public Service recommended the creation of the office of warden of the insane asylum at a salary of $2000 a year, the abolition of the office of superintendent and the creation of that of medical superintendent of the insane asylum, with a salary of $2000. The committee also submitted a list of salaries which was the same as last year, with these exceptions: Two assistant state-attorneys at $2400 each, instead of $3000; one assistant state-attorney at $2400, instead of $1200; one clerk of Board of Commissioners $1650, instead of $1500; assistant visitors County Agent's office $4 a day, instead of $3; warden of Hospital $2500, instead of $2000; engineer of hospital (he to pay help) $3750; instead of $3000; warden of infirmary $2000, instead of $2200; engineer insane asylum $1500, instead $1200; engineer court honse (he paying help) $3750, instead $3500; assistant county attorney (new) $1200; one clerk for coroner (new) $1000; messenger to Board $720, instead of $600; superintendent of grounds and janitors $1200, instead of one carpenter at $3 a day.

Commissioner Mattocks wanted the salaries of the men in the Abstract Office passed until the committee investigating the office reported.

Commissioner Senne moved that the salaries be the same as during 1883-'84, "when they were high enough."

The motion was lost, yeas 2 (Klehm and Senne); nays 13.

Commissioner Mattocks moved that the salaries of the abstract office be recommitted. This was agreed to—yeas 8, nays 7.

The Committee on Public Service recommended the payment of the Commissioners' per diem as follows: Hannigan, $452; Klehm, $531; Leach, $450; Leyden, $451; Lynn, 475; Mattocks, $417; McCarthy, $453; McClanghrey, $604; Niesen, $456; Ochs, $457; Senne, $523; Van Pelt, $475; Wasserman, $451; Donnersberger, $472; total, $7,130.

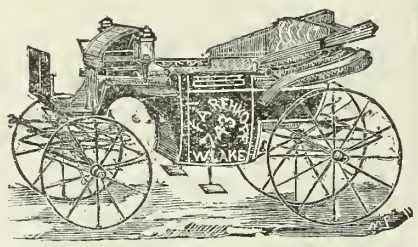
Commissioner Leyden offered a resolution appointing Thomas Kennedy county surveyor to fill the vacancy occasioned by the death of Alexander Wolcott.

Commissioner Van Pelt offered a resolution appointing persons to all the offices in the gift of the Board. The principal ones are as follows:

County-Attorney, Wm. Law, Jr.; Committee Clerk, John C. Strain; County Physician, T. J. Bluthart; Assistant, Joseph Krost; County Agent, James O'Brien; Warden of Infirmary, J. C. L. Frey; Physician, Dr. Hoffman; Warden of Insane Asylum, Henry Varnell; Medical Superintendent, James G. Kiernan; Warden County Hospital. William J. McGarigle; Engineer, E. McDouald; Janitor of the Court-House, Ed Phillips; Engineer, Anton Kakuska. Each Democratic Commissioner got four men in subordinate positions, very few changes being made.

That West Side "Elder."

In the JOURNAL of August 23, there was published a very mild disquisition on the Elderbarry. The article referred to assumed that all persons who read it would readily nnderstand its meaning and force, and that straugers would pass it over. The plant in question has not only been refused by the Park Commissioners, but is known far and wide as the champion curmndgeon of the West side, and is esteemed accordingly.



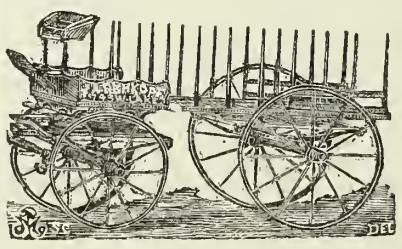
Unlike the genuine species of the elderberry this stalk has been transplanted and transnbstantiated, as it were, until now it has taken on the form and semblance of a man, and consequently has the powers of deception, and by practicing its old habits of "changing" it has now the powers of locomotion as well as ABSORPTION. One of the feats performed by this elderbarry, to wit: the absorbing of the stone step, was witnessed by several people at the uuusual honr of 10 o'clock P. M., when all good "elders" should be in bed. Strange to say, a considerable block of railroad property (collatteral) was also absorbed, by a species of blackmailing, and converted into a large and pretentious dwelling for this elderbarry. This, as a freak in the course of nature, was regarded as the unkindest cut of all, until the particulars concerning a severe case of absorption in the glorious climate of California were made known and circulated and vouched for by a park policeman, who knows a man who can speak advisedly on the subject. Want of space in this issue will prevent the editor from going into a description of the California charity dodge, but suffice it to say there were widows and orphans mixed up in the affair, and the proverbial charity of gamblers furnished a prolific soil for this elderbarry to root in.

West Side Enterprise.

The push and goaheadativeness of Chigoans are not confiued within the limits of the South and North sides. While the majority of the costly and magnificent residences, constructed in Chicago during the last two years, are east of the Chicago river, likewise a majority of the huge store and office buildings, yet the West side must take precedence in population and in the greater number of new buildings erected. West of Ashland avenue, on Washington bonlevard, Park and Warren avenues and on Monroe, Adams, Jackson and Van Buren streets, improvements of every kind are noticed; but in no part of the West side has there been such marked improvements as npon

WEST LAKE STREET,

from Union Park west to Western avenue.



This street, as is well known, is 80 feet wide, and from Union Park east to the river is better adapted to manufacturing and whole sale purposes than any other street running east and west on the West side.

The improvements made in Central Park and the recent adoption of afternoon concerts there, draw a large number of people in that direction, and sinee Lake street has been paved hundreds of pleasnre seekers drive westward upon it to Garfield Park.

ONE OF THE LARGEST CARRIAGE,

truck, buggy and wagon factories on the West side is located at 741 and 743 West

Lake street. and is owned—land, building, factory and all—by Mr. F. A. Rehkopf, who removed from No. 538 South Halsted one year ago last May, to present location. Much of the time since has been devoted to fixing up and arranging the business in the new factory. The building now occupied is 50 feet wide and rnnning back to the alley between West Lake street and Park avenue. The rear end of the premises No. 745 and also the rear of the lot No. 739 have been leased and occupied, to meet the growing demands of Mr. Rehkopf's business. The first floor is nsed for the office and storage pnrposes, in front, and next in the rear of this, occupying the center, is the department for wood work, and the rear on the first or ground floor is nsed as the blacksmith and ironing shop, and on the east side of the rear end is a separate department for the manufacture of the

REHKOPF & ROGERS' PATENT CART.

On the second floor, in front, is located the finishing rooms, and in rear in order, the paint shop, trimming department, etc.; and the rear of No. 741 is nsed as a stock room. Thirty men are regnlarly employed, and during the first fifteen months since removal the house has turned out and sold 238 jobs.

A NEW BRICK BASEMENT

and first story will be added to the building this fall, the plans for which are already prepared. The elevator now in nse is entirely too small, and in the new structure will be 10 feet wide and 18 feet long—the new building to be three stories high. Besides Carriages, Trncks, Buggies and wagons, Mr. Rehkopf has a large run on milk wagons and in a general line of repairing, in which he stands in the front rank with the best Chicago houses.

Riches Without Wings.

We can scarcely remember the time when we have not been taught that "riches have wings." The lessons and experience of each day confirm these early impressions. Today we look upon the wealthy merchant with envy. To-morrow his fortnne is swept away and we pity him. Every man who accumulates property asks himself what he is to do with it. How can he invest it so that the principal will be safe and the increase certain? The merchant and manufacturer are in constant danger from a number of canses that may bring the direst disaster at a moment's notice, and the bonds and stocks of the capitalist are still more nncertain. The past few weeks have again illustrated how very easy it is for riches to take wings and fly away. Vanderbilt has shown considerable shrewdness in investing $50,000,000 of his immense wealth in government bonds. He might have taken this money into Wall street and doubled it in a year. But as it might also have been completely swept away, the fonr per cent. rate of interest, while low, was absolutely sure.

The Astor estate is a large one, and it is donbtless several times as large as when the original John Jacob left it to his heirs. At no time has the Astor property been in danger. Panics and hard times come and go, but the Astor estate continues to grow. There is nothing spasmodic about it. Stocks may rise or they may fall. It matters little to this great honse. Their property is in the most substantial condition imaginable in this world of uncertainties. It is invested in real estate. and capital judiciously invested in real estate may be called "riches without wings." The Astors' income is from rents; and as they collect rents they build houses. Then they collect more rents, and then they buy more land, build more houses

and collect more rents. Their estate does not gain millions in a day, by the manipulations of the bulls or bears; but it is always increasing, and like the tortoise in the fable, the Astors are likely to come out ahead in the race for wealth.

The application of this sermon is short and simple:

BUY LAND.

This application is universal. Almost everyone in this country can follow the suggestion. Any thinking man can see that the days of cheap lands are swiftly going by. Uncle Sam has already given away the choicest part of his estate. A large acreage remains, but much of it is not good. Nevertheless, the coming thousands will be glad to get that, and the time is near at hand when the generous old uncle will have no land to give to anyone.—Dakota Outlook.

Bush Hammer—John Schwarzmann, Washington, D C. 303,594.

Water-Closet—Geo. E. Waring, Jr., Newport, R. I. 303,599.

Hyde Park Improvements.

The Government has ordered that a survey be made for a canal from the Calumet river at Cummings over west to the town of Pullman. It is deemed certain that on a favorable report of the survey an appropriation will be made for digging the canal.

The Hon. H. M. Shepard has had plans completed fot a fine 50x80 residence.

Five houses are being built on Washington avenue between Forty-ninth and Fiftieth streets, one of which is for J J McClellan, of McClellan & Cummins.

Capt. Butlin, of the Goodrich Transportation Co., is building a $13,000 house on Jefferson avenue, near Fifty-first street.

West Park Board.

At the meeting of the West Park Board on Monday the treasurer reported $95,000 as spent up to date, $3,000 as still on hand, and $41,000 as available for expenses up to March 1, 1885. The contract for hauling gravel on the Washington boulevard was given to Lombard & Co. as the lowest bidders. The Board granted permission to Schultenhotz's band to give concerts in Humboldt Park. President Harvey was instructed to see about new lamps for the boulevard.

City Matters.

The Department of Public Works have opened bids for sealed proposals for paving Macalaster place from Centre avenue to Loomis street with cedar blocks, the alley between Wabash and Michigan avenues from Harmon court to Fourteenth street with granite blocks, and Court place from State street to Dearborn with granite. Sealed proposals will also be received for constructiug the brick and pipe sewers contemplated for the South Division of the city.

NATIONAL SHEET METAL ROOFING Co.
Organized under Charter granted by State of Tennessee, September 30, 1882.
SOLE MANUFACTURERS OF
WALTERS' PATENT METALLIC ROOFING AND SIDING PLATES.

TIN SHINGLES

We claim for this Roof the following very essential points which no other sheet metal roof has:

1. **Rain-proof,** without being put together in continuous sheets.
2. **Storm-Proof.** It allows air to pass through freely from underneath.
3. **It can be taken off,** and relaid with absolutely no wastage.
4. **The only,** absolutely rain and storm proof sheet metal roof that continues so from the time it is applied.
5. **The strongest** roof in the world made from sheet metal.
6. **No cleets,** half sheets or shorts, to commence at eaves.
7. **A tin roof,** ready to be applied without skilled labor, or expensive tools.
8. **A roof** in which contraction and expansion is provided for in each separate sheet.
9. **A roof** applied without the use of solder, mallets, seamers, tongs, or fire about the building.
10. **A roof** that is painted by a dipping process, in which every particle of the shingle is thoroughly painted before applying.
11. **A roof** that has two designs in one—a perfect hexagon and a complete arrow—which can be ornamented when desired.
12. **The lightest roof** in the world, and perfectly fire, storm and wind proof.

Cary's
Champion Roofing,
In use here 27 years.

Old worn out gravel, Tin or Iron roofs coated so as to last TEN YEARS.

CHICAGO, Nov. 1883.

We, the undersigned, have used J. M. Cary's Champion Roofing Composition many years, and find it so much superior to the common gravel roof in durability, and fire-proof qualities, that we believe we are doing Building Owners, Architects, and Insurance men a favor in calling their attention to it, knowing as we do, that it is the best roofing composition for new felt roofs, or recoating, or repairing old roofs, now in use in Chicago.

The "Victorious Elevator" in Modern Chicago.

Buildings of substantial, fire-proof construction, six to eight stories in height, and in some cases even higher, of elegant design and immense size, and divided up into innumerable suites of spacious, handsome offices, have, within the past few years, effected a wonderful transformation in the business portion of the City of Chicago. In the residence section the same style of structure is represented, in the shape of towering flats and apartment houses, the accommodations of which, in every suite of rooms, they contain, rival the conveniences of the most elegant dwelling. It was no exaggeration on the part of a leading architect in the city to assert that these fine buildings are simply clusters of houses strung along a vertical roadway—the Elevator,—for without this useful appliance their erection would have been impossible.

During the past few years the improvements made in elevators have been not only valuable to the community, but highly creditable to the interest displayed by their manufacturers in the work of furnishing the public with a safe means of transportation to the upper stories of buildings, and among those abreast of the times in the various improvements, in the style of the work they turn out, and the elegance of their equipments, the Crane Bros. Manufacturing Co., of No. 10 North Jefferson street, Chicago, Ill., occupy the most prominent position.

As builders of the "Victorious", high-speed, steam and hydraulic elevators, for passenger and freight service, they have made the most valuable innovations in the hoisting apparatus and machinery, as well as in the various safety appliances employed to prevent accident to car, passengers or machinery, hence they have and continue to supply their Victorious Elevators for some of the largest business buildings, warehouses, hotels and apartment houses in Chicago and all over the West.

Rapid and noiseless in motion, invariably under perfect control, safe and economical of power, the reputation of the elevators the Company have built is based entirely on their merits, as they have never failed to afford perfect satisfaction where introduced. The fact that they are employed in many of the best buildings, near and far, is a guaranty of their excellence.

Messrs. Crane Bros. Manufacturing Co. are also extensive manufacturers of standard-weight, lap-welded, wrought iron pipe, boiler tubes, brass and iron goods for steam and gas fitters' use, cast and malleable iron fittings, sash weights, etc., etc., all of which have secured a national reputation for sterling worth. Tney issue a very extensive catalogue, which will be cheerfully furnished on application.

Sash, Doors, Blinds, Etc.

Among the reputable houses in the manufacture of the above class of goods we must include Messrs. Jacky & Rees, of this city, (the senior having been fifteen years in the business in Chicago, and consequently well known to the trade.) Having the best of facilities, with the latest approved machinery, specially devised by modern, mechanical ingenuity for those purposes, the most skilled mechanics, coupled with thoroughly seasoned and best material, this firm is enabled to turn out at all times the most superior work at the most reasonable prices. There is nothing adapted for the interior decoration of a building that they are not prepared to do, and do well; hence, their trade is large. A complete assortment of their manufactures is always kept in stock, while work is made to order after new and novel designs peculiar to themselves, or from designs that may be furnished by the customers, as may be desired. They are also prepared to take contracts to any reasonable extent and at the most reasonable prices for first class work.

As the REAL ESTATE AND BUILDING JOURNAL is extensively circulating among the most prominent architects, builders, property owners and capitalists, to them we say, if they desire anything in Sash, Doors, Blinds, Mouldings, Stairwork, etc., call or communicate with the above firm, and we warrant that every order will be executed in the most satisfactory manner. Their office and mills are located at No. 178 Mather street, Chicago, Ill.

Grant & Brady, Solicitors, 28 Portland Block.

MASTER'S SALE. State of Illinois, County of Cook, ss—Circuit Court of Cook County. In Chancery, No. 44228. George W. Northrup, Jr., vs. Elmira Arnold, Frederick Arnold, Edward Koch, Alphonse Marcotte, Alphrosine Homier Marcotte, his wife; Joseph Marcotte, Cleophas Beausoliel, Bermaun Subert and Charles Gendron

Public notice is hereby given that in pursuance of a decree made and entered by said court in the above entitled cause on the eighth (8th) day of August, A. D. 1884, I, Horatio L. Wait, a master in chancery of the Circuit Court of Cook County, aforesaid, will on Monday, the fifteenth (15th) day of September, A. D. 1884, at the hour of eleven o'clock in the forenoon (11 a. m.), on the steps of the main entrance to the Court House on Clark street, between Raudolph and Washington streets, in the city of Chicago, in the county of Cook and state of Illinois, sell at public vendue to the highest bidder for cash, all and singular the following described real estate and premises, in said decree meutioned, situate in the city of Chicago, in the county of Cook and state of Illinois, or so much thereof as shall be sufficient to satisfy said decree, to wit: Sub lot thirteen (13) of the subdivision by the estate of William H. Richards of lots five (5), six (6), seven (7), eight (8), nine (9), ten (10), eleven (11) and (12) of block six (6) in the School Section additiou to Chicago, together with all the buildings and improvements thereou.

HORATIO L. WAITE,
Master in Chrncery of the Circuit Court of Cook County, Illiuois.
Dated August 20, 1884.
GRANT & BRADY, Complainant's Solicitors.

Ohio's wheat crop of this year will yield 43,982,969 bushels of excellent qualiity. This is the largest crop of the State, except that of 1880, when the yield was 48,540,000 bushels. The oat crop will produce 23,893,663 bushels, or about 31.2 bushels to. the acre. The barley crop will yield about 1,000,000 bushels. Corn has suffered from drouth, and is about 79 per cent. of an average crop.

BUILDING DEPARTMENT.

—)o(—

THE LUMBER MARKET.

Taken as a whole the yard trade makes a very respectable aggregate, and embraces a good average assortment of stock, but the business still shows an uneven distribution. Some dealers ridicule the idea of animation among their competitors, and others are surprised to learn of any complaint as to dull business. On prices there is a still wider difference of opinion; so much so that a subscriber to this journal announces that he will sell lumber at from $1 to to $3 per thousand less than the authorized published lists. It is certain that inducements have to be offered by making concessions in prices. This is the case with country buyers, as well as city consumers. Notwithstanding this tendency to discount prices, the demand for lumber in the large cities, especially in Chicago, is brisk to meet the requirements of active building operations. During the month of August there were 392 building permits issued in Chicago, ranging in cost mainly from $1000 to $10,000, and a few as high as $30,000 and $40,000, and one for $356,000. Building in the suburbs is active, but on account of the fact that some of the towns do not issue permits, we cannot give a correct report of the exact amount of building done. A cursory reading of the "Building News" columns in the JOURNAL will furnish the readers with an idea of the extent of building in suburban towns. The greater number of buildings erected in Chicago during the summer are moderate sized residences, and require a proportionately larger amount of lumber than the large office and store structures.

Although building in the country is not as brisk as it has been in the larger cities, it is predicted that farmers and others in rural districts will now, if not before, commence to build on account of the cheapness of lumber and splendid crops. The low price of grain, however, is enough to counteract the effect of good crops to some extent. At Wednesday's meeting the lumber dealers undertook no material revision of the price list, and it is well understood that houses cannot agree on prices. The market for piece stuff is improving on the strength of the probable fall demand. "The Lumber Trade Journal" says: "The reports from dealers in the country continue to predict a good business during the fall. We have received them in the past few weeks from nearly all localities, and very few have stated the outlook was not good. The retail dealers can certainly give the most reliable statements, as they are not, as a class, liable to feel very hopeful unless they see some good evidence for it. The farmers most certainly are encouraged to do improving on their property, and enter into building by the fact of having harvested an unusual crop of small grain, and feeling assured of an enormous corn yield; and the villages in their localities always show a corresponding dispostion, for progress in town improvements is largely guided by the condition of the farmers' finances."

Quotations at the docks are as follows:

Piece stuff, green	$8 .25@ 8.50
Long timbers, green	8.75@ 9.50
Boards and strips, No. 2, green	9.50@11.00

THE

Real Estate and Building Journal

R. C. SMYERS, PROPRIETOR.

CHICAGO, SATURDAY, Sept. 6, 1884.

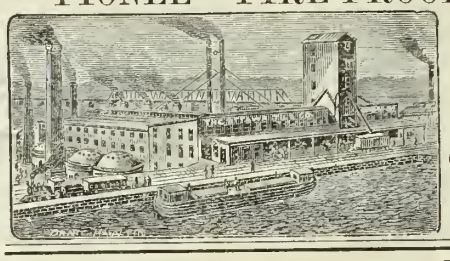
Tax Deeds to Tax Buyers by the County.

All persons who own property and are interested in a report of these Clouds on Titles, will please make known the fact to this JOURNAL.

THE MARKET.

A glance at the subdivisions, as published in last week's issue of this journal, and the the colums of Suburban and Quit Claim Deeds, will furnish all the information worth knowing about the land trade except what is daily transpiring in the city under the head of City Warranty Deeds. The number of transactions in property within the city limits appears to be growing smaller each week, and the only compensation to be found for this meagerness is in the long list of building permits for medium-sized and small houses, which shows that the city is growing. The election excitement, following on the heels of the financial and business depression in the East, has well-nigh sapped the vitality out of land investment for the summer, and but for the most flattering prospects of good crops, the western country, including Chicago, would be in a much less prosperous condition—not to say "comatose state"—as far as business is concerned. It is useless to descend into particulars in order to explain the situation, nor to make a fool of one's self by saying that there is a loss of confidence caused by the remote or strong probability of the present party being defeated at the polls in November, thus threatening the country with "free trade", or "a change in the foreign policy" of the Government, or any of the other silly twaddle of politicians, and one certain newspaper in Chicago. A wide awake real estate man said on Thursday that if he should go about the city preaching such nonsense concerning politics and business as is published by the blanket sheet hinted at, people would call him a crank and a fool. The fact of the matter is the Democratic party, as well as the Republican party, is divided in its own ranks on the subject of the tariff, and Mr. Blaine will have his ambition satisfied when he gets to be president, and will not be so very anxious to twist the British lion's tail, or reach out to conquer other worlds. There is nothing wrong with the country, but business methods on Wall street are against public policy. There is nothing wrong with the currency, and if there was the average politician does not understand how to make it better. Give us either Blaine or Cleveland (not Butler) for president, and then supply Congressman Finnerty with a navy and the JOURNAL will venture the prediction that business will be better than it now is. The surplus of money lying in the public treasury could be converted into a navy, thus getting the money into circulation and quieting the nerves of people who are in the position of the fellow who wanted three of his friends to hold him from whipping his antagonist.

There are some items of interest to be found under the heads of Trust Deeds, Mortgages, etc., which, no doubt, some of our blanket sheets will expaand into lengthy articles with great head lines.



The Real Estate Board met on Wednesday afternoon after a vacation of one month, and arranged the daily call from 12 to 12:30. This hour suits a majority better than the time of 11:30 to 12. Mr. Peirce introduced a resolution authorizing the Committee on Records to learn whether the Council would not pass an ordinance prohibiting the putting up of signs by real estate agents upon other than the property which they had for sale, and providing a penalty for defacing a sign, which was agreed to. It was also stated that many not members of the Board put board signs upon properties in which they had no interest, in order to draw people to their offices. It was also agreed that a committee be appointed to investigate the use of roofs for telephone and telegraph service, and report what measures are necessary to protect the interests of owners, and what the expenses should be, if any, for the use of said roofs.

Plans have been drawn by City Engineer Artingstall for a double bridge at Adams street in anticipation of action by the Council ordering one to be constructed. It will cost in the neighborhood of $100,000, one half of which will be paid by the Adams street Railroad Company, provided they ever build their road. Action to condemn the land needed to widen the river has been commenced, but will be dismissed if a satisfactory arrangement can be made with the Pennsylvania Railroad Company to allow the swinging of the bridge on their property. A letter has been sent to the chief engineer of the company in regard to making arrangements for a consultation with him on the subject of widening the viaduct, etc.

The following streets and alleys are to be improved: With wooden blocks, Sholto, from Polk to Taylor; Forquer, from Halsted to Blue Island avenue; Twenty-second, from Brown to Ashland avenue. With Medina stone: Alley from Jackson to Harrison, between Clark street and Fourth avenue.

It is estimated that at the close of the year there will be a surplus of about $500,000 in the city treasury derived from saloon licenses, over the original estimate. Nine hundred thousand dollars have already been

collected, and another installment for the following four months remains to be added. Commissioner Cregier claims that the funds should be given to the police and fire departments, and to the improvement and extension of the water supply to meet the growing demands of the city. The sidewalk around the City Hall is to be "granolithic."

UNDER an existing ordinance peddlers are allowed to occupy a portion of sidewalk in front of a store, provided they have the permission of the occupants. Some store-keepers take advantage of this ordinance and charge the peddlers for the use of property; in so doing they collect rent for property that does not belong to them.

Complaints have been made against these peddlers, and the Corporation Council is engaged on an ordinance amending the present one. If they wish to peddle anything they must keep their carts moving.

The Town of Lake is now to have street cars from Thirty-ninth street to Englewood, or Sixty-third street, which was announced two years ago by the Journal.

THE decrease in the bublic debt during the month of August was $8,542,852. The figures during July and August were $12,536,141.

THE City Collector took in $609,955 during August, $162,311 coming from special assessments and $447,644 from licenses.

The Elderberry.

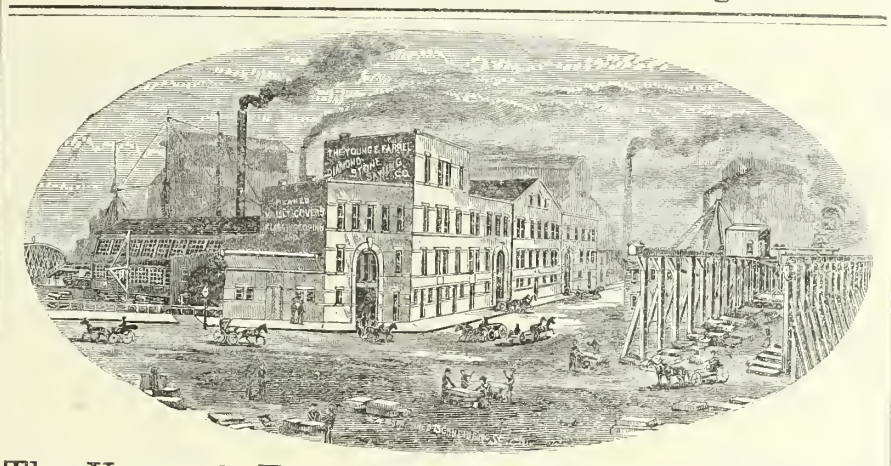
(Continued.)

The following communication, bearing on the Elderberry, has been sent in by a well known business man on the West side. The writer does not hide his signature, and promises to contribute from time to time his knowiedge of the plant under examination:

MR. EDITOR:—Your recent botanical discovery on Washington boulevard will add greatly to the stock of knowledge of the peculiar species named.

The tentacles of this particular specimen have, at a comparatively recent date, reached into the political field, and as a result, the fragrance (?) of its blossom has nauseated good Republicans when convened for the promotion of party interests.

Unlike the genus eucalypti elderbarry throws out miasmatic vapors, imparting, instead of absorbing poison, to everybody and everything within the range of its influence.



With a dignity, savoring of an old-time pulpit experience, this specimen walks and talks—not of the saving doctrines of the Church, but of the best methods of avoiding taxation—saving dollars to himself.

This elderberry preaches occasionally—for ten dollars—married one of his own family not long since, and no doubt turned in the fees as a wedding present. Notwithstanding this record. it is said he rebuked a neighbor for accosting him as "Elder,"—following the example of Peter, who denied his Lord upon three several occasions.

The war record of this savory species is charming and will form the burden of another article.

"QUIS."

Absolutely Pure Paints.

Paint creates more changes in the appearance of our surroundings than anything else. It makes the old look new and fresh; it beautifies, preserves, ornaments, and has a beneficial sanitary effect by repelling and excluding damp. It is one of those things that a civilized people cannot do without, and when actually unadulterated performs many valuable services to mankind;—in fine, it is like that little girl we read of in the nursery rhyme, who,

"When she was good—was very, very good,
And when she was bad—was horrid."

There are few manufactures that afford a better chance for getting up a valuable reputation, and certainly none which admit of a greater opportunity, in a brief time. of doing just the opposite. In the list of reliable paint manufacturers, none are more prominent for the excellence, purity and superiority of their product than the Elastic Paint Co., Room 15, No. 101 Washington street, Chicago. Their paints never discolor by age or from the effects of gas and exclusion from light, are strictly non-poisonous, resist damp, and completely protect the surface of the building, wall, ironwork, etc., to which they are applied. They become part of the material itself, biting, as it were, their way in, and are adapted to all purposes. They are free from all acids, do not injure metals by chemical action, will stand more heat, are easy of application, and practically indestructible. In purity, convenience and economy of use these paints stand in the front rank; and being very elastic, as their name indicats, they do not crack, blister, or peel off, but dry hard, with a gloss as bright and lasting as any varnish. Their merits and superiority are abundantly vouched for by dealers and consumers alike, who pronounce them the Ne Plus Ultra of paints, having stood the most severe tests, and never, in one instance, found wanting. Catalogue and prices will be forwarded on application.

Lumber, Lath, Shingles, Etc.

In the early days of the world, before man had set foot on the American continent, the greater part of it was covered with magnificent forests, and the great mountain chain that stretches from the Arctic to the Antarctic, running through over 130 degrees of latitude,or more than one-third the circumference of the globe, was one vast belt of woodland. Since the access of man this belt has been broken into, in semi-civilized Mexico and Peru by the Aztecs and the subjects of the Incas, and since then by the white and mixed races that have succeeded them. It is only therefore on the North American continent, north of Mexico, that this great forest region can still be seen in anything like its pristine grandeur and beauty. Here the western slopes of the Sierra Nevadas for a great breadth are still covered with vast woodlands for a length of 700 miles from the borders of Arizona to their northern termination, and that of the ranges which form their continuation, while the parallel coast ranges and the Rocky Mountain chain itself to the borders of the Arctic circle, and almost to the Polar Ocean, are also similarly clothed.

Among the prominent houses in Chicago that conduct an extensive lumber business is that of Messrs. J. H. Pearson & Co., with office and yards situated on the corner of Canal and Lumber streets. They furnish large amounts of lumber, shingles, lath, sash, doors, blinds, frames, mouldings, etc., thoroughly seasoned, of excellent quality, and at the most reasonable prices. Their facilities are of the amplest kind, their stock is at all times large and complete, selected from the best forest growths, thoroughly seasoned, and well worthy the attention of the closest and most fastidious buyers. All their goods invariably turn out as represented, and in no instance have buyers failed to keep repeating their orders, which speaks volumes and requires no further comments on our part. Messrs. James H. Pearson, William J. Neebes and Granger Farwell,constituting the firm, are gentlemen who occupy a prominent position among the most active, enterprising and influential houses in their line in the city of Chicago.

THE value of the property in the southwestern part of the city has increased steadily for several years back. The principal purchasers of this property are not capitalists but those who buy for the purpose of making themselves homes. The numerous building and loan associations have done much in building up this part of the city. They furnish a large part of the money nsed in building. The improvements during this year have been such as to enhance the value of surrounding property.

Among those who are making a specialty of this property is Chas. Drabek. Mr. Drabek has moved recently to his new building, Nos. 60 and 62 Canalport avenue, corner of Jefferson street, where he has a fine suite of rooms for his office. He is able to transact any business in regard to the property in the most satisfactory manner, on account of his thorough acqnaintance in this vicinity.

Besides the buying and selling of property he makes loans in any amount at current rates, and places fire insurance in reliable companies. For information in regard to property in the southwestern part of the city, address Chas. Drabek, Nos. 60 and 62 Canalport ave., corner Jefferson st.

BUILDING NEWS.

CHICAGO AND VICINITY.—A $6,000 flat building has been commenced for M. Adams, on Law Place. G. A. Francis is building a two-story flat on Kemper Place; it will cost about $4,000. E. Hinze has begun the erection of a two-story building at the corner of Osgood and Garfield avennes. Messrs. Whelock & Clay are the architects for a block of stores and flats at the southeast corner of Cottage Grove avenue and Thirty-second street; it will be built for U. P.

Smith. Geo. Dippish is erecting five flats at Nos. 131 to 139 Libbey street. Edward Bauman has made drawings for two buildings for C. H. Blair, one at 1911 Indiana avenue, the other at 2643 Michigan avenue. C. Busch will build a two-story dwelling at 2945 South Park avenue, H. Gantzer will build a store and flat buiiding at 151 North May street, at a cost of $10,000. Stafford & Murphy will build a livery stable, at the corner of Huron and Wells streets.

ILLINOIS.— Pekin will erect a new city hall and engine house.

OHIO.—Canfield will have a new town hall.

DAKOTA.—The Manitoba road is building a new depot at Cummings. The Presbyterians of Sioux Falls are thinking of erecting a new church.

MICHIGAN.—Cass City will build a school house at a cost of $8.000. Big Rapids has voted to appropriate $20,000 for a new water supply. The Seymour Bros. of Manistee will erect a $9,000 brick block. The Catholics of Ann Arbor will build a schoolhouse, costing $10,000.

Hyde Park Improvements.

At the Board meeting Aug. 29, the following ordinances were repealed: For the improvement of Oakwood avenue from the city limits to Drexel boulevard, for the improvement of Fortieth street from Drexel boulevard to Lake Michigan, for water pipe in Torrence avenue from One Hundred and Fourth to One Hundred and Ninth streets, for a sewer in Vincennes avenue between Forty-first and Forty-third streets, for water pipe on Ninety-first street and Green Bay avenue, for water pipe on Ninetieth street from the Strand to Commercial avenue, improvement of Cottage Grove avenue and Oakland square between Thirty-ninth street and Drexel boulevard.

The report of engineers, appointed to suggest a system of drainage and sewerage, is as follows:

The area of the village is forty-two square miles, the average length being ten miles and the average width four and two-tenths miles. The land is low, only five and one-half square miles of land having an elevation of ten or more feet above lake level. It follows that storm water and sewage must both be pumped. These reasons are given: (1) It is impossible to drain satisfactorily more than a small fraction of the district by natural means; (2) to secure the same drainage facilities that Chicago now has the ground would have to be raised an average of ten feet over the whole territory to be drained; (3) a gravity system of drainage into an open channel and into Calumet Lake and River would cause such contamination that purification by mechanical means would be necessary; (4) numerous open ditches, as a part of the primary system of drainage, could not be tolerated on the grounds of cost and inconvenience.

An examination of levels shows that Calnmet Lake or river may be used as an outlet for drainage or storm water. The shortest channels and cheapest construction can be obtained by establishing two pumping stations, draining the eastern and western portions respectively, For the eastern the site would be near Eighty-seventh street, between the Illinois Central and Nickel-Plate roads, and for the western on the Calumet River, near the Fort Wayne railroad bridge. From the western station an outlet ditch 12,000 feet long, and large enough to carry, in addition to Hyde Park water, the storm water of twelve square miles of the Towns of Calumet and Lake, should be dug to Lake Calumet, and also one 8,000 feet in length to State street. The two stations should be connected by a continuous conduit, equaling the pressure, enabling either station to do all the work when possible. These drains should be entirely distinct from the sewerage system. The cost, if the western station only is established, will be $194,500; and if both stations are built, $260,500. At least half of the expense of the main ditch, amounting in all to $42,750, should be borne by the Towns of Lake and Calumet. The annual cost of operation for one station is $10,389, or $1.02 per acre; and for both stations, $16,770, or $1.18 per acre.

The system of drainage given above relates wholly to the removal of storm water. The combined system of sewerage, most common, requires pumps of immense capacity, or large storage reservoirs from which the pumps could draw gradually. In Hyde Park the combined system will necessitate pumps of three times the capacity necessary for the drainage system recommended above, or else a storage reservoir of eighty acres at each of the pumping stations. The cheapest and best places for outfall of storm water are Lake Calumet and Calumet River, but it would be criminal to make these bodies of water depositories of sewage.

The following conditions are necessary for satisfaclory drainage in Hyde Park: (1) The sewage should be disposed of in such a manner as to result in no unhealthful consequences; (2) the grades of sewers should be sufficient to make them self-cleaning; (3) the sewage should be renewed promptly and before decomposition sets in; (4) the plan adopted should be adjustable to scattered communities and also to denser population. All methods of sewage disposal in vogue where water-carriage sewage is to be dealt with fall under one of the three following: (1) Chemical and mechanical precipitation processes; (2) discharge into bodies of water; (3) land purification.

Architect Barfield has planned a $4,500 house for Hy Hoyt at Woodlawn—a Queen Anne frame. Architect Frederick Ahlschlager has planned at South Chicago, corner of Ninety-second and Ontario streets, for C. F. Nass, a brick store building and apartment house, to cost $6,000.

THE CALUMET IMPROVEMENT.

The expenditure of the $50,000 appropriation for straightening and widening Calumet River is conditioned by the Government on a relinquishment by all property-owners whose lands may be encroached on of any claim to damages. Such relinquishment has yet to be made by only one or two.

About Terra Cotta.

The popular knowledge of terra-cotta in America may be said to consist in greater or less familiarity with such small objects as the statuettes made in Italy and in Spain illustrative of the types and costumes of the people, and in some general information concerning the relics of various ages, in the museums and churches of Europe; but the capabilities of terra-cotta as a material for practical and artistic uses are little appreciated.

It is our purpose to show not so much what has been done in terra-cotta as what still remains to be done, and how we can learn from the best examples to avail ourselves of the advantages the material offers, especially in certain classes of art work. The manufacture of terra-cotta has been carried on in some form from the earliest civilization of which we have any record; in fact, much of our knowledge of ancient history has been derived from terra-cotta tablets, whose impervious surfaces have retained the original inscriptions for thousands of years, under conditions that have caused stone to crumble away and have corroded metal until all trace of its having been fashioned by human hands has disappeared.

Terra-cotta would literally include everything made of "cooked earth," from brick to china and porcelain; but what is now understood by the term is something neither so rough and coarse as brick nor so fine as porcelain. It is not an imitation of stone nor a substitute for it, but a material possessing distinct advantages and capabilities subject to the limitations imposed by the consistency and the processes of manufacture, which processes have now become so exact as to enable us to define clearly the advantages and disadvantages of terra-cotta as compared with other materials in any particular undertaking. As an understanding of the nature of any material is the first requisite for its proper treatment in design, we shall briefly describe the various stages of manufacture, from the selection of the clay to its final crystalization in a work of art.

The clay selected for terra-cotta is that composed of silicate of alumina and a small percentage of iron, oxids of iron, as in bricks, producing a red color when fired. The clay is stacked in sheds until it is dry; it is then ground to fine powder, and mixed with powdered old terra-cotta or with ground flint, granite sand, or other vitrifiable substances. The mixture is then ground with a certain small proportion of water, to obtain a perfectly homogeneous, ductile modeling clay free from the smallest air cavities. The proportion of water determines the shrinkage that must occur in burning, and this shrinkage can be relied upon as one-twelfth.

All objects, whether mere cubes or statues, must be hollow, and as nearly as possible of the same thickness throughout, as a solid object invariabiy becomes distorted in burning, owing to the interior being more slowly baked than the exposed portions. The darker the color required, the harder the firing must be, often reaching a white heat, or more than 1100 deg. F.

It has not always been possible to attain perfect uniformity of color in a number of pieces of terra-cotta, even when the pieces have been made of the same mixture and burned at the same time; but this fact is rarely a serious objection. On the contrary, in many instances some variation in tone in a monotonous reduplication of form is agreeably effective.—A. F. Oakey, in Harper's Magazine.

Real Estate Law.

SEIZURE AND SALE BY MARSHAL—DISTRESS FOR RENT.

The opinion of the Supreme Court of Texas by Watts, J., holding that so long as goods were in the possession of the United States marshal under writs of attachment, they were not subject to seizure for rent, but when no longer in custodia legis after the sale by the marshal, they were subject to distraint, provided the preference lien continued in force, and the right of innocent third parties had not interposed.

SPECIFIC PERFORMANCE — RESCINDING CONTRACT.

The opinion of the Maryland Court of Appeals, by Robinson, J., holding that failure to pay the purchase money for real estate when due, does not authorize the seller to rescind the contract unless time is the essence of the contract.

MORTGAGE TAX LAW.

The opinion of the United States Circuit Court for the District of Oregon by Deady, J., passing upon several interesting questions relating to the uniformity of taxation and the mortgage tax law of that State.

New York Real Estate.

Although business continues dull there is a hopeful feeling at the brokers' offices. All the dealers in town say there is a good deal of inquiry not only for houses but for lots liable to early improvement. A great deal will depend upon the renting market for suites of rooms in the new apartment houses. It is estimated that fully 3000 suites never before occupied will be offered to rent this fall. It is too early to predict what effect this will have, but the impression seems to be that the supply will be greater than the demand. But, as in everything else, there will be a survival of the fittest, that is to say. the most attractive and the relatively cheapest will be rented and those with inferior accommodations and in undesirable localities will go over until spring. It is clear that this season will test the kind of apartments which are best suited to New Yorkers. There will be a wide liberty of choice in location as well as in price. We fear there will be some disappointment among persons who invested their money unwisely in this class of buildings.

The Real Estate Exchange was never so dull as during the past week. However, everyone expects matters to mend soon, as the brokers are returning from their summer haunts. The fall renting season will not open until towards the end of Sepeember.

THE RECORD.

BUILDING PERMITS.

James Murphy, 1-story cottage, 20x50, No 3631 LaSalle st, $1300.

A Churchill, 3-story livery stable, 40x94, Nos 186 and 188 Green st, $12,000.
